## Management Changes

Aurora Labs Limited ("Aurora" or "the Company") (ASX: A3D) wishes to advise that due to personal reasons, Mr Peter Snowsill shall retire as Chief Executive Officer (CEO) of the Company, with effect from 15 September 2023.

The Company's Chief Operations Manager, Ms Rebekah Letheby will assume the role of Interim CEO from that date.

Rebekah has over 8 years' experience in the technology and additive manufacturing sector with a strong background in project management, technology development, production, manufacturing techniques and systems, having worked for Aurora from its listing in 2016.

The Company will commence a formal process of recruitment for the role, in which Rebekah is encouraged to participate.

Chairman Grant Mooney said today, "The Board and entire team at A3D would like to thank Peter for his incredible service over some 4 years at the helm of A3D. He has led us through the difficult COVID years, delivering our technology to commercial readiness and establishing strong foundations for our print services business into the future. We wish Peter every success in his future endeavours. With an unparalleled depth of knowledge of A3D's business following 8 years of service, we welcome Rebekah to the role of Interim CEO".

Rebekah Letheby said, "Peter has built an experienced team of professionals with a deep understanding of additive manufacturing which will serve our future business strategies well. I look forward to the challenge to lead the business to our next success as Aurora has significant opportunity to utilise its commercial printing technologies as Australia looks to compete in the sustainable, value add manufacturing industries".

Peter Snowsill said: "I am proud of the quality of the team at Aurora, the maturity of our technology and the underpinning we have for a strong services business. I wish, Grant and the Board, and Rebekah and the team, every success in the ongoing commercialisation journey."

Rebekah Letheby shall be paid an annual salary of \$275,000 plus superannuation, while retaining 400,000 unlisted options exercisable at \$0.055 with expiry dates of 6 October 2024 (170,000) and 18 April 2025 (230,000).

Ends

**Aurora Labs®**

Empowering Industry to Revolutionise Manufacturing

17 August 2023

Approved for release by the Company's Board of Directors.
