

**ASX RELEASE****22 March 2024****ASX: NVU**

## **Nanoveu Trading Suspension**

Nanoveu Limited (ASX: **NVU** or the **Company**) wishes to provide an update to shareholders on the suspension of its securities from trading on ASX.

As announced on 19 March 2024, the Company has obtained orders from the Supreme Court of Western Australia rectifying breaches of the Corporations Act in relation to failures to lodge:

- a) cleansing notices in strict compliance with the requirements of sections 708A(5)(e) of the *Corporations Act 2001* (Cth) (**Corporations Act**) in connection with certain shares issues specified in that announcement; and
- b) its 30 June 2023 half year financial report, director's report and auditors report by the date required in section 320(1) of the Corporations Act (being, 13 September 2023).

The Company confirms that it is in discussions with ASX regarding its financial position. Shareholders can expect those discussions to continue next week in the lead up to the Company releasing its Annual Report for FY23 (expected by 28 March 2024).

Until those discussions have been resolved, the Company's securities will remain suspended from trading.

-Ends-

*This announcement has been authorised for release by the Board of Directors.*

**About Nanoveu Limited**

Nanoveu is a company specialising in protective films and coatings. <https://www.nanoveu.com/>

**Nanoshield™** - is a film which uses a patented polymer of Cuprous embedded film to self-disinfect surfaces. Nanoshield antiviral protection which is available in a variety of shapes and forms, from mobile screen covers, to mobile phone cases and as a PVC commercial film, capable of being applied to a number of surfaces such as door handles and push panels. The perfectly clear plastic film contains a layer of charged copper nanoparticles which have antiviral and antimicrobial properties. This technology is also being applied to fabric applications targeting use in the personal protective equipment sector.

**Nanoshield™ Marine** prevents the accumulation and growth of aquatic organisms such as algae, barnacles, and mussels on the hulls of ships, boats and other structures that are submerged in water.

**Nanoshield™ Solar** is designed to solve a major issue for solar panels, being reduction of power output from panel surface debris.

**EyeFly3D™** - is a film applied to digital displays that allows users to experience 3D without the need for glasses on everyday mobile handheld devices.

**Customskins** - are vending machines capable of precisely applying screen covers to mobile phones with an alignment accuracy of 150 microns.

**EyeFyx** - currently in the research and development stage, EyeFyx is a vision correction solution using hardware and software to manipulate screen output addressing long-sightedness without the need to wear reading glasses.

**Forward Looking Statements**

Statements regarding plans with respect to Nanoveu's projects and products are forward looking statements. There can be no assurance that Nanoveu's plans for its projects or products will proceed as expected and there can be no assurance of future sales.
