## MANAGING DIRECTOR COMMENCES

### Peter Harold commences as Managing Director and CEO to drive Rumble's next phase of growth at Earahedy

Rumble Resources Limited (ASX:RTR, "Rumble" or "Company") is pleased to announce that Peter Harold has commenced today as Managing Director and Chief Executive Officer (MD and CEO).

Peter will oversee Rumble's next critical growth phase as it continues to expand and enhance the emerging Tier 1 Earahedy Zn-Pb-Ag Project and the Company's other highly prospective exploration projects in Western Australia.

Rumble non-executive director Peter Venn, who was interim MD, will now transition to the role of Technical Director, working closely with Mr. Harold, and will continue to play a key role in delivery of the Company's organic growth model through exploration and development.

Mr. Harold is a process engineer and highly accomplished mining executive with over 30 years of strategic, commercial, and corporate experience in the minerals industry. Prior to joining Rumble, Peter was MD and CEO of Poseidon Nickel Limited (ASX: POS) for 3.5 years and was instrumental in raising significant equity to allow the completion of the Bankable Feasibility studies on the Black Swan Nickel Project and the Windarra Gold Tailings Project. This also allowed the funding of significant resource drilling and exploration activities and the Black Swan restart pre-works.

Prior to his time at Poseidon Peter was the Managing Director of Panoramic Resources Limited (ASX: PAN), a company he co-founded as a \$3 million IPO in 2001. Peter led Panoramic through the financing and development of the Savannah Nickel Project in the East Kimberley and the acquisition and restart of the Lanfranchi Nickel Project near Kambalda in the early 2000s. The company reached a market capitalisation of \$1.2 billion in 2007, with over 400 employees producing around 20,000 tonnes per annum of nickel in concentrate from two underground mines.

Peter has been a non-executive director and chairman of numerous ASX listed companies over the past 25 years and is currently non-executive chairman of Rare Foods Australia Ltd (ASX: RFA), and non-executive chairman of Poseidon Nickel. Peter is passionate about helping young people and was on the board of Youth Focus for nine years and chairman for five years. Youth Focus delivers frontline services and education programs to young people, which aims to reduce symptoms associated with suicide, depression, anxiety and self-harm, and build long-term mental wellbeing.

Commenting on his commencement, Mr. Harold said: "after a three-month sabbatical to recharge the batteries I'm very excited to be starting at Rumble. I was drawn to Rumble by the combination of commodity mix, size of the existing resource at Earahedy, the exceptional growth potential of the Project and the quality of the board and management team. I started my career in mining on the Golden Grove zinc/copper project and have always wanted to get back into zinc given it plays such a vital role globally in the transition to a renewable future. I also believe the supply/demand fundamentals will be weighted heavily on the side of the zinc miners going forward. I'm looking forward to working with the Rumble team to unlock the full value of Earahedy and our other projects".

Rumble's Technical Director, Peter Venn, said: "as I stated previously, we are delighted to have secured someone of Peter's capability and regard in the mining industry to be our MD and CEO. His previous experience and success in building companies from early-stage exploration through development to production is invaluable. We are looking forward to the strong leadership and vision that Peter will bring to help grow our young team, and ultimately unlock the full value of our flagship Earahedy asset whilst also developing our other projects.

I've enjoyed my role as interim MD and look forward to working closely with Peter in my new role as Technical Director".

Refer to ASX release dated 23 October 2023 titled "Rumble appoints highly experienced mining executive Peter Harold as Managing Director and CEO" for more information in relation to the terms of Mr. Harold's employment.

### About Rumble Resources Ltd

Rumble Resources Limited is an Australian based ASX Listed exploration company that is firmly focussed on rapidly advancing the major Zn-Pb-Ag discovery at the Earraheedy Project in Western Australia. Since its discovery in April 2021 broad spaced drilling has rapidly uncovered an emerging world class scale base metal system, with interpretative geology and drilling continuing to make new discoveries and highlight multiple large-scale deposit targets.

The Company also has a significant pipeline of advanced exploration base metal, lithium and gold projects located in Tier 1 regions of Western Australia.

Rumble's board and management team has a successful track record in making discoveries and project development.
