

GLOBAL LITHIUM RESOURCES

Investor Presentation

21 February 2024

ASX:GL1

Important Notice and Disclaimer

These presentation materials and the accompanying verbal presentation (together, the **Presentation Materials**) have been prepared by Global Lithium Resources Limited (**Global Lithium** or **Company**). By receiving the Presentation Materials, you acknowledge and represent to the Company that you have read, understood and accepted the terms of this disclaimer.

You must read this important notice before you attempt to access the Presentation Materials. The information on this page is not part of the Presentation Materials. If you do not understand it, you should consult your professional adviser without delay.

NOT AN OFFER

These Presentation Materials are for information purposes only. The Presentation Materials do not comprise a prospectus, product disclosure statement or other offering document under Australian law (and will not be lodged with the Australian Securities and Investments Commission) or any other law.

The Presentation Materials also do not constitute or form part of any invitation, offer for sale or subscription or any solicitation for any offer to buy or subscribe for any securities nor shall they or any part of them form the basis of or be relied upon in connection therewith or act as any inducement to enter into any contract or commitment with respect to securities. In particular, these Presentation Materials do not constitute an offer to sell or a solicitation to buy, securities in the United States of America.

NOT INVESTMENT ADVICE

The Presentation Materials are not investment or financial product advice (nor tax, accounting or legal advice) and are not intended to be used for the basis of making an investment decision. Recipients should obtain their own advice before making any investment decision.

SUMMARY INFORMATION

The Presentation Materials do not purport to be all inclusive or to contain all information about the Company or any of the assets, current or future, of the Company.

The Presentation Materials contain summary information about the Company and its activities which is current as at the date of the Presentation Materials. The information in the Presentation Materials is of a general nature and does not purport to contain all the information which a prospective investor may require in evaluating a possible investment in the Company or that would be required in a prospectus or product disclosure statement or other offering document prepared in accordance with the requirements of Australian law or the laws of any other jurisdiction, including the United States of America.

The Company does not undertake to provide any additional or updated information whether as a result of new information, future events or results or otherwise.

FORWARD LOOKING STATEMENTS

Certain statements contained in the Presentation Materials, including information as to the future financial or operating performance of the Company and its business operations, are forward looking statements. Such forward looking statements:

- are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies;

- involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements; and may include, among other things, statements regarding estimates and assumptions in respect of prices, costs, results and capital expenditure, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions.

The Company disclaims any intent or obligation to publicly update any forward-looking statements, whether as a result of new information, future events or results or otherwise.

The words “believe”, “expect”, “anticipate”, “indicate”, “contemplate”, “target”, “plan”, “intends”, “continue”, “budget”, “estimate”, “may”, “will”, “schedule” and similar expressions identify forward looking statements.

All forward looking statements contained in the Presentation Materials are qualified by the foregoing cautionary statements. Recipients are cautioned that forward looking statements are not guarantees of future performance and accordingly recipients are cautioned not to put undue reliance on forward looking statements due to the inherent uncertainty therein.

NO LIABILITY

The Company has prepared the Presentation Materials based on information available to it at the time of preparation. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of the information, opinions and conclusions contained in the Presentation Materials. To the maximum extent permitted by law, the Company, its related bodies corporate (as that term is defined in the *Corporations Act 2001* (Cth) (**Corporations Act**)) and the officers, directors, employees, advisers and agents of those entities do not accept any responsibility or liability including, without limitation, any liability arising from fault or negligence on the part of any person, for any loss arising from the use of the Presentation Materials or its contents or otherwise arising in connection with it.

COMPLIANCE STATEMENTS

The Company confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcements, and that the form and context in which the Competent Persons findings are presented have not been materially modified from the original announcements.

Where the Company refers to the Manna Lithium Project production target in this announcement (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and that all material assumptions and technical parameters underpinning the production target estimate or forecast financial information derived from the production target (as applicable) in that announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not materially changed from the original announcement.

Where the Company refers to Mineral Resources in this announcement (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource estimate with that announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not materially changed from the original announcement.

Strategic Highlights

Multi-asset development optionality

- Combined Mineral Resource of **54Mt @ 1.09% Li₂O¹**
- Two projects provide development optionality and funding alternatives
- **70% offtake** uncontracted

JORC compliant resources

- Wholly owns **2 JORC** compliant lithium resources in Australia listed on the ASX
- Manna MRE update following **60,000m** CY23 drilling program

Tier 1 Jurisdiction

- Located in **world's best mining jurisdiction of Western Australia**
- Close to existing lithium projects and **major infrastructure**

Strategic partnerships and well-funded

- **Strategic partnerships** with blue-chip counterparties - Canmax and Mineral Resources (ASX:MIN)
- **Well-capitalised with strong balance sheet** to achieve key milestones towards FID on Manna

Experienced Board, strong lithium credentials

- **Experienced Board** and management team with deep background in mining, exploration and project development
- MD is **Chair of the LME Lithium and Cobalt Committee**

Value accretive, de-risked and growth focussed

- Continue to seek and review **strategic M&A** opportunities
- **Resources diversification** via development of other critical mineral resources

The Board – Setting the Strategy

Geoff Jones

Non-Executive Chair

Current CEO of MACA Interquip, Non-Executive Director of Rumble Resources (ASX:RTR). Previous MD of GR Engineering Services (ASX:GNG). 35 years' experience in engineering, project delivery and management in minerals processing.

Ron Mitchell

Managing Director

Current Chair of the LME Lithium and Cobalt Committee; Former Executives roles at Tianqi Lithium & Talison Lithium; 14 years' experience in the lithium industry. 7 years living and working in Nth Asia.

Dr Dianmin Chen

Non-Executive Director

Founder of Global Lithium with 35 years' experience in metals, mining and capital markets. Former Barrick Gold senior management and Managing Director / CEO of Norton Goldfields Limited.

Hayley Lawrance

Non-Executive Director

Commercial lawyer; Director and company secretary for +22 years with a mining industry focus including ESG and approvals; Chair of Holyoake Inc.

Greg Lilleyman

Non-Executive Director

Former Fortescue Metals and Rio Tinto executive with 30 years of international experience in the mining sector. Key global contacts and networks throughout the mining sector.

Kevin Hart

Company Secretary

Chartered accountant with +30 years' experience in accounting and administration of ASX listed public companies; Principal of Automic Group.

The Leadership Team – Driving the Culture

Ron Mitchell
Managing
Director

Matt Allen
Chief Financial
Officer

Chartered Accountant, Fellow of FinSIA and Graduate Member of AICD with +25 years of senior executive experience in the resources finance sector in a range of commodities including rare earths and oil and gas. Experienced in transitioning companies through exploration into production operations covering financing, treasury operations, risk management and financial control.

Dr Tony Chamberlain
Project Director

PhD in Metallurgy with +25 years of experience in the mining industry. He held several senior operational and management roles during his 12 years at WMC Resources and BHP Billiton. Dr Chamberlain has been involved with a number of ASX listed developers in various executive and board roles.

Logan Barber
GM Geology

Highly successful Geologist with over +15 years of exploration experience focused on Lithium, Iron Ore, Base and Precious Metals. He has significant strengths in project generation and evaluation.

Simon Corrigan
Approvals &
Corporate Affairs
Advisor

More than 20 years of experience in approvals, government relations, community relations and communications. He held several political advisory including as a Chief of Staff in the WA Government. He then went on to hold senior roles at CITIC Pacific Mining, Atlas Iron and BHP.

MANNA LITHIUM PROJECT

- 100% owned project
- Tier 1 mining jurisdiction
- Outcropping spodumene bearing pegmatite
- Indicated & Inferred Mineral Resource of 36.0Mt @ 1.13% Li₂O

Manna Exploration Upside

Exploration

- Two years of intensive exploration:
 - CY22 – 46,000m¹
 - CY23 – 60,000m²
 - Current MRE (**36.0Mt @ 1.13%**) based on historical and CY2022 drilling³
- Updated MRE anticipated following CY23 program
- Infill drilling to increase confidence in resource classification
- Extensional drilling focussed on growing the resource
- Resource open at depth and in multiple directions
- Direct and indirect landholding increased 280% to 700km² in 2023
- CY24 drilling program being finalised

¹ Refer ASX release titled "COMPLETION OF MANNA TRANSACTION AND STRATEGIC PLACEMENT", 15 November 2022.

² Refer ASX release titled "2023 MANNA DRILLING PROGRAM COMPLETES", 8 December 2023

World Class Location

Major Mines & Projects

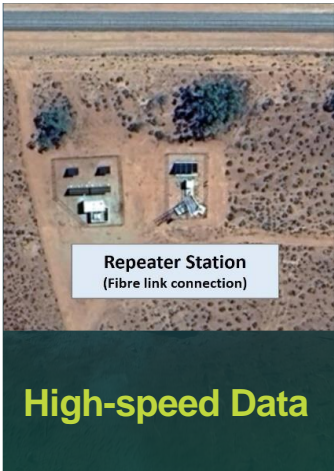

City of Kalgoorlie-Boulder

Trans Australian Railway

Access Road

High-speed Data

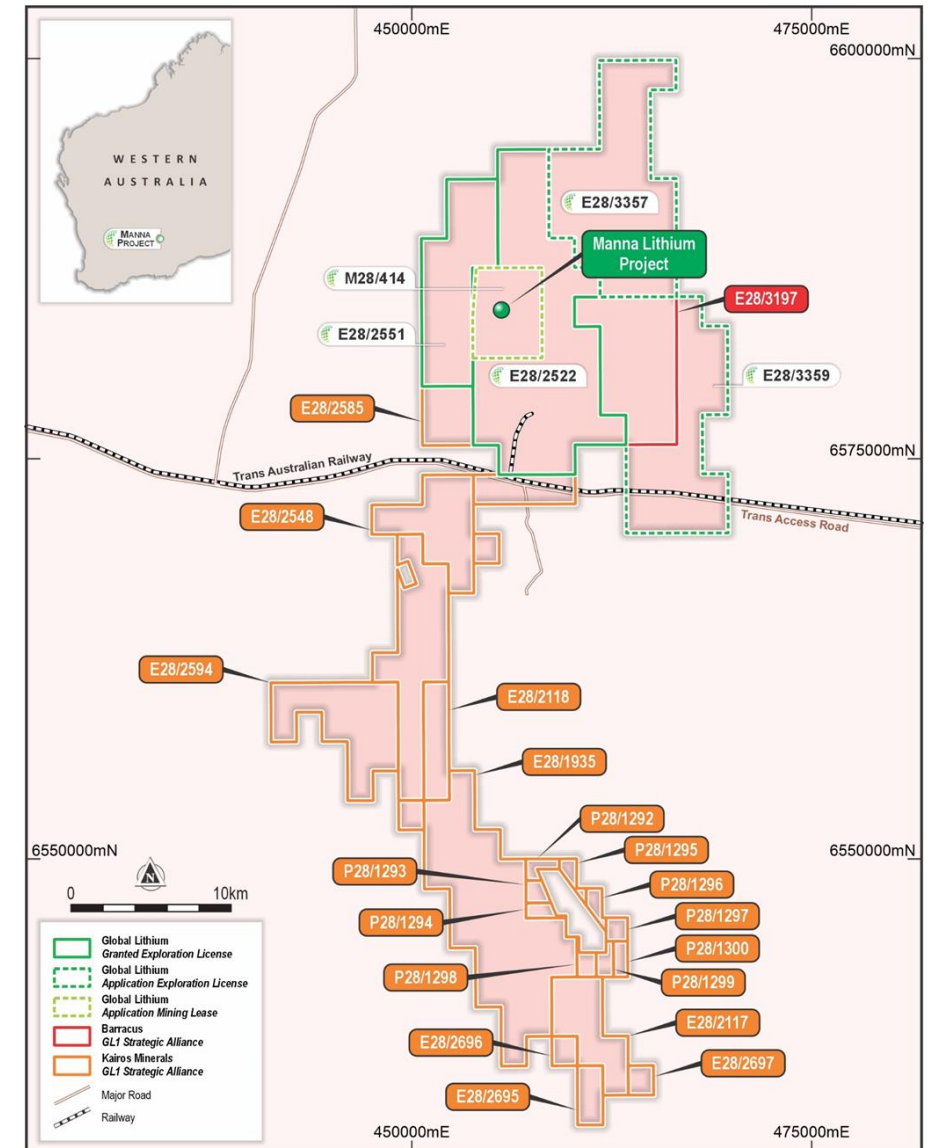

Utilities

Manna Lithium Project – Changes to Tenement holding

Tenement Changes

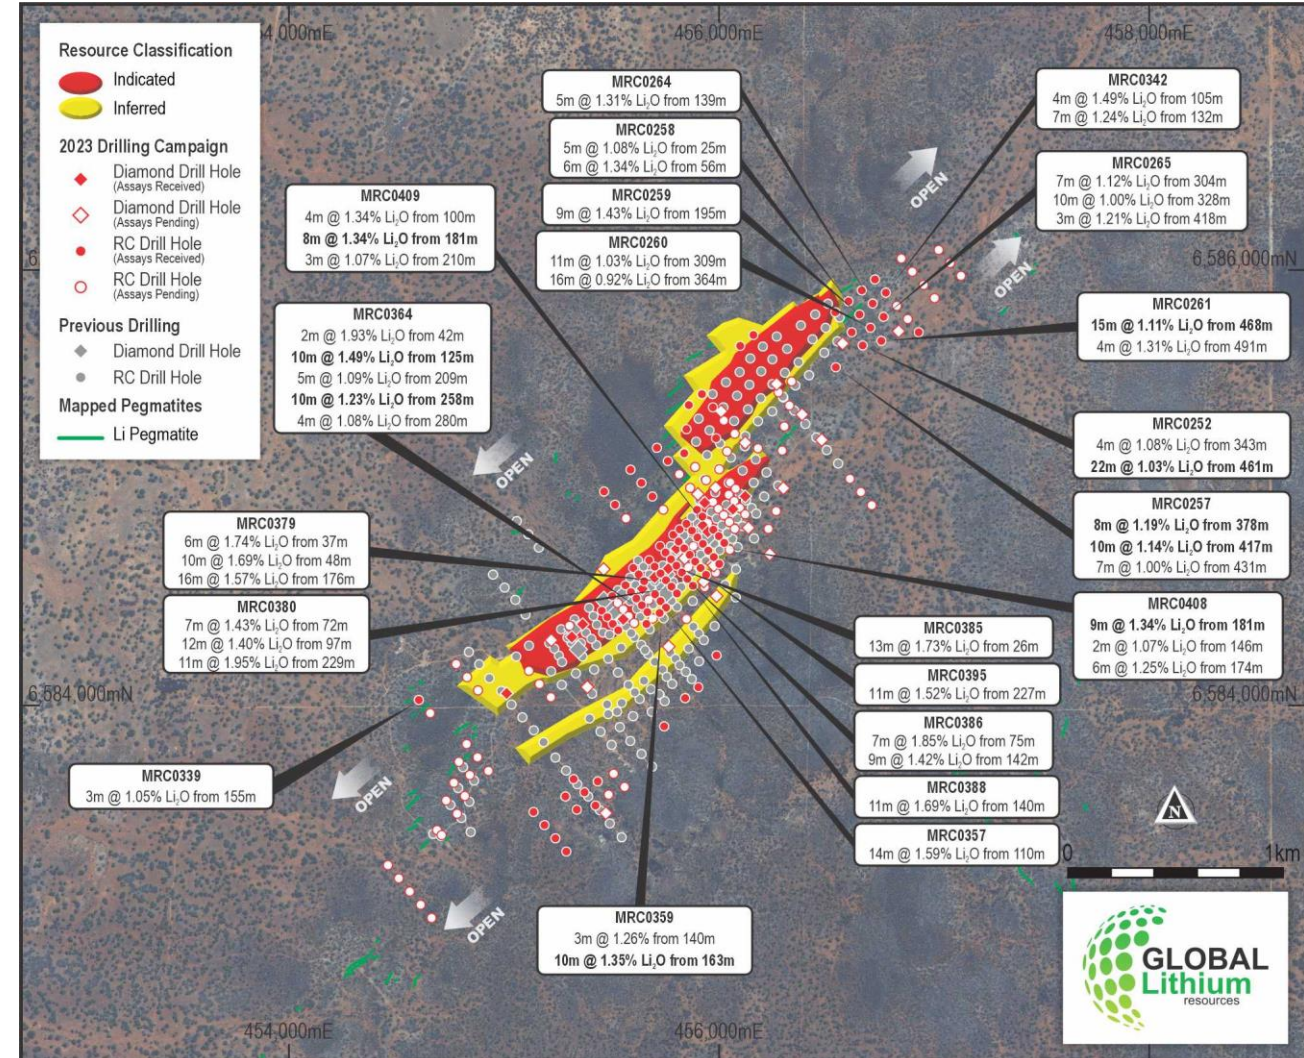

- E28/3359 won in ballot – 19 blocks, mainly overlying granite/syenite
- E28/2585 – compulsory partial surrender by KAI. Applications by three parties including a Hancock subsidiary
- Manna total direct and indirect landholding now 700 km²
 - increased 280% from Jan 2023

High-Grade Drilling Results Continue

Over 60,000m of Reverse Circulation and Diamond Drilling completed during 2023

- Further high-grade results received from CY23 resource infill and expansion drilling
- Best drill intercept to date of **26m @ 1.53% Li₂O**
- Manna Central resource area continues to demonstrate continuity and return high-grades
- Significant intercepts outside the current resource
- New zone of lithium mineralisation identified under cover southwest of Manna Central
- Manna pegmatites have returned grades >1% Li₂O over a 3.2km strike length to a 450m vertical depth
- Complete assay results expected Q1 CY24 and will be included in updated MRE in Q2 CY24

Manna - Central Zone

Infill drilling continues to demonstrate continuity and deliver high-grade results

- High-grade infill drilling results from CY23 program include:
 - 26m @ 1.53% Li_2O from 249m in MRC0290
 - 15m @ 1.58% Li_2O from 251m in MRC0306
 - 13m @ 1.34% Li_2O from 75m in MRC0356
 - 10m @ 1.35% Li_2O from 163m in MRC0359
 - 10m @ 1.49% Li_2O from 125m in MRC0364
- Key sections infilled to a 40 x 40m spacing to support mine planning and MRE update
- Central pegmatite zone tested over a 1.4km strike to a vertical depth of 450m

Manna - North Zone

Drilling in Manna north-eastern extension delivers significant intercepts outside of current resource

- CY23 drilling in north-eastern extension extends mineralisation, including:
 - 10m @ 1.61% Li_2O from 317m in MRC0236
 - 8m @ 1.19% Li_2O from 378m in MRC0257
 - 10m @ 1.14% Li_2O from 417m in MRC0257
 - 22m @ 1.03% Li_2O from 461m in MRC0252
 - 15m @ 1.11% Li_2O from 468m in MRC0364
- Assay results pending from drilling targeted to confirm shallow extensions of mineralisation along strike to northeast
- Underground study underway focussed on the Manna North mineralisation

Manna - South Zone

Step out exploration drilling identifies new zone of lithium mineralised pegmatite

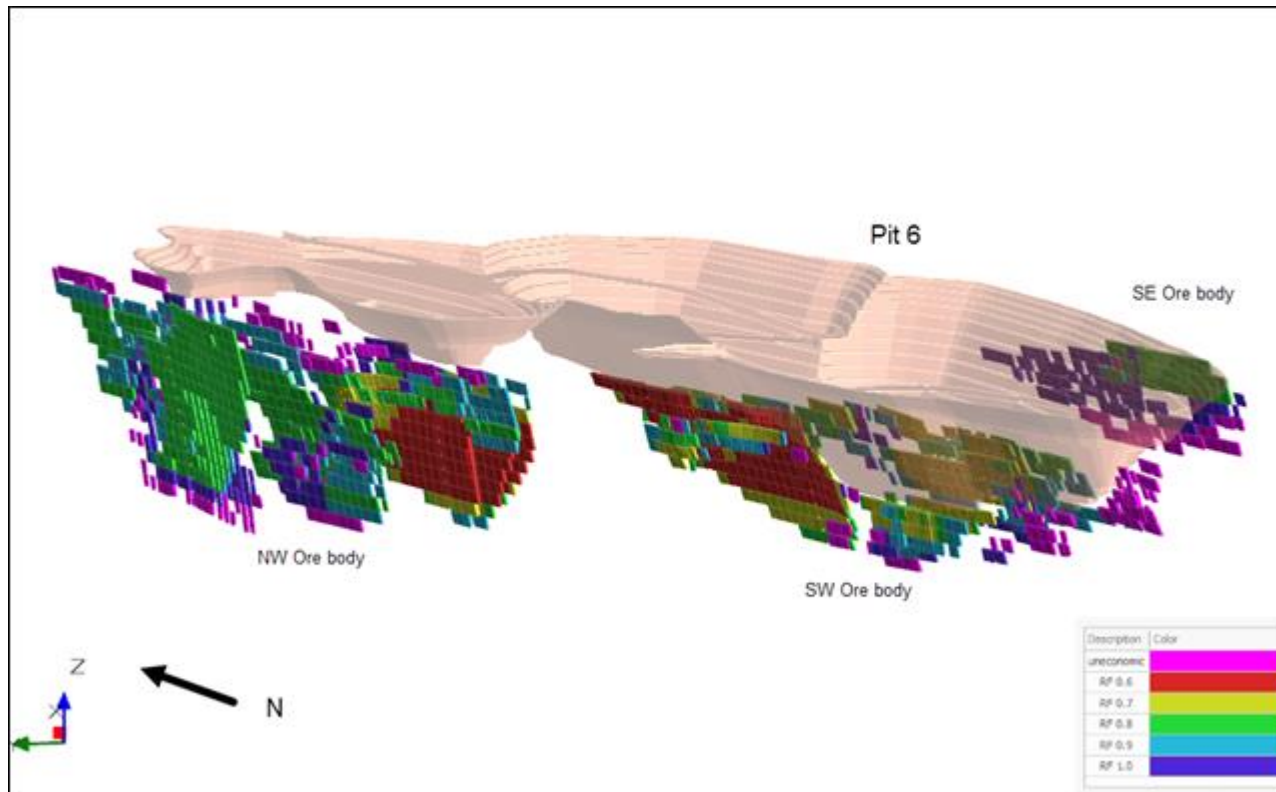

- New zone to the south of Manna Central resource area demonstrates potential for new discoveries and large resource
- Highlights from step out exploration drilling include:
 - MRC0339
 - 4m @ 0.64% Li_2O from 137m
 - 6m @ 0.79% Li_2O from 146m
 - 3m @ 1.05% Li_2O from 155m
 - 6m @ 0.93% Li_2O from 161m
 - 11m @ 0.64% Li_2O from 173m
- Assays still pending with results expected Q1 CY24
- Follow-up drilling in CY24 to target up dip and strike extensions

Manna - VRIFY Geological Model

Conceptual Combined OP/UG option

- Concept Study compared three options for “future opportunity” & outlined framework for an underground DFS
 1. Underground to follow completion of open pit mining at Manna and Manna North pits
 2. Underground mining from an adjusted DFS open pit position.
 3. As per option #2 above with the assumption that there is no open pit mining undertaken at Manna North
- **Outcomes**
 - Underground mining is feasible in the latter years of mining
 - Underground not favourable against open pit in initial years, i.e. difficulty achieving process throughputs with narrow stopes and multiple active mining areas

Definitive Feasibility Study

- DFS and related metallurgical studies well advanced
- Completion of DFS expected CY24 and to incorporate:
 - Updated MRE including all CY23 drilling program results
 - Detailed mine schedule
 - Metallurgical and process flowsheet test work results
 - Detailed operating and capital costs
- Metallurgical test work demonstrates rougher flotation recovery >95% at 5.5% Li_2O or better and SC grade of >5.5% Li_2O ¹

Approvals and Permitting

Environmental

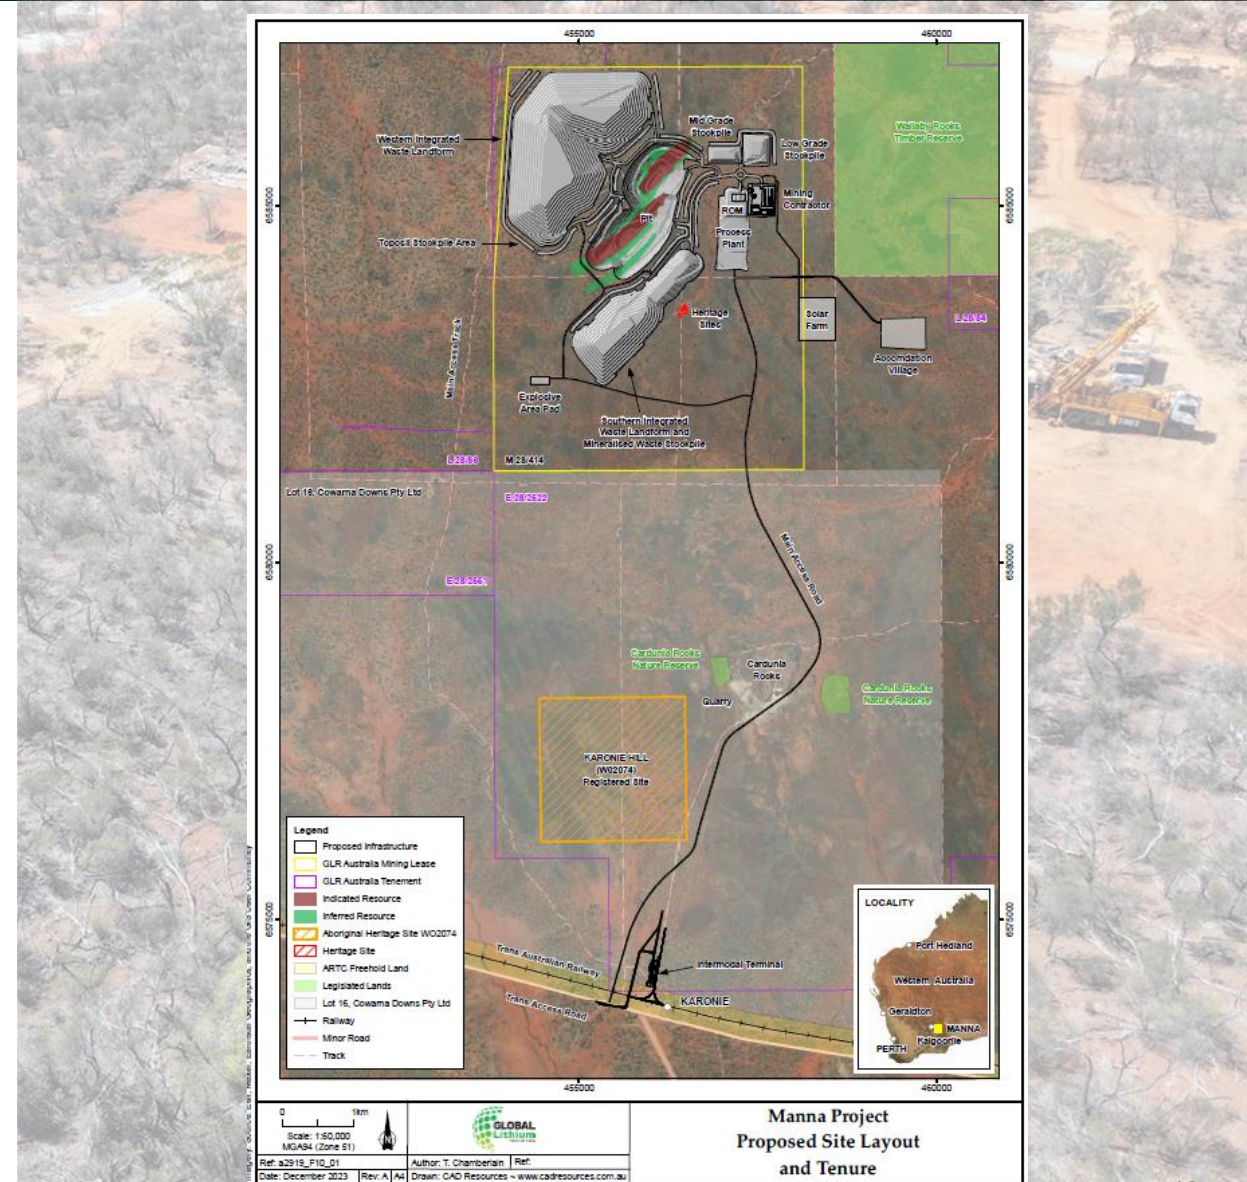

- All flora and fauna surveys completed with no significant impacts identified

Native Title and Heritage

- All heritage surveys completed with no culturally significant sites identified
- Native Title Mining Agreement (NTMA) negotiation well advanced

Mining Lease

- Mining Lease application (MLA 28/414) lodged with Department of Mines, Industry Regulation and Safety (DMIRS)
- Mine layout has been finalised and Mining Proposal now being prepared
- Mine Closure Plan well advanced
- Work Approval applications being drafted

2024 Key Milestones: De-risked and Disciplined

Well positioned to capture significant upside with anticipated lithium market recovery

MARBLE BAR LITHIUM PROJECT

- 100% owned
- Tier 1 mining jurisdiction
- Inferred Mineral Resource of 18.0Mt @ 1% Li₂O

Highly Prospective Geological Setting

Geology

- Spodumene bearing pegmatite hosted in greenstone and granite contact
- Similar geological settings to nearby Pilgangoora¹ and Wodgina² deposits

Resource

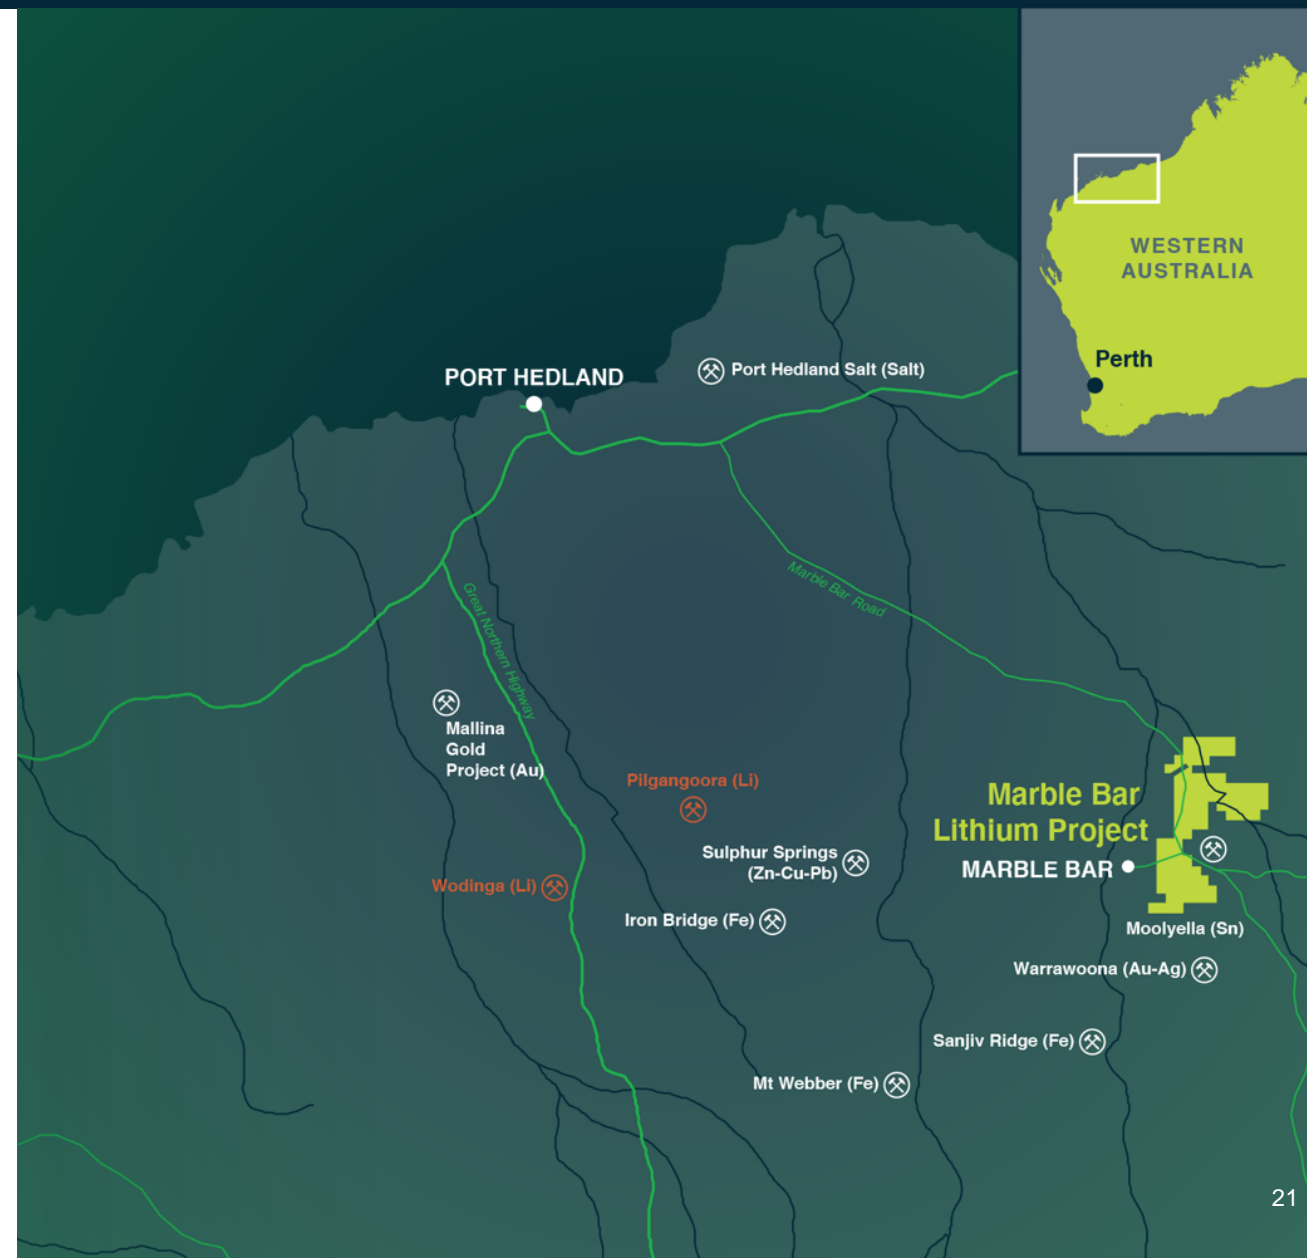

- Inferred Mineral Resource of 18.0Mt @ 1.0% Li₂O³
- Lithium mineralisation in drilling identified over 15km

Exploration Upside

- Highest grade lithium assays delivered to date⁴
- Highly prospective gold and base metal targets tested in 2023
- Further drilling planned in CY24

Infrastructure Rich

- Tier 1 lithium mining jurisdiction
- Sealed road through tenement area
- 150km south-east of Port Hedland

¹ Owned by Pilbara Minerals (ASX: PLS).

² Owned by the MARBL JV, 60% Albemarle, 40% Mineral Resources (ASX: MIN).
