

PENTANET AND CAMBIUM EXECUTE NETWORK-AS-A-SERVICE AGREEMENT FOR 5G NETWORK EXPANSION PLANS

Pentanet Limited (**ASX: 5GG or Pentanet or Company**) is pleased to announce that, further to the ASX announcement on 6 March 2023, the Company has completed the execution of a binding Network-as-a-Service Agreement (NaaS) with Cambium Networks Ltd ("Cambium").

There are no material changes to the key terms of the agreement, as previously announced. The term of the agreement will commence with the placement of the first order under the NaaS.

This announcement has been authorised for release by the Managing Director of Pentanet Limited, Mr Stephen Cornish.

Chief Financial Officer

About Pentanet

Pentanet is a Perth-based, growth-focused telco delivering high-speed internet to a growing number of subscribers by providing next-generation internet speeds. This is achieved through Pentanet's market-leading private wireless network, the largest in Perth, as well as reselling fixed-line services such as nbnTM and Opticomm.

The Company's flagship wireless network has benefits for both customers and investors, offering an outstanding customer experience and a fixed wireless product that is technically superior to most of the nbnTM with attractive margins for investors. This sets Pentanet apart from most broadband providers, which typically only resell the nbnTM.

Pentanet is also part of the rollout of the next wave of subscription-based entertainment services – cloud gaming. The Company's Alliance Partner Agreement with NVIDIA allowed Pentanet to be the first to bring their GeForce NOW technology to Australia in 2021. Since launch, the platform has amassed over 450,000 users.
