

VHM Limited

Emerging Tier 1, Australian project with globally significant mineral assemblage

September 2023

ASX:VHM

Acknowledgement of Country

VHM acknowledges the Australian Aboriginal and Torres Strait Islander peoples as the first inhabitants of the nation and the traditional custodians of the lands where we live, learn and work. We pay our respects to past, present and emerging Elders.

Disclaimer and forward-looking statements

Important Information

This presentation has been prepared by VHM Limited ACN 601 004 102 (Company). It contains general background information only which is current at the date of this presentation unless otherwise specified. It is not intended to be an investor presentation. It contains selected summary information only and does not purport to be all-inclusive or to contain all the information that may be relevant to a prospective investor or stakeholder.

The Company, its affiliates, officers, directors, employees and agents do not accept responsibility or liability for this Presentation or its contents (except to the extent that such liability cannot be excluded by law). No representation or warranty is made as to the Presentation's accuracy or completeness. Recipients must satisfy themselves as to the accuracy of all such information. The presentation has been prepared based on information available at the time of preparation and is subject to change without notice. In receiving this presentation, each recipient agrees to the terms and conditions stated in this slide, including any modification to them.

This presentation does not constitute investment or financial product advice. It is not intended to be used as the basis for making an investment decision, nor is it intended to constitute legal, tax, accounting or other advice. Any references to or explanations of legislation, regulatory issues, benefits or other legal commentary (if any) are indicative only, do not summarise all relevant issues and are not intended to be a full explanation of a particular matter. The information has been obtained from and based on sources believed by the Company to be reliable. Past performance is not an indication of future performance.

This presentation may contain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate (Forward Statements). Forward Statements can generally be identified by the use of forward-looking words such as "anticipate", "estimates", "will", "should", "could", "may", "expects", "plans", "forecast", "target" or similar expressions. Forward Statements including indications, guidance or outlook on future revenues, distributions or financial position and performance or return or growth in underlying investments are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. To the extent that certain statements contained in this presentation may constitute 'Forward Statements' or statements about forward looking matters, then the information reflects the Company's (and no other party's) intent, belief or expectations as at the date of this presentation. No independent third party has reviewed the reasonableness of any such statements or assumptions. None of the Company, its related bodies corporate and its officers, directors, employees, advisers, partners, affiliates and agents (together, the VHM Parties) represent or warrant that such Forward Statements will be achieved or will prove to be correct or gives any warranty, express or implied, as to the accuracy, completeness, likelihood of achievement or reasonableness of any Forward Statement contained in this presentation. Except as required by law or regulation, the Company assumes no obligation to release updates or revisions to Forward.

Such forward looking statements involve known and unknown risks, uncertainties and other important factors beyond VHM Limited's control that could cause actual results, performance or achievements of VHM Limited to be materially different from future results, performance, or achievements expressed or implied by such forward looking statements.

Statements to reflect any changes. Recipients should form their own views as to these matters and any assumptions on which any of the Forward Statements are based and not place reliance on such statements.

Forward looking statements are based on numerous assumptions regarding VHM Limited's present and future business strategies and the environment in which VHM Limited will operate in the future. Among the important factors that could cause VHM Limited actual results, performance or achievements to differ materially from those in the forward-looking statements in this Presentation (without limitation) a significant change in VHM's performance (financial or otherwise) or operating environment, a material change to law or regulation (including changes to the regulatory policy or interpretation), and risks and uncertainties associated with the ongoing impacts of the COVID-19 pandemic, the conflict between Russia and Ukraine, and the Australian and global economic environment and capital market conditions.

These forward-looking statements speak only as at the date of this Presentation. Save as required by applicable law or regulation the Company expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any such statements are based. As a result of these factors, the events described in the forward-looking statements in this Presentation may not occur.

No party other than the Company has authorised, permitted or caused the issue, submission, dispatch or provision of this presentation, or takes any responsibility for, or makes or purports to make any statement, representation or undertaking in this presentation and there is no statement in this presentation that is based on any statement by any other party. No person, either as a director, partner of or in the employment of the Company has any authority to make, imply, or give any representation or warranty whatsoever in relation to the information contained in this presentation. None of the VHM Parties take any responsibility for any information in this presentation or any action taken by you on the basis of such information.

To the maximum extent permitted by law, the VHM Parties:

- exclude and disclaim all liability, including (without limitation) any liability or negligence, for any expenses, losses, damages or costs incurred either as a result of the information in this presentation being inaccurate or incomplete in any way for any reason, or otherwise arising in connection with this presentation; and
- make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of information in this presentation.

Compliance Statement

The information in this presentation that relates to the DFS & FEED studies, the JORC estimates of Goschen Mineral Resources and Ore Reserves was first reported in the ASX announcement on 28 March 2023 and the Cannie JORC estimates and Mineral Resource were reported in the ASX announcement on 16 May 2023. The Area 4 JORC estimate was reported in the ASX announcement on 18 September 2023. The information in this presentation that relates to the Exploration Target was first reported in the Prospectus dated 21 November 2022 as supplemented by the supplementary prospectus dated 5 December 2022, lodged with ASX on 5 January 2023. The Company confirms that it is not aware of any new information or data that materially affects the matters previously reported and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified.

Board and management team

Don Runge, BE (Mining), MAusIMM

Non-Executive Chairman

- 40+ years' operational and project experience including industrial minerals where he managed the development of the Uley Graphite Project in South Australia.
- Mr Runge has held executive management positions for Newcrest Mining Limited, including Manager for Ridgeway Underground Project Development and General Manager of Cracow Gold Mine.
- Managed the team advising Philix Mining Corporation on development of its Silangan Au/Cu Project.

Graham Howard, BAppSc (Geology), FAusIMM

Managing Director

- 35+ years' operations and project experience with significant corporate experience as Chief Executive Officer of unlisted public companies and an ASX-listed gold company.
- Mr Howard managed the Telfer Gold Mine (Newcrest) mineral resource inventory expansion, held significant senior management functions including Boddington Gold Mine (Newcrest) and Silangan Au/Cu Project.

Ron Douglas, BE, FAIM, MAusIMM, MAICD

Non-Executive Director (August 2023)

- Extensive executive and operations delivery experience gained over a 40-year career with publicly listed global mining, energy, and manufacturing companies.
- Mr Douglas expertise is in executive operations delivery positions with strengths in major capital program execution, and running corporate profit/loss centres, involving strategic program directorship, safety leadership and corporate transaction negotiation.

Ian Smith, B.E. Mining, BFinAdmin, FAusIMM, FIEAust

Non-Executive Director (August 2023)

- 40+ years executive and board experience with a career spanning domestic and international mining and mining services companies.
- Mr Smith's technical, operational and commercial disciplines have been attributes of his successful delivery of major capital projects and business growth for a number of listed companies and has held managing director and chief executive officer positions for Orica and Newcrest Mining.

Maree Arnason, BA, FAID

Non-Executive Director (August 2023)

- 35 years' experience across the resources, energy and manufacturing sectors and is highly experienced in the areas of governance, strategy, sustainability, risk, corporate affairs, stakeholder relations, transformations, divestments and integrations. Her broad commodity experience includes iron ore, gold, copper, timber, coal, mineral sands, and natural gas.
- Ms Arnason serves on the Corporate Governance Consultative Panel for Australian Securities and Investments Commission (ASIC).

Michael Sheridan, BEc, LLB, LLM, GradDipAppFinInv

Chief Financial Officer

- 30+ years' operations and financial experience as executive, having worked at senior management levels in publicly listed companies, predominantly in the international resources sector (mining and oil and gas), as well as telecommunications and corporate advisory sectors.
- Mr Sheridan has held responsibility for origination and negotiation of project acquisition and development debt and refinancing facilities of c.US\$600m.

Ms Carly O'Regan, MBA, GDipCom

Executive General Manager, Strategy and Investor Relations

- Significant business and operational experience in a diverse range of industries, including finance, commercial, mining, oil and gas, both in Australia and internationally including Barclays Global Investors (iShares), Chevron Australia Gorgon and Wheatstone Projects, KPMG, Newcrest, and Shell Australia.

Bernie Hyde

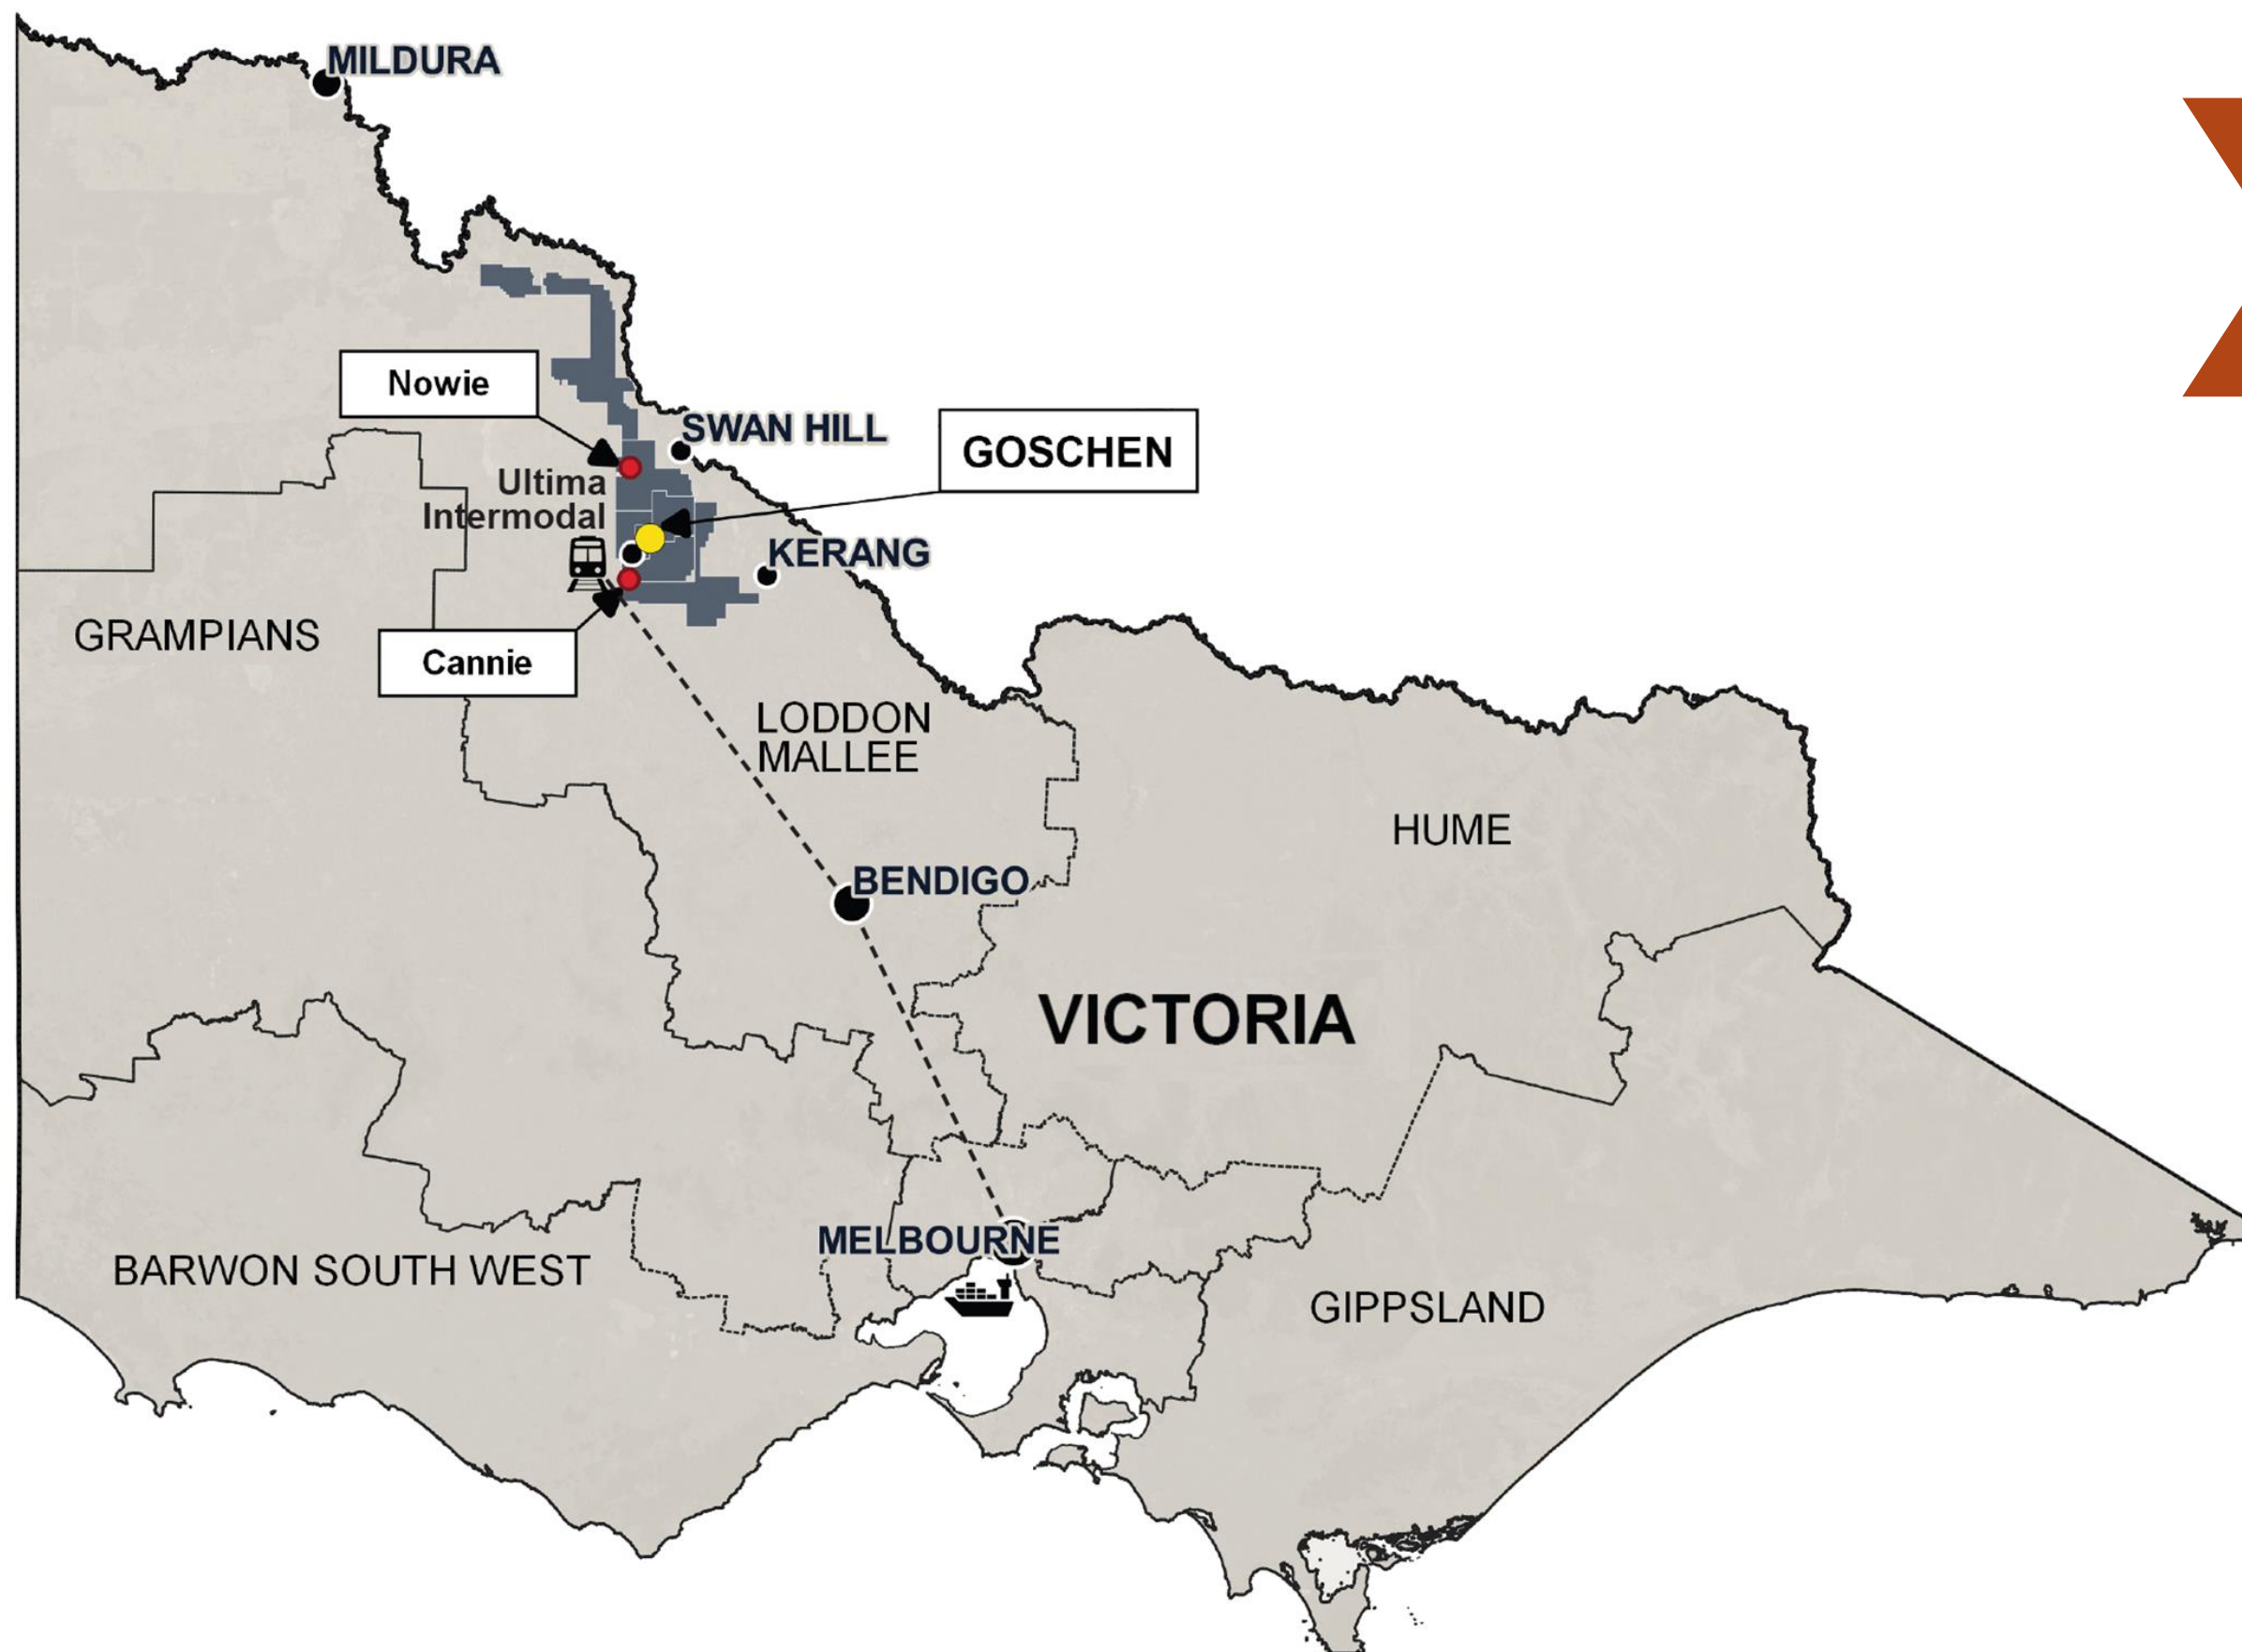

Executive General Manager, Operations Readiness

- 25+ years supervisory and management experience in operations and maintenance roles in the mining industry.
- Mr Hyde is the current Chair of the MCA (Vic) Safety and Health Working Group.

Premium Rare Earths and Mineral Sands Projects

Located on freehold land in North West Victoria

Three distinct Projects have been defined:

The flagship, **Goschen Project** with compelling economics defined by the DFS Refresh¹:

- NPV of \$1.5 billion
- IRR of 44%
- payback of 2.8 years

Advanced approvals schedule that currently has an Environment Effects Statement targeting public exhibition in H2 2023.

The exciting **Cannie Project** that recently announced an initial Mineral Resource Estimate that lifted the total TREO (+Y₂O₃) inventory by 43%².

The highly prospective **Nowie Project** to the North which recently completed an initial drill program to test multiple promising geophysical targets³.

Notes:

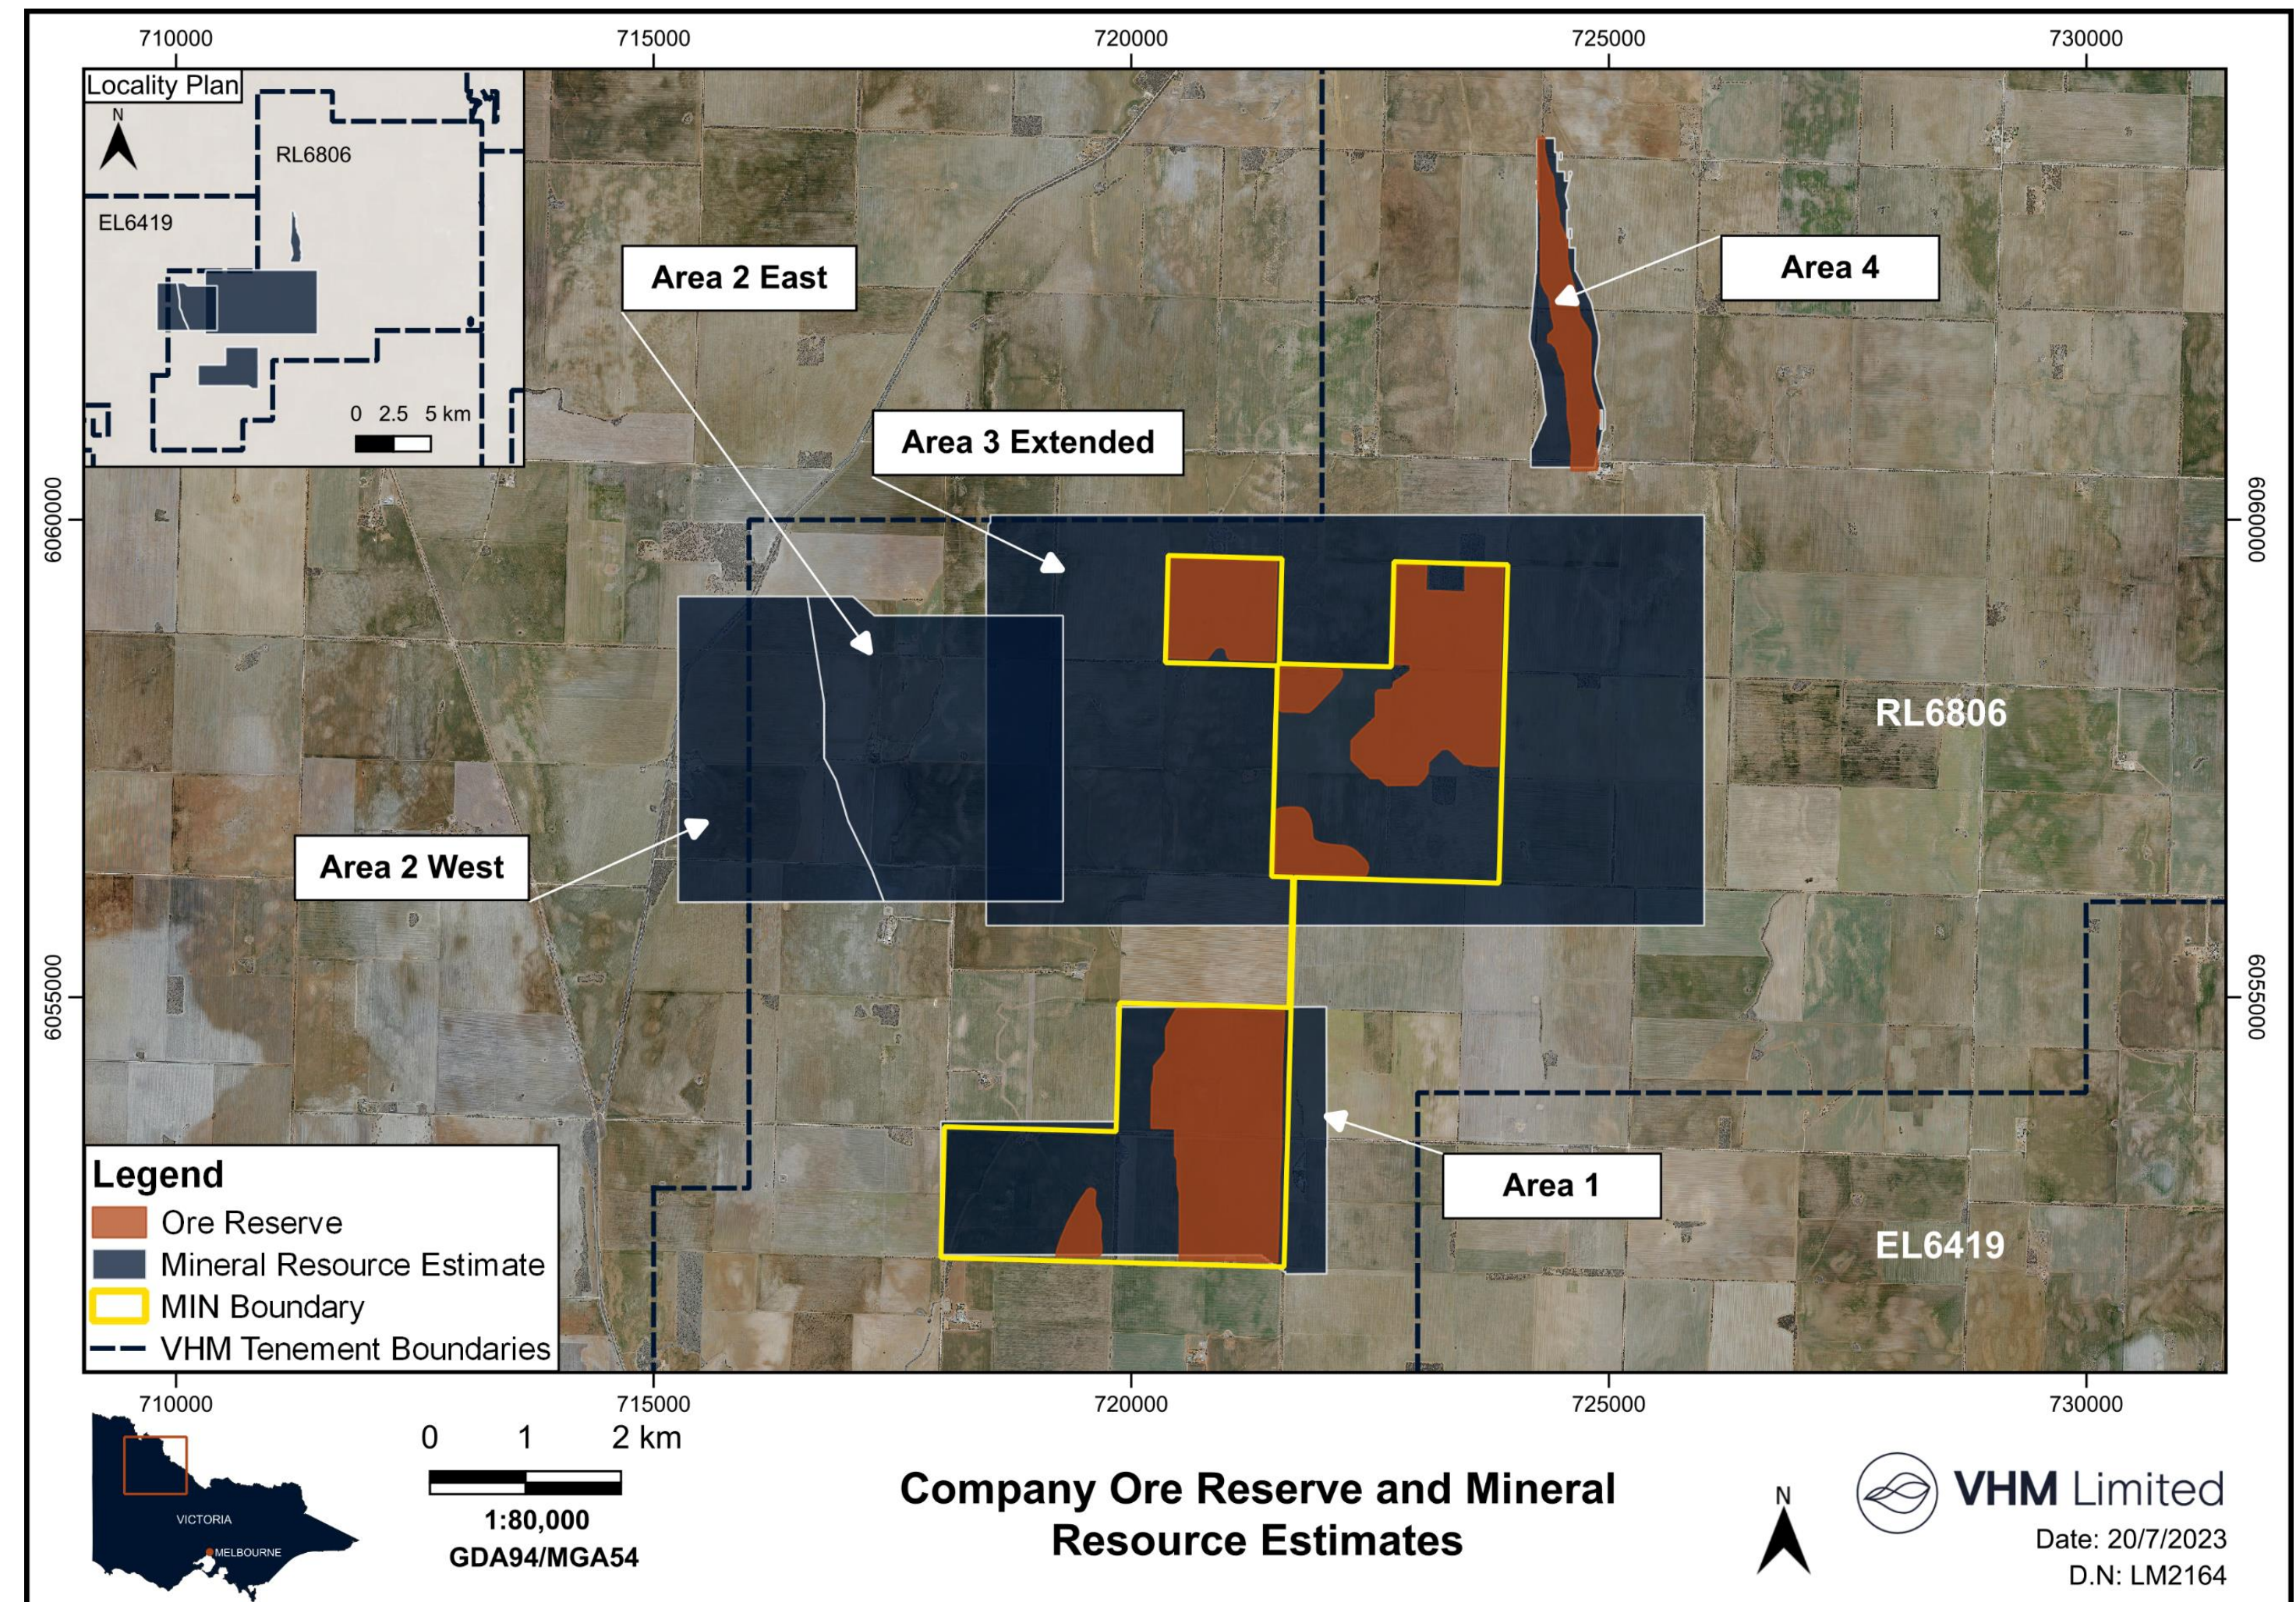

(1) See Company ASX announcement on 28 March 2023

(2) See Company ASX announcement on 16 May 2023

Company asset overview

Location of deposits

- The Goschen Project is located within Retention Licence (RL) 6806 and Exploration Licence (EL) 6419 in north west Victoria
 - 280km north west of Melbourne
 - 30km south west of Swan Hill
 - 4km east of Lalbert
- The different project areas
 - Area 1
 - Area 2 East
 - Area 2 West
 - Area 3 Extended
 - Area 4

Global energy transition targets

The catalyst driving demand for rare earth elements and commercialisation of Australia's critical minerals

87% of Goschen basket value is derived from the critical rare earths crucial for electric vehicles and the green energy transition¹.

60 Nd Neodymium 144.242	59 Pr Praseodymium 140.90766	66 Dy Dysprosium 162.500
65 Tb Terbium 158.92535	40 Zr Zirconium 91.224	22 Ti Titanium 47.867

2 Goschen Project

VHM's near-term rare earths and mineral sands project

Development plan and offtake strategy considerations

VHM seeks to achieve the ultimate objective of its offtake strategy by aligning with its phased production development

Phase 1 Base Project

- Low capex and low opex expected
- MUP, FFP, WCP, and REM flotation circuit
- Produces a zircon-titania heavy mineral concentrate and rare earth mineral concentrate
- Significant testwork conducted at Mineral Technologies
- First production targeted in 2025
- Mineral Technologies appointed for Detailed Design
- **Capex estimate: A\$376 million (+A\$106 million ancillary costs)**

Phase 1A Hydromet

- Additional Hydromet Circuit with a throughput capacity of 2.0 tonnes per hour
- Co-located at Goschen and included in the EES approval program
- Produces a mixed rare earth carbonate driven by high grade rare earth mineral concentrate from Goschen
- Pilot plant testwork completed at ANSTO
- **Capex estimate: A\$124 million**

Near-term

Secure additional offtake partner who can offer:

- Globally recognised processing of REMC and MREC.
- Capacity to absorb the production offtake from Phase 1 and Phase 1A.
- May consider additional funding to accelerate future Phases.

Mid-term

Expand offtake into Asian, European and North American markets.

The maturing of the Offtake Strategy through this mid-term phase aligns with VHM's phased development.

As the Company progresses towards producing a combination of MREC and premium zircon and titania products, its universe of potential buyers expands.

Long-term

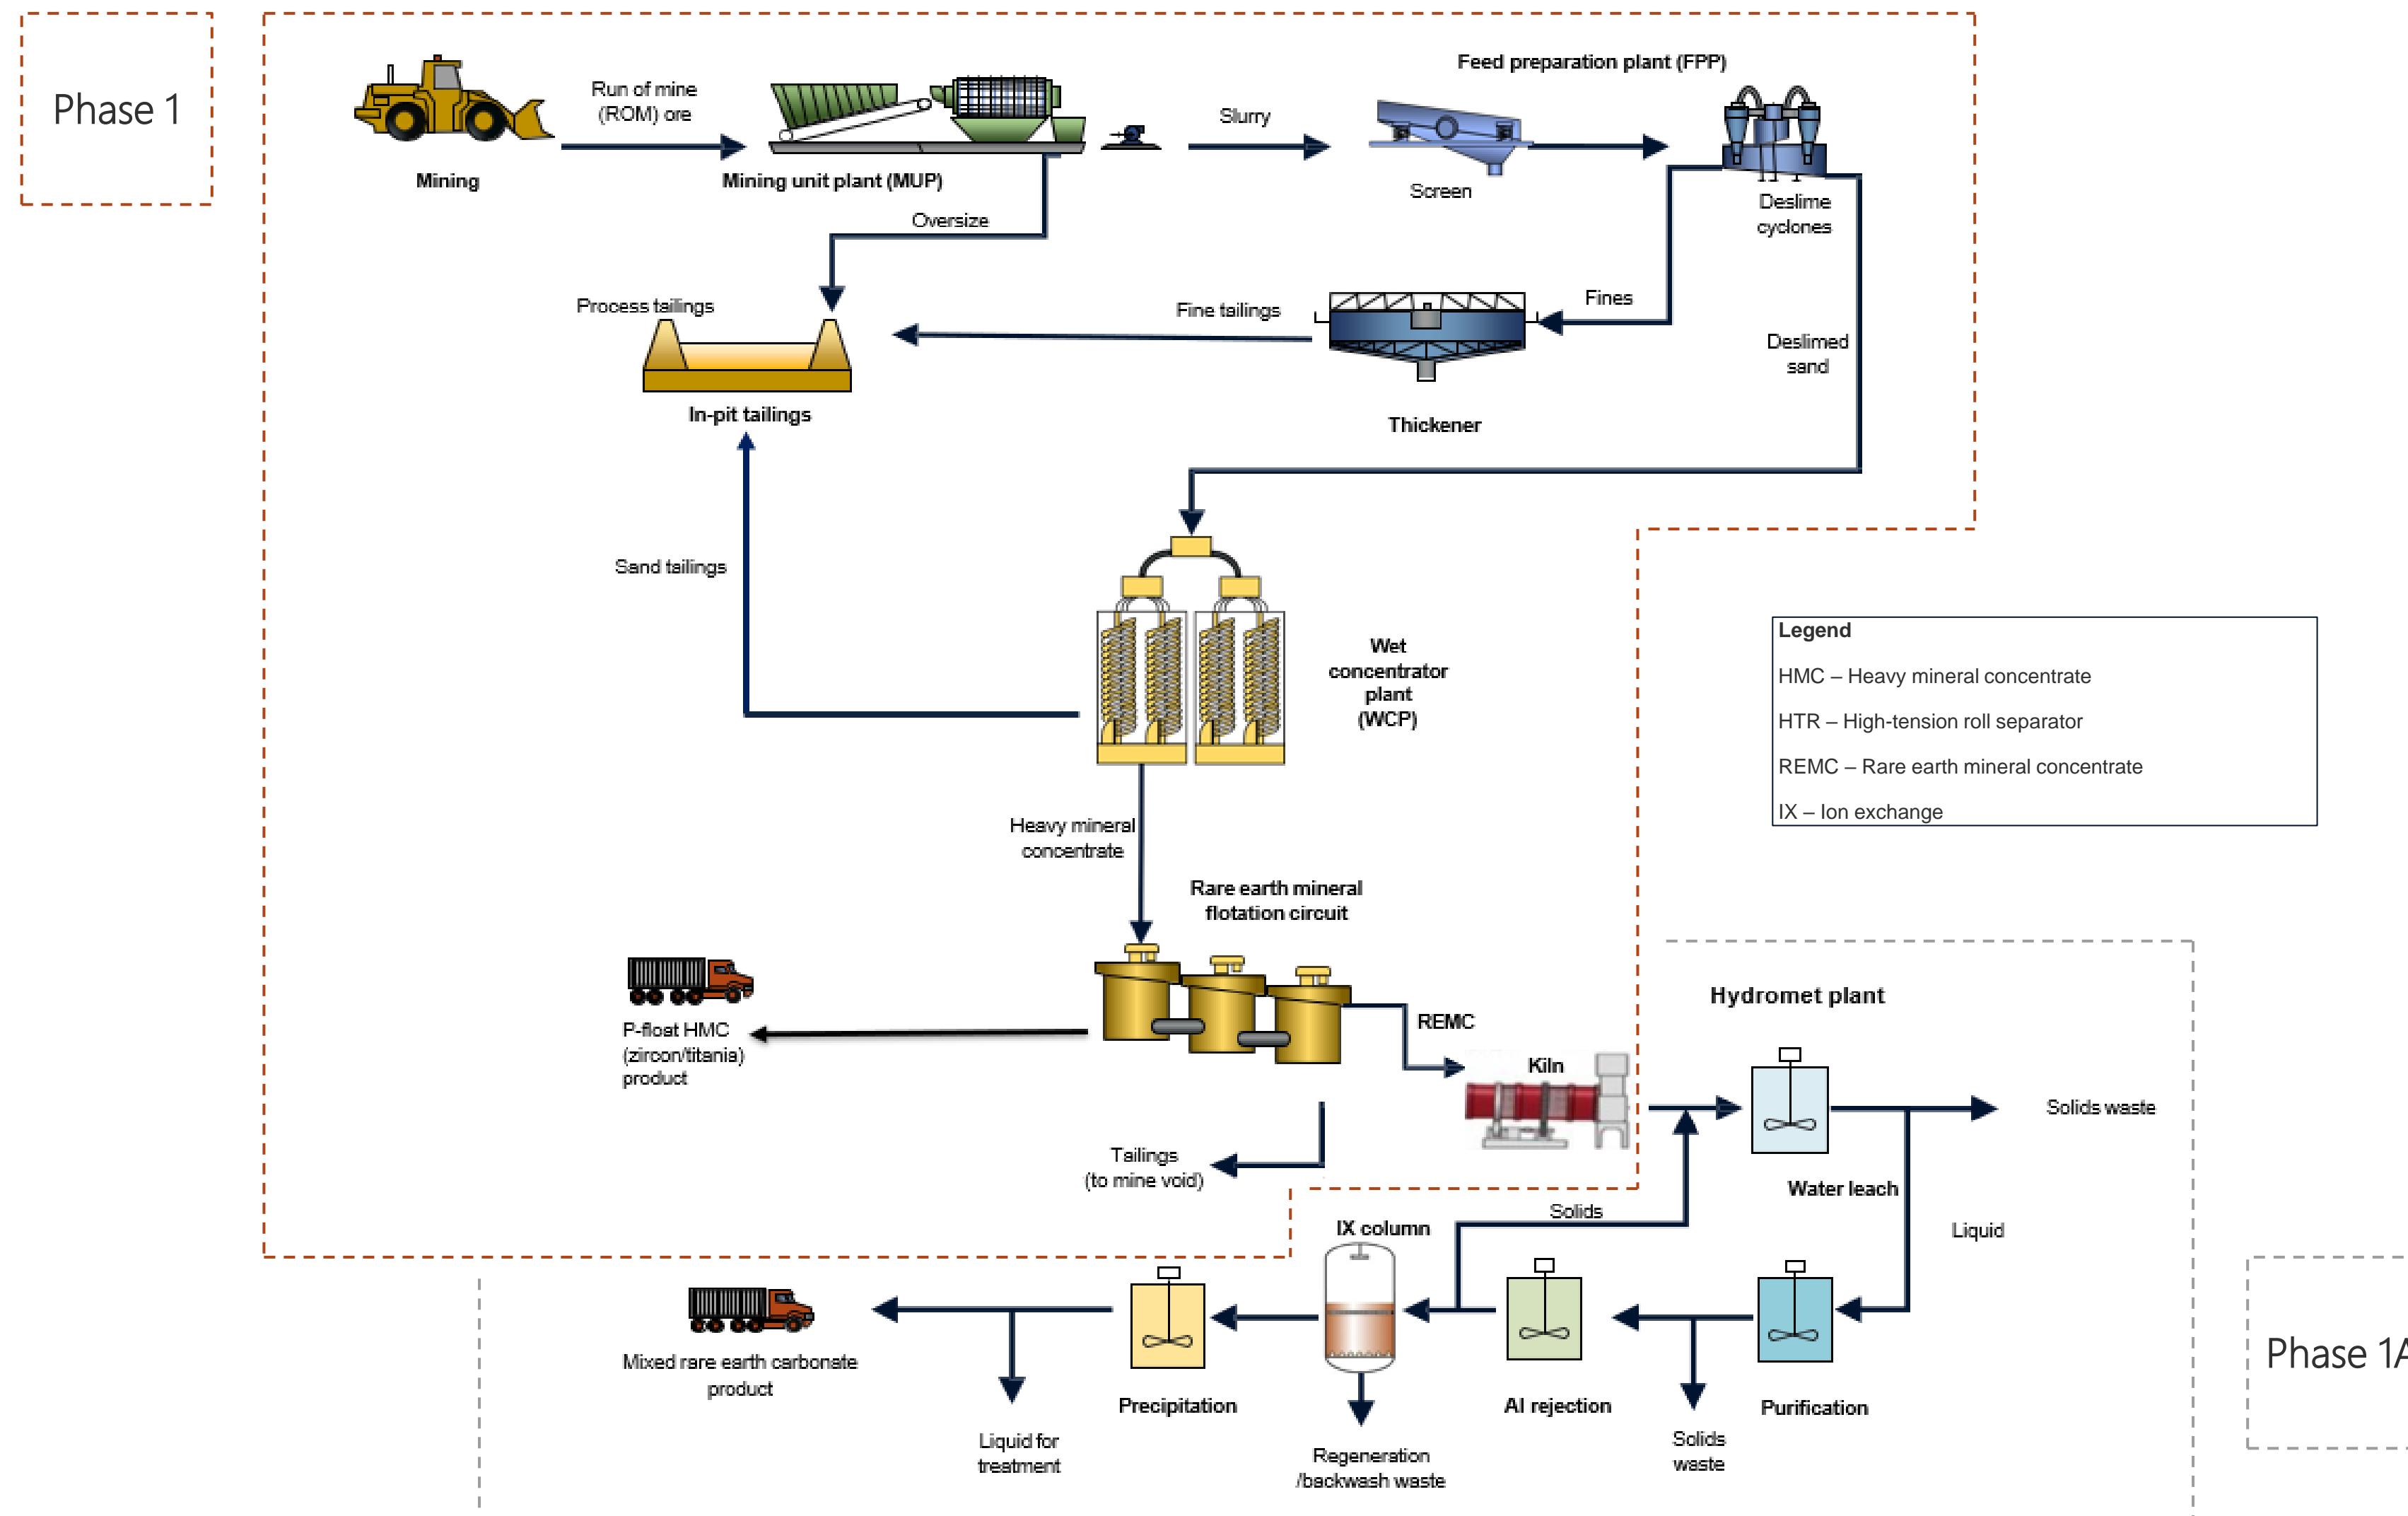

Complete phased production development, including construction of the Australian Rare Earth Mineral (AREM) Refinery Project.

The AREM will facilitate production of rare earth oxides locally in Australia to support demand in the permanent magnet sector.

Production of such rare earth oxides in Australia means that VHM's products can be sold to a multitude of end users worldwide.

Goschen Project overview

Phase 1 and Phase 1A (Hydromet Circuit) process flowsheet

- **High recoveries likely at Goschen Mine:** Continuous improvements achieved through testwork has delivered high recoveries of valuable rare earth, zircon and titanium products.
- **Final products:** Zircon and titania products, REMC and MREC will be containerised in sealed sea containers on site and exported.
- **Logistics solutioning:** Ultima terminal (45km from the processing facility) will provide intermodal rail solution, to reach the shipping export ports.

Goschen Hydromet Pilot Plant test results

Exceptional recoveries meet specifications required by Western strategic offtake partners

- Market leading recoveries achieved by ANSTO Pilot Hydromet Plant producing a high purity **mixed rare earth carbonate (MREC) product**
 - >97%** critical light rare earths **Nd/Pr**
 - >92%** and **94%** for critical heavy rare earths **Dy** and **Tb**, respectively
- 61.87%** Total Rare Earth Oxides
- Measurements of the final content of uranium or thorium were considered exceptionally low
- Samples of the MREC product meets criteria for potential domestic, European, North American and Asian offtake partners

Goschen MREC product contains less than 3% total impurities

Above: Goschen's rare earth product undergoing bench scale sulphation kiln testwork at ANSTO.

Left: Final MREC product from the Hydromet Pilot program.

Note: (1) See Company ASX announcement released on 6 June 2023

Acronyms : Australian Nuclear Science and Technology Organisation (ANSTO), Nd, – Neodymium, Pr – Praseodymium, Dy – Dysprosium, Tb – Terbium

Goschen Project highlights

Average strip ration (waste : ore)			2.6 : 1
First 10 Years of Mine	Average Production (tpa)	REMC	9,428
		MREC	8,568
		Zircon-titania HMC	134,500
	Average revenue per annum (A\$ m)		564
	Average opex per annum (A\$ m)		273
	Average EBITDA per annum (A\$ m)		291
	Average unlevered, pre-tax FCF per annum (A\$ m)		270
	Average revenue A\$/t ore		118
	Average operating costs A\$/t ore		57
	Payback period (years)		2.8

Note: (1) See Company ASX announcement on 28 March 2023. Goschen Project Financial Metrics for Phase 1 estimated to +/- 10-15% accuracy and Phase 1A completed to a Class 5 level of accuracy.

Goschen Project permitting and approval pathway

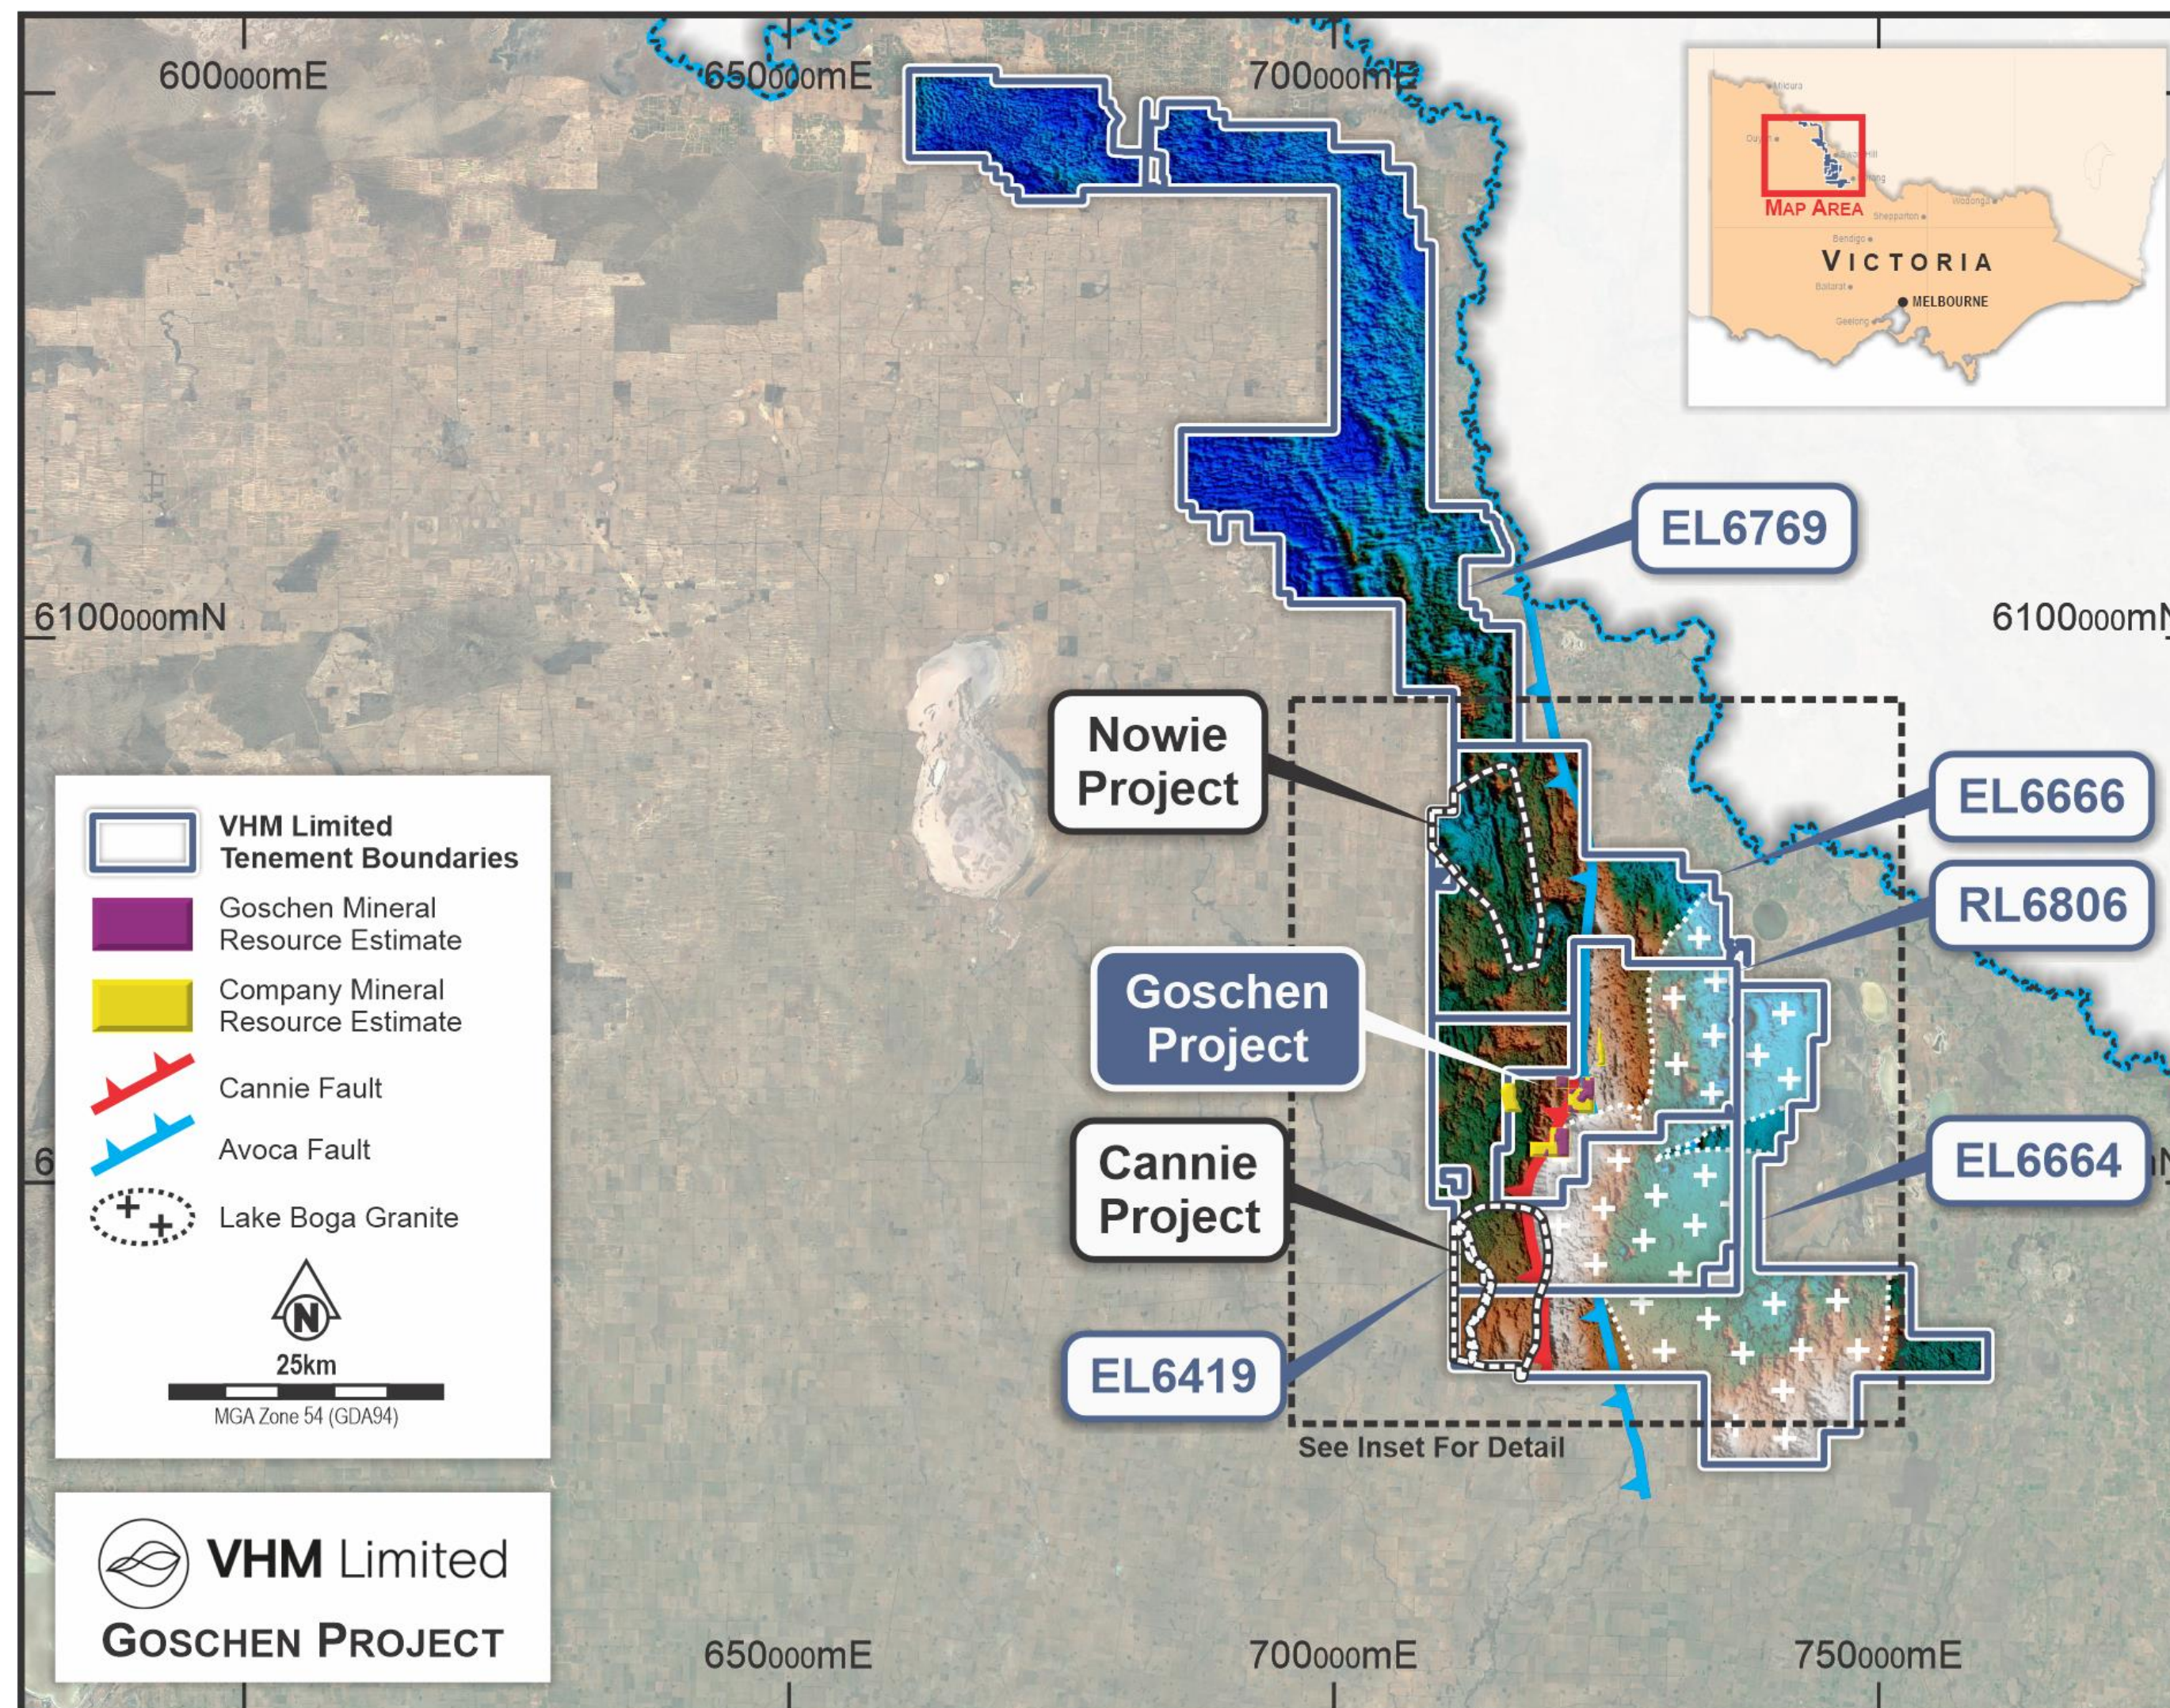

3 Cannie Project

Impact of the new Cannie Mineral Resource

A major critical mineral inventory of a global scale is in the making

With the discovery of the Cannie and Nowie Projects¹ the Company confirms a major new critical minerals province centred on top and west of the Lake Boga granite.

A significant Critical Minerals inventory that has the potential to unlock new growth in Victoria's mineral processing industry.

VHM Limited geological overview

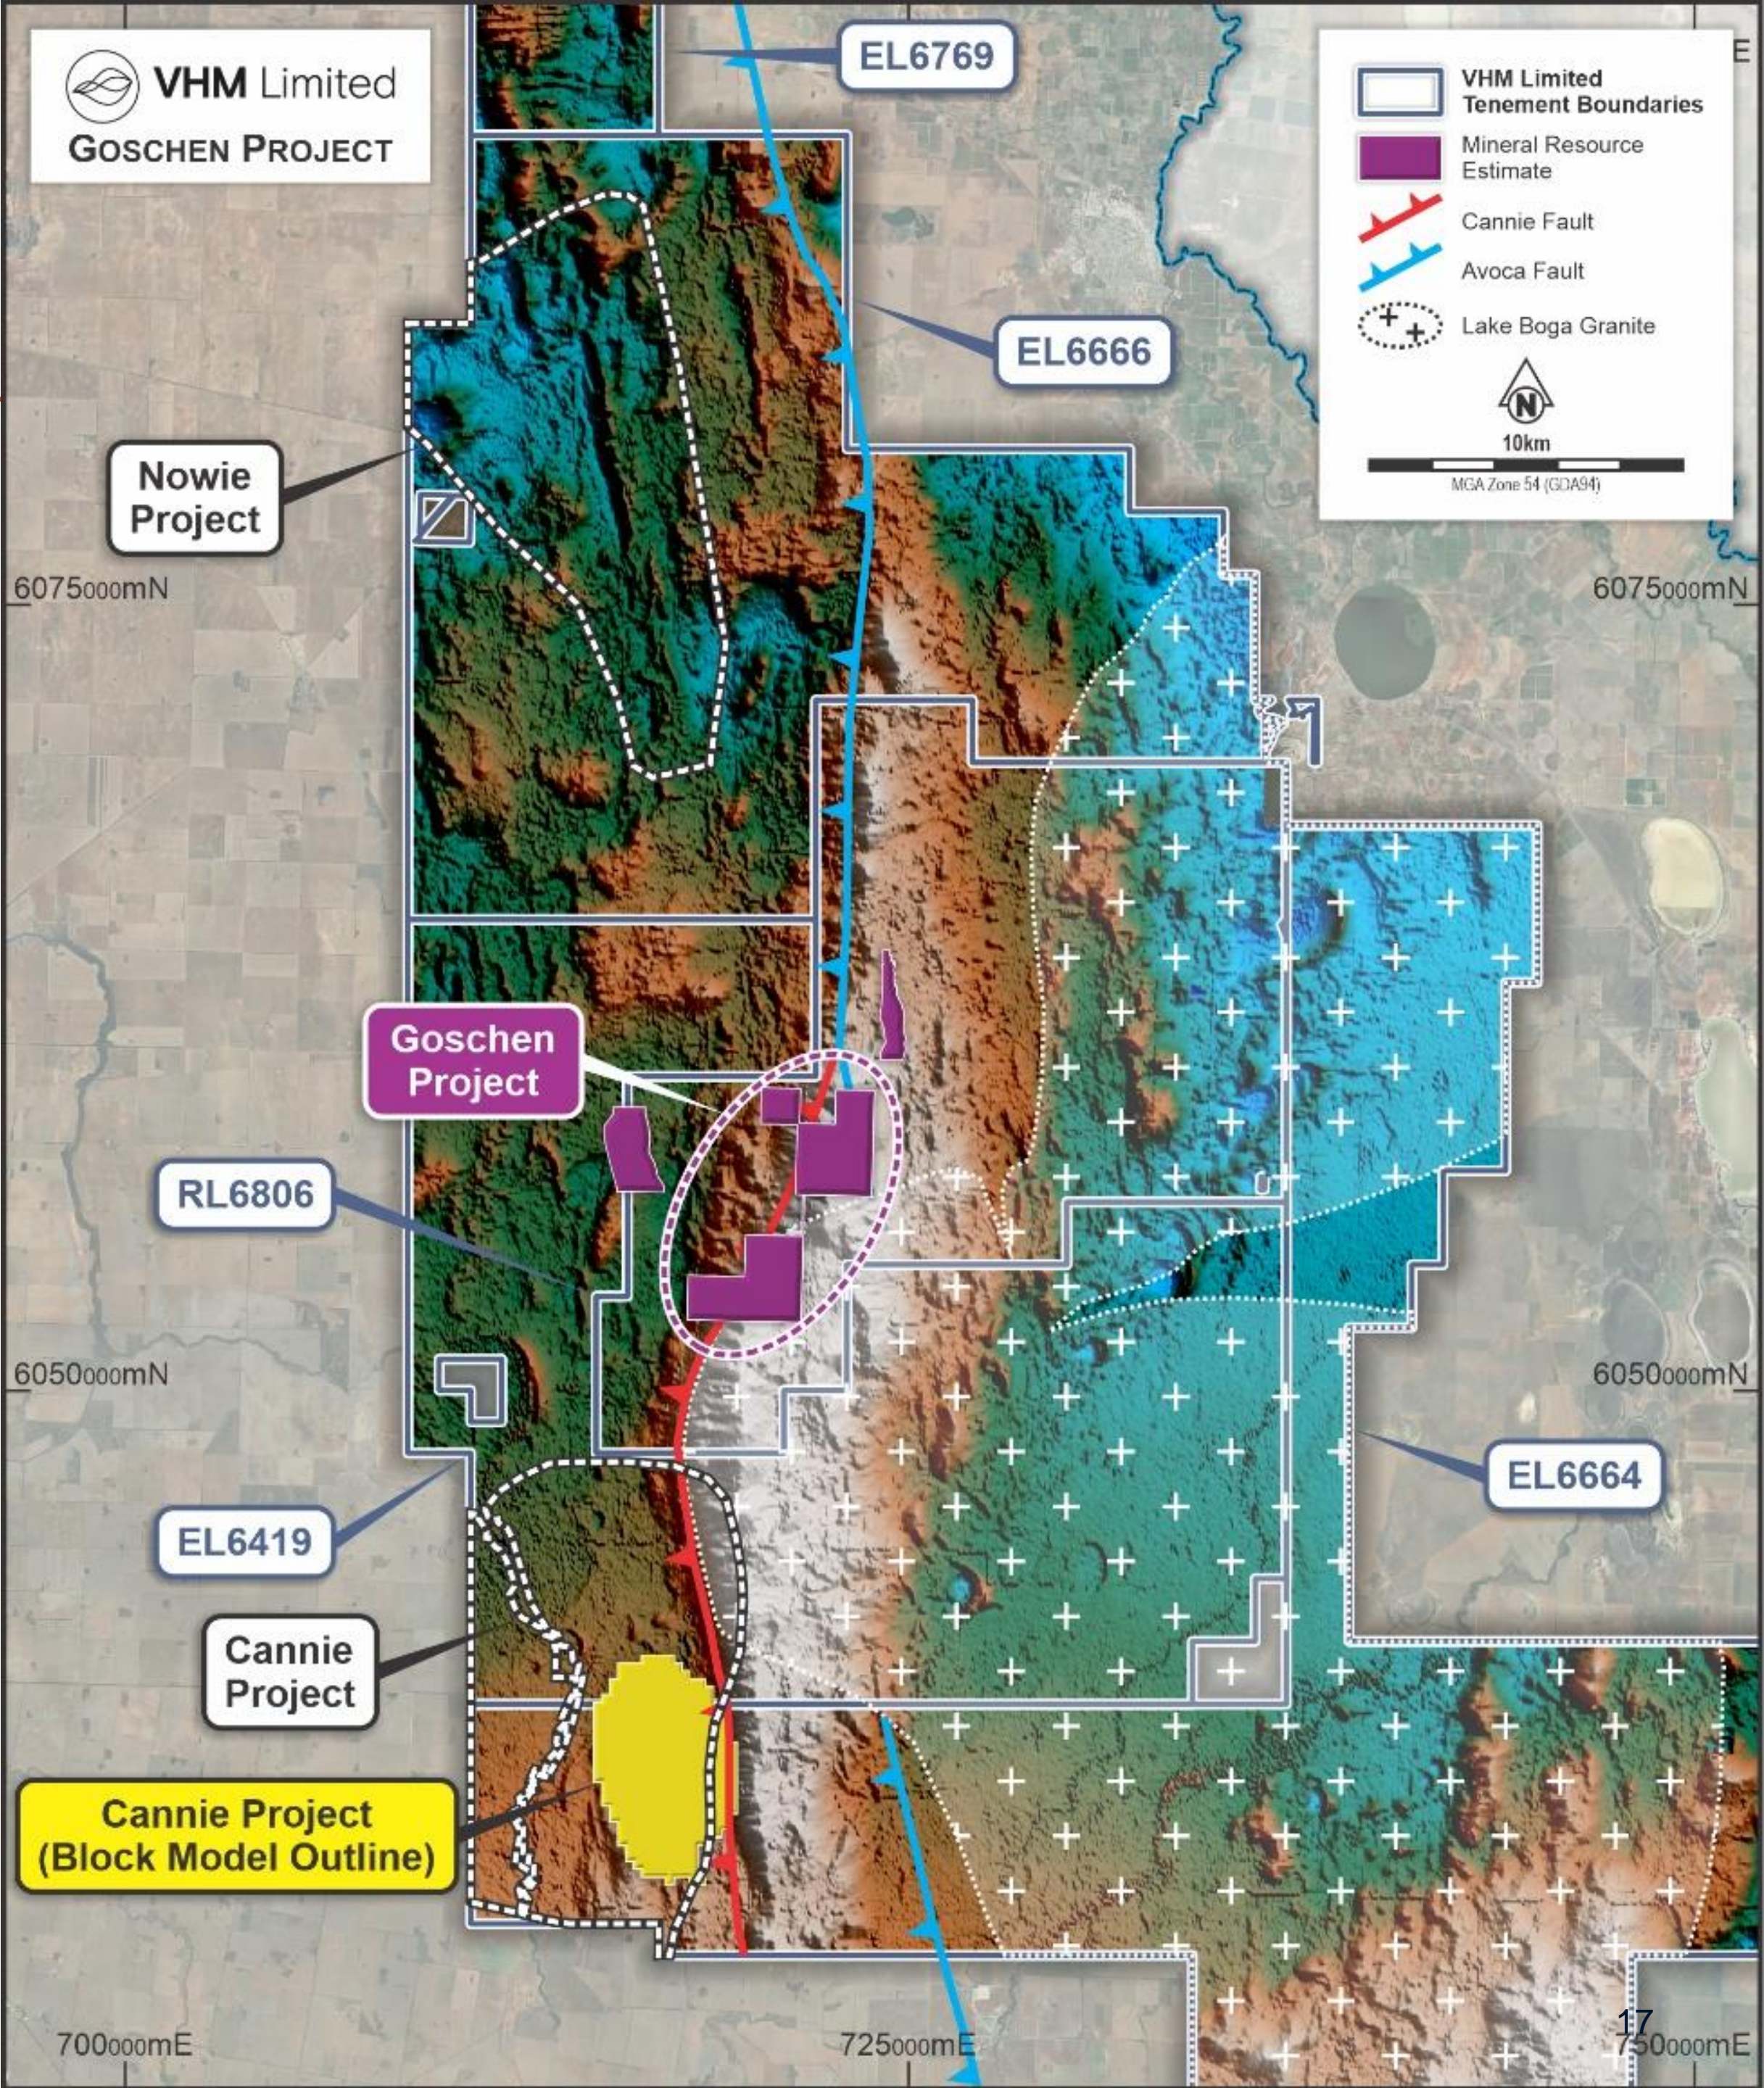

Confirming a major new critical minerals province in Victoria¹

The addition of Cannie Project maiden Mineral Resource estimate raises total Company Mineral Inventory to:

▲ 43%	▲ 39%	▲ 95%	▲ 51%
590 Kt	5.1 Mt	2.9 Mt	2.7 Mt
TREO +Y ₂ O ₃	Zircon	Leucoxene	Rutile
Total Company TREO + Y ₂ O ₃ Inventory in Mt	Total Company Zircon Inventory in Mt	Total Company Leucoxene Inventory in Mt	Total Company Rutile Inventory in Mt

- The western flank of the Lake Boga granite stretches >55km suggesting that the tenements remain highly prospective.
- The resource remains open in all directions.

Note: (1) See Company ASX announcement 16 May 2023

4 Area 4 Orion Strandline

Area 4 Orion Strandline

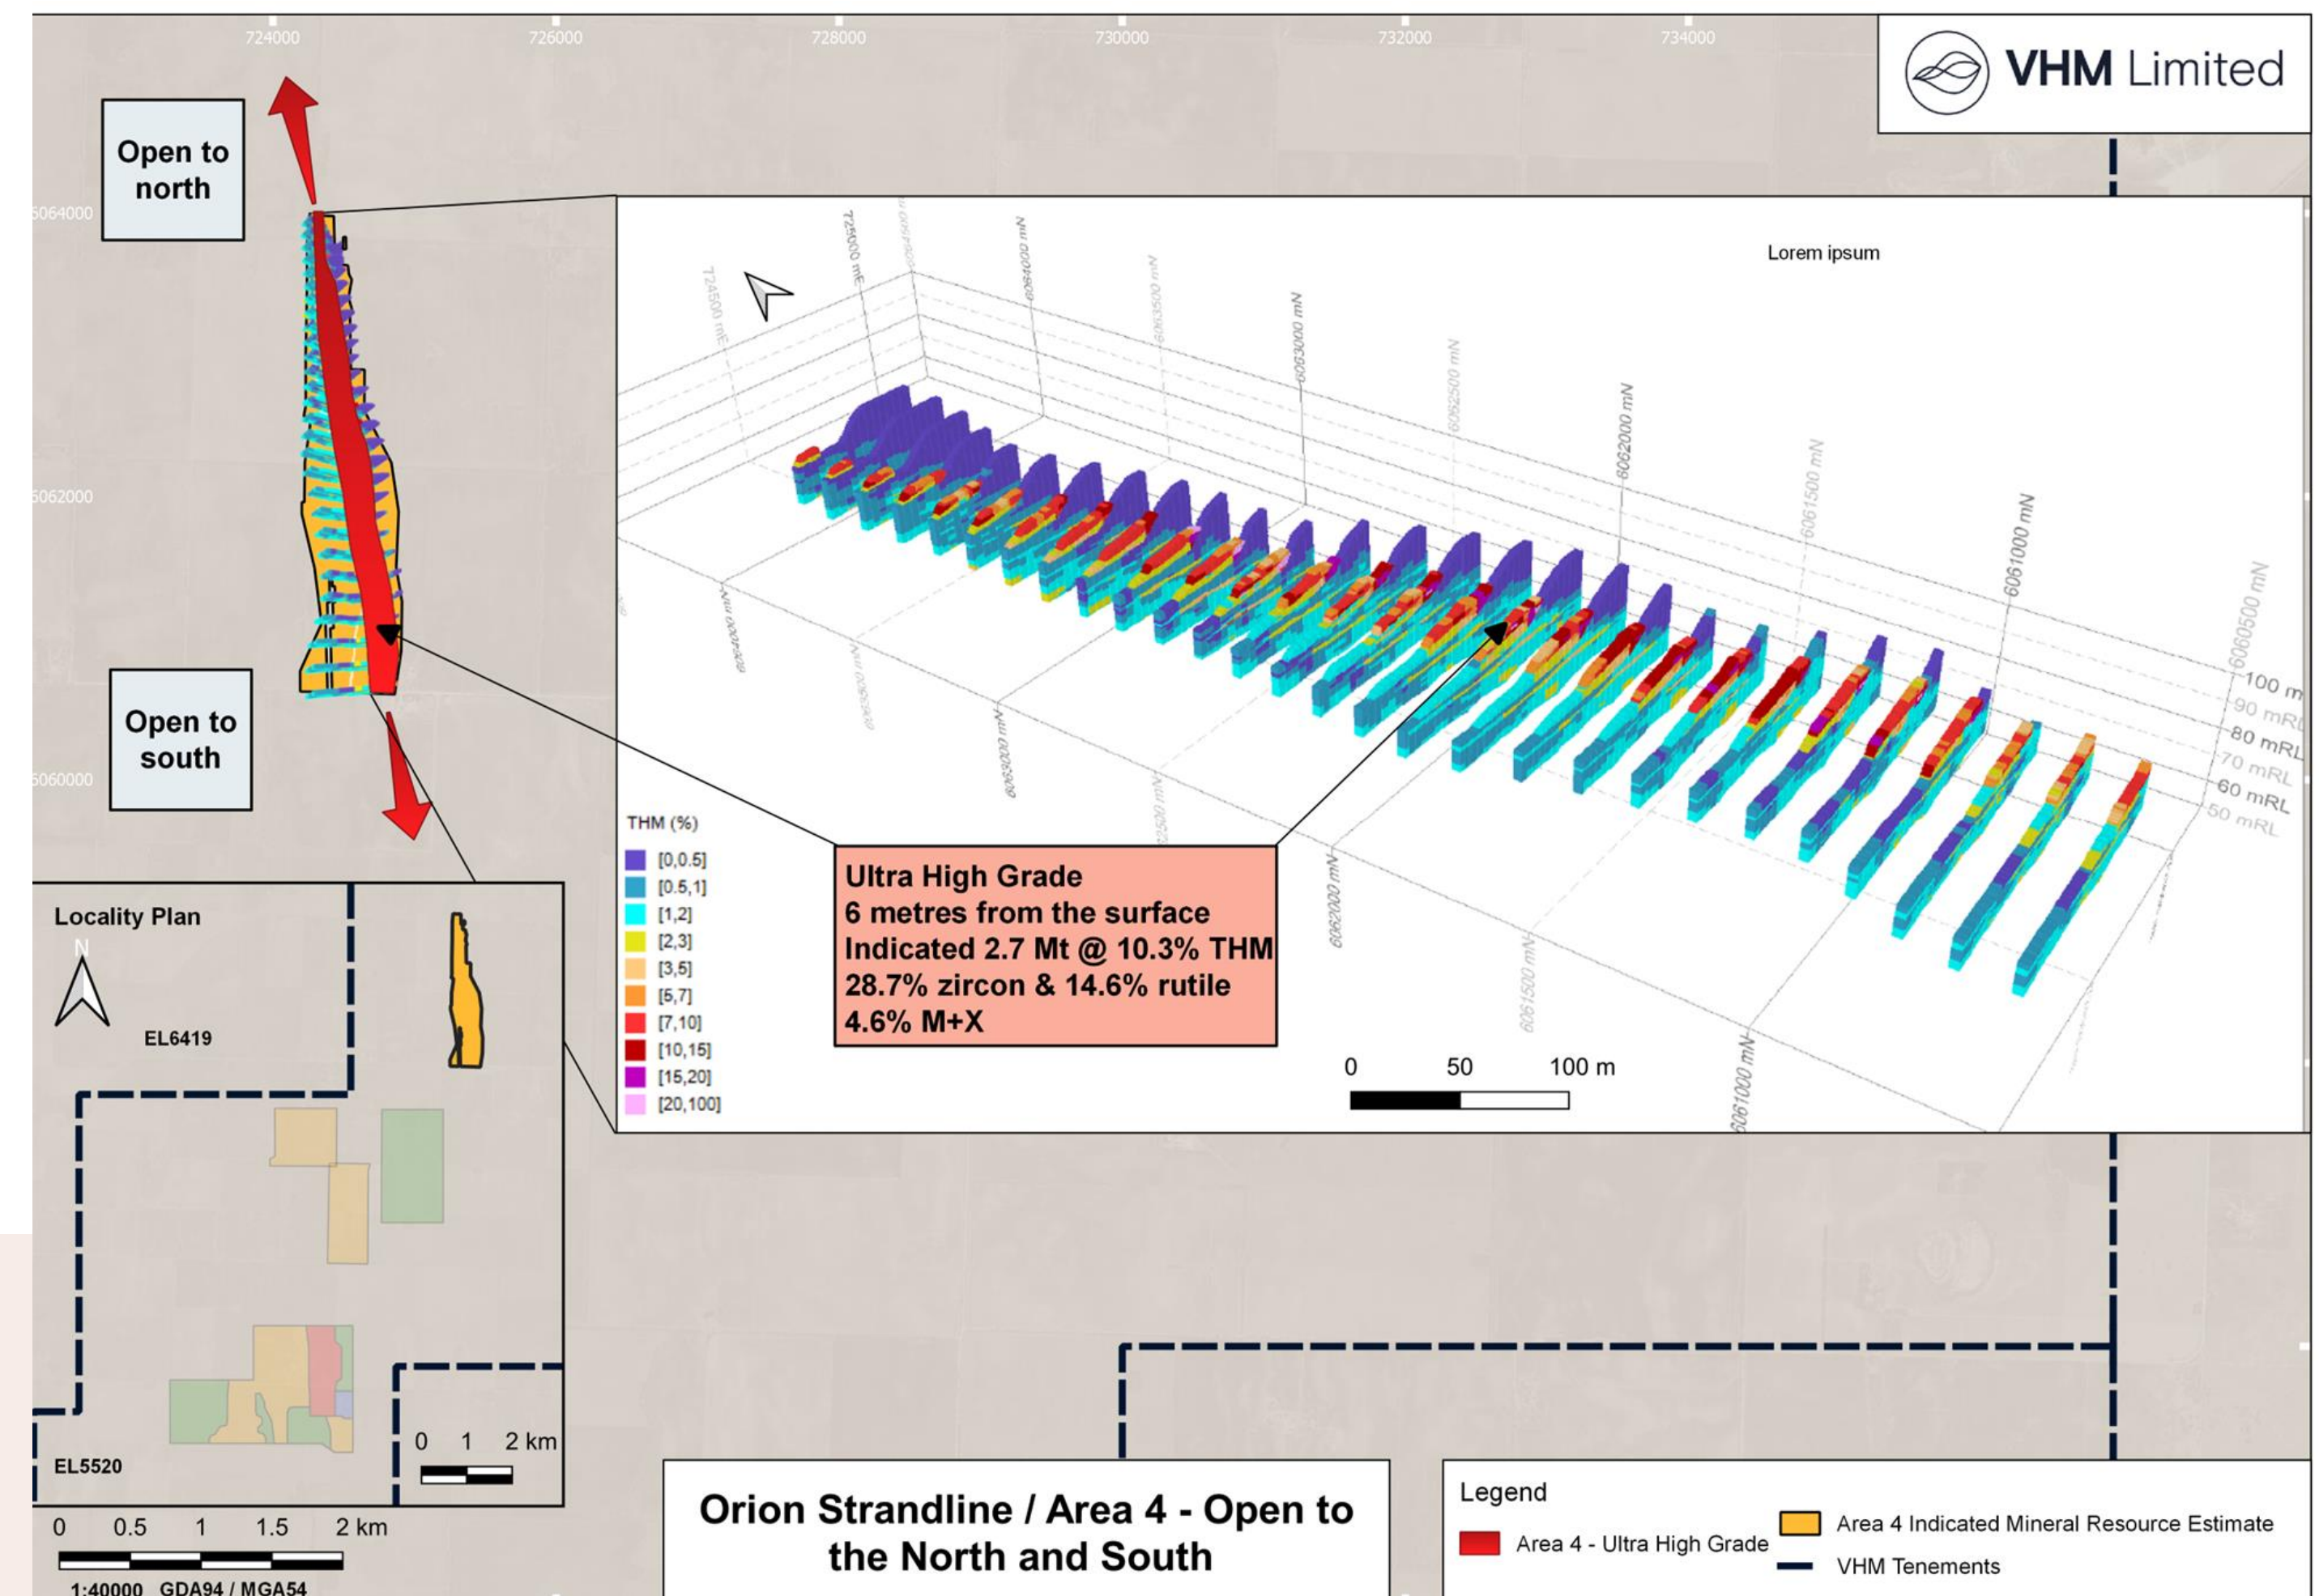

Maiden Probable Ore Reserve (September 2023)

11.5 million tonnes (Mt) @ 5.6% THM¹.

Within this Ore Reserve a high-grade minable horizon of 2.6 Mt @ 9.6% THM exists at the top of the ore body, including:

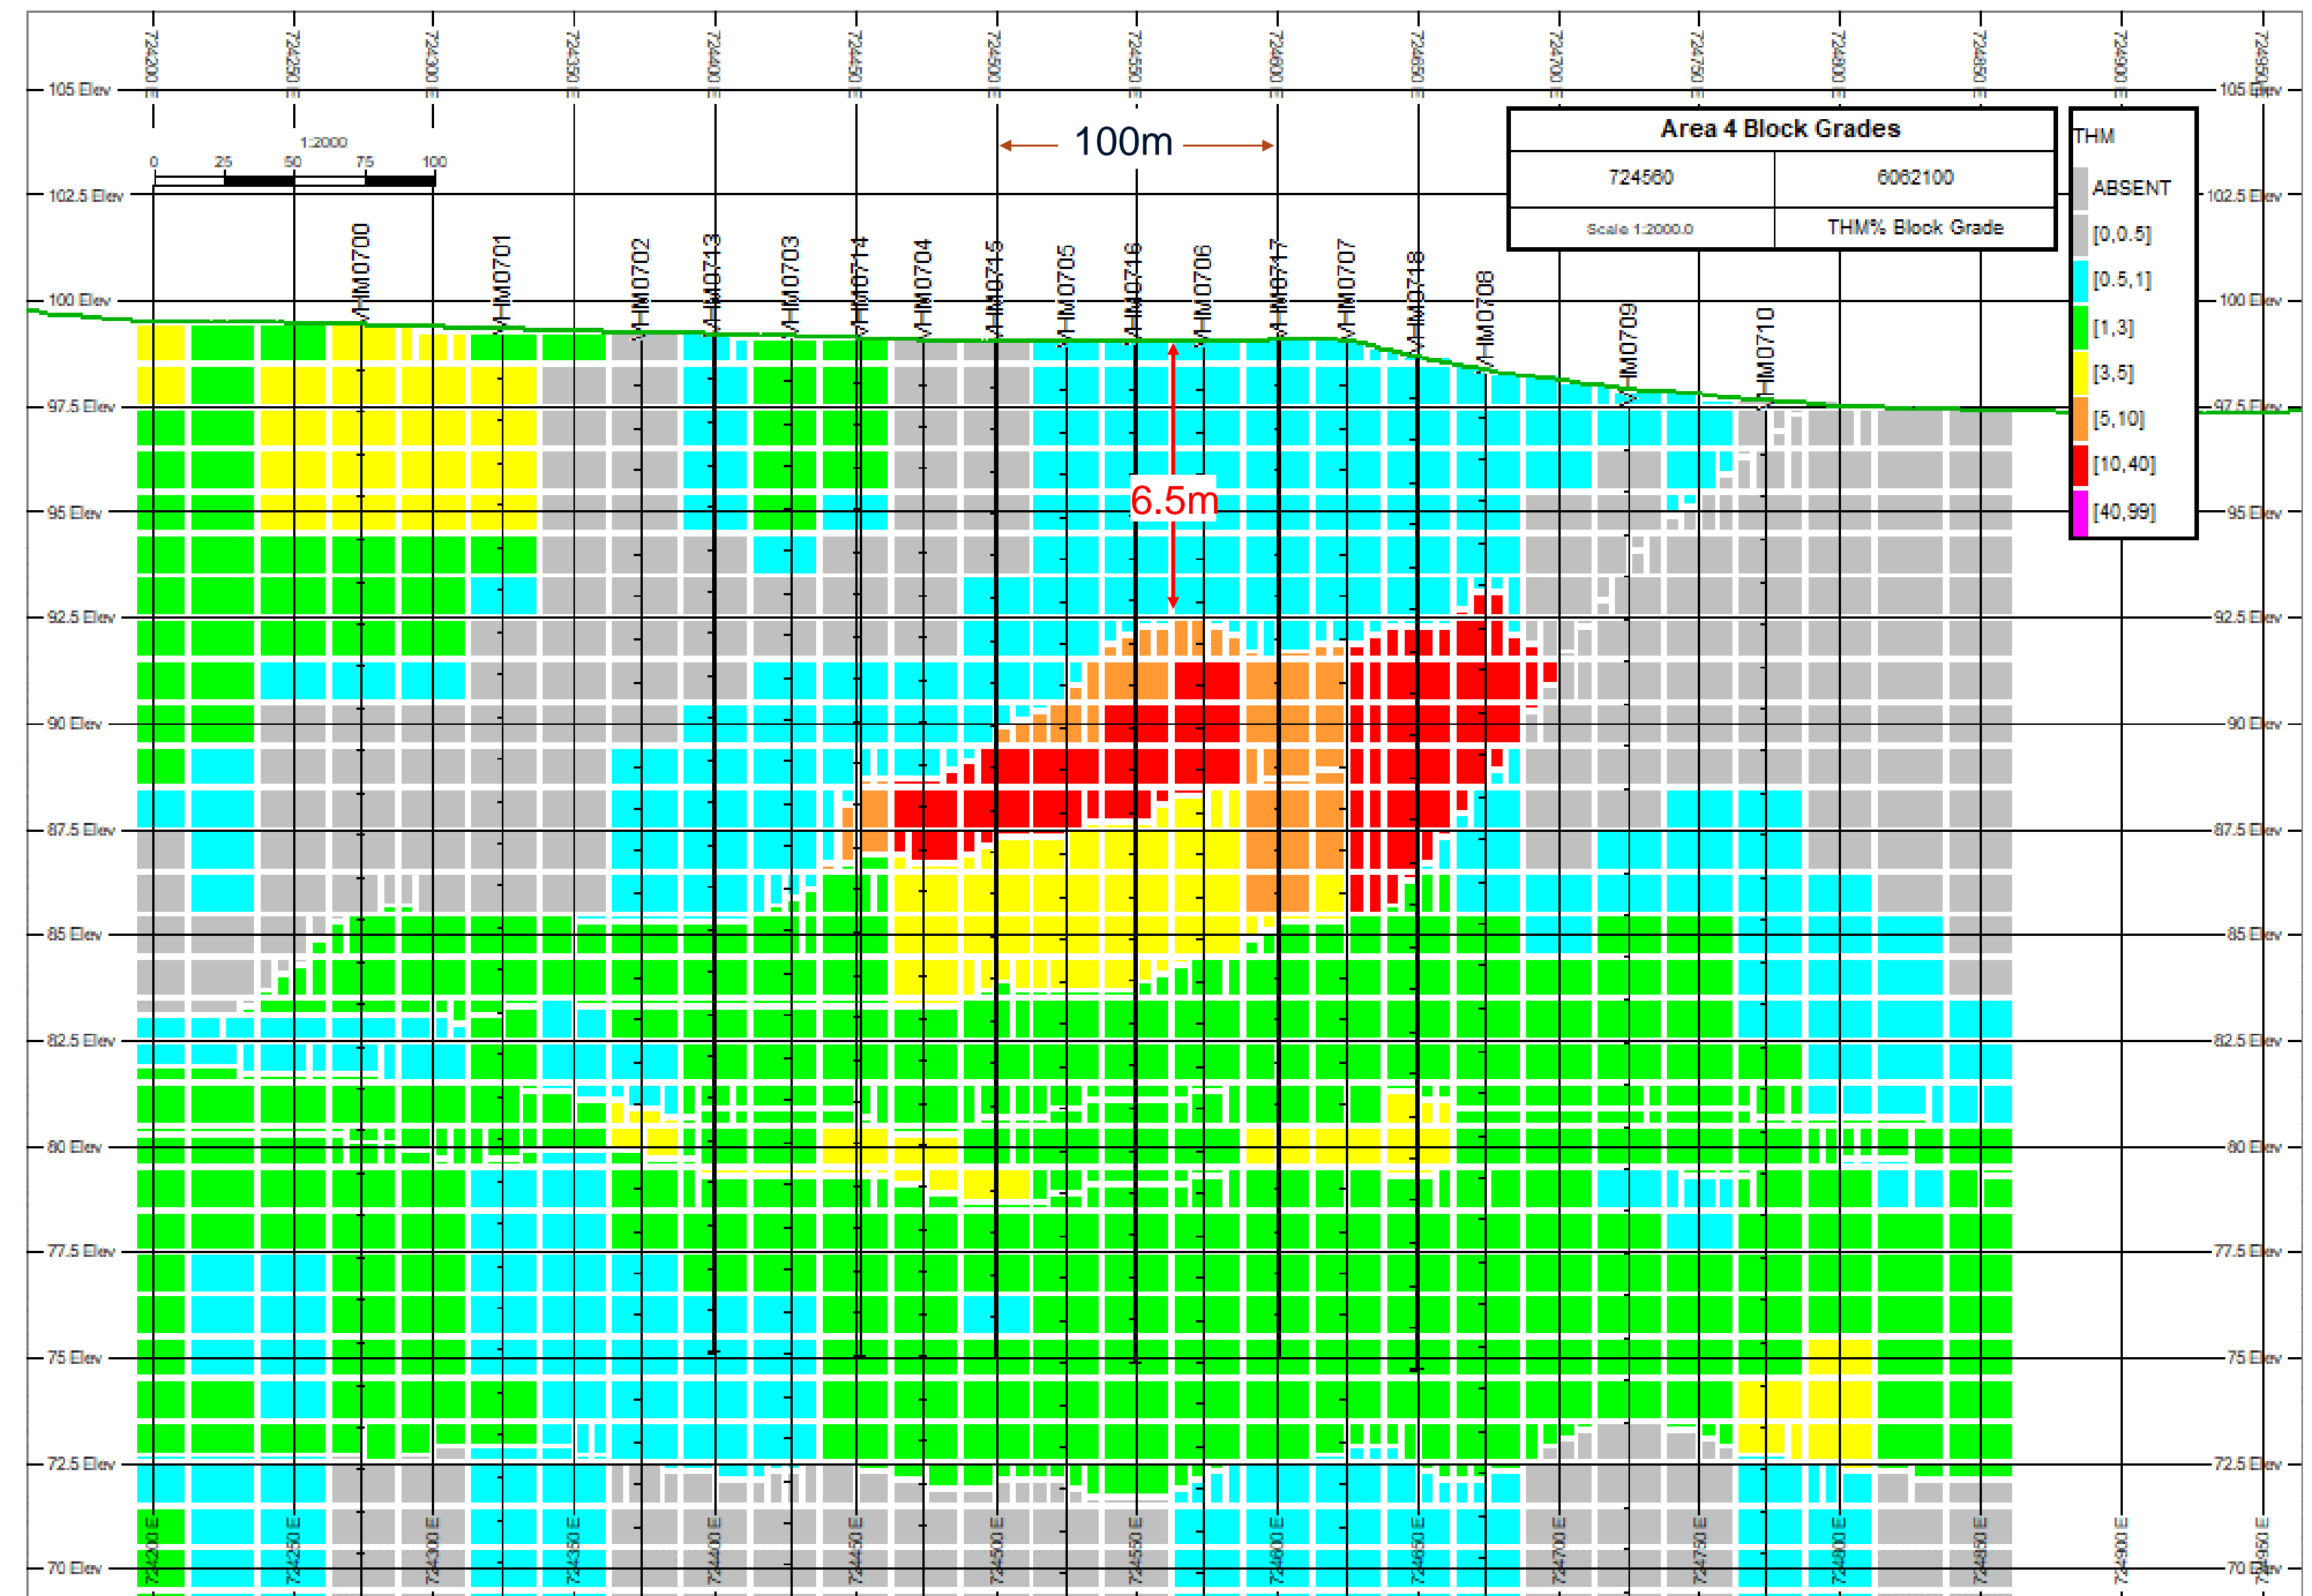

- 245,500 tonnes of mineable THM
- 67,700 tonnes of zircon at an in-situ grade of 2.6%
- Average in-situ grade of TREO 2300ppm

Significantly higher rutile and leucoxene grade than Goschen Project Ore Reserve

Area 4 Orion Strandline

- Sand hosted REM +HMS
- 6.5m to the top of mineralisation
- Zone 5 is 4.5m thick
- Zone 4 is 4.5m thick
- Metallurgy results demonstrate higher grade
- Mineral Resource complete

Area 4 Orion Strandline

Mineral Resource understated vs 2023 Metallurgy Testwork

	Area 4 metallurgical testwork				Area 4 September 2019 Mineral Resource estimate ¹				Percent difference			
	Zone 2 %	Zone 3 %	Zone 4 %	Zone 5 %	Zone 2 %	Zone 3 %	Zone 4 %	Zone 5 %	Zone 2 %	Zone 3 %	Zone 4 %	Zone 5 %
Total heavy mineral	3.80	13.8	4.55	11.1	2.70	14.8	3.80	10.3	40.7	-6.42	19.8	7.50

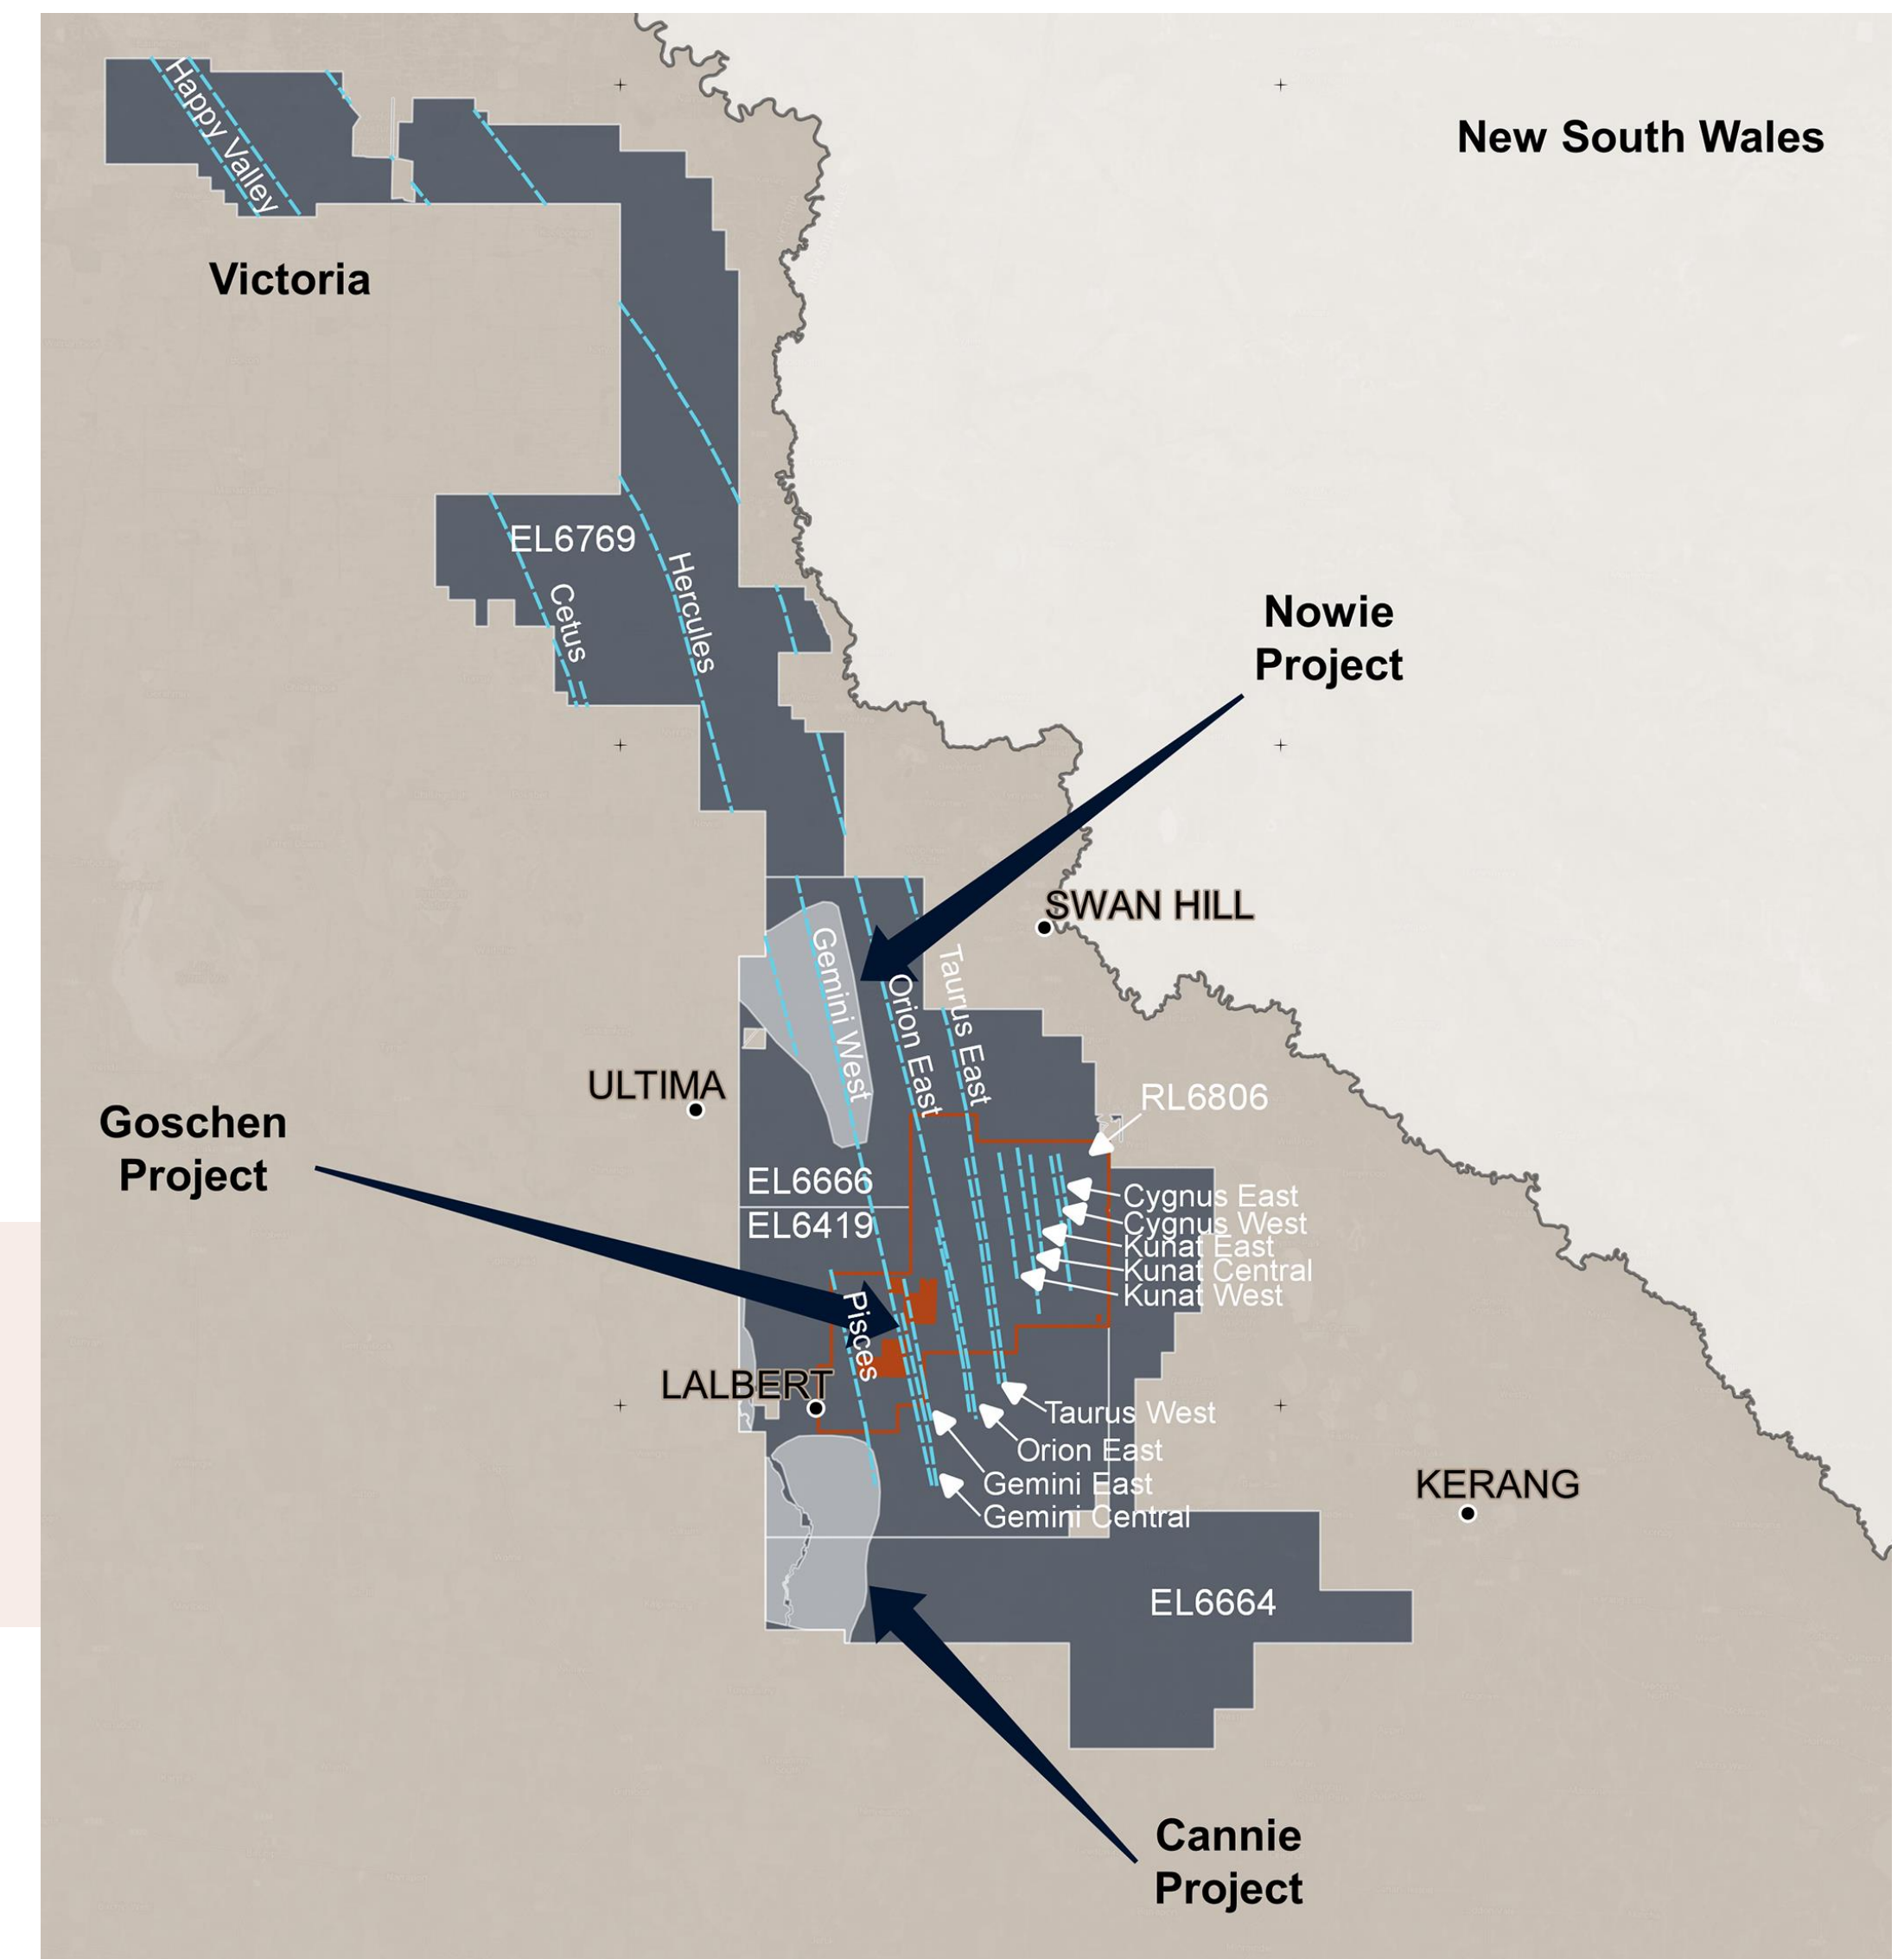

- A 1600kg ROM sample was used to conduct a variability study on zones 2, 3, 4, and 5 in Area 4¹.
- Metallurgy results confirm higher grades than forecast by Mineral Resource and Ore Reserve.
- 7.5% higher grade in upper horizon through metallurgical testwork (more metal).

High-grade strandlines opportunity

- 21 strandlines identified by processing historic data.
- Cygnus strandline 7km east of Goschen Project has returned from VHM drilling very high-grade, 6m below surface 2m >60%THM containing 2.9% in-situ zircon + titanium dioxide and rare earth minerals.
- Nowie discovered in 2023 with grades up to 2.6% in-situ zircon returned.

Several high-grade strandline prospects exist in VHM tenements

	Material	In-Situ TREO + Y ₂ O ₃ Grade ⁽⁴⁾	In-Situ TREO + Y ₂ O ₃
	(t)	(%)	(t)
Area 1, Area 2 West, Area 3, Area 4, Cannie	820,364,884	0.07	588,355

- Notes
- 1. Any discrepancies in totals are a function of rounding
 - 2. Mineral resources reported at a cut-off grade of 1.0% THM
 - 3. Mineral resources reported at a cut-off grade of 1.75% THM
 - 4. Mineral assemblage, via QEMScan Particle Analysis, is reported as a percentage of in situ THM content
 - 5. In-Situ TREO Grade is calculated by THM Grade (2.95%) multiplied by TREO Grade (2.43%)

Exploration Target

2-4 Billion tonne Exploration Target¹

Tonnage		THM grade		In situ THM	
Low Case	Upper Case	Low Case	Upper Case	Low Case	Upper Case
2,622 Mt	4,071 Mt	2.05%	2.16%	54 Mt	88 Mt
In situ THM		Zircon grade		In situ zircon	
Low Case	Upper Case	Low Case	Upper Case	Low Case	Upper Case
54 Mt	88 Mt	5.31%	6.03%	3 Mt	5 Mt
In situ THM		Rutile grade		In situ rutile	
Low Case	Upper Case	Low Case	Upper Case	Low Case	Upper Case
54 Mt	88 Mt	2.03%	2.34%	1 Mt	2 Mt
In situ THM		Leucoxene grade		In situ leucoxene	
Low Case	Upper Case	Low Case	Upper Case	Low Case	Upper Case
54 Mt	88 Mt	3.08%	3.46%	2 Mt	3 Mt
In situ THM		Ilmenite grade		In situ ilmenite	
Low Case	Upper Case	Low Case	Upper Case	Low Case	Upper Case
54 Mt	88 Mt	7.13%	8.2%	4 Mt	7 Mt
In situ THM		Monazite grade		In situ monazite	
Low Case	Upper Case	Low Case	Upper Case	Low Case	Upper Case
54 Mt	88 Mt	0.68%	0.76%	0.4 Mt	0.7 Mt
In situ THM		Xenotime grade		In situ xenotime	
Low Case	Upper Case	Low Case	Upper Case	Low Case	Upper Case
54 Mt	88 Mt	0.07%	0.07%	0.04 Mt	0.06 Mt

Note (1): The Exploration Target was first reported in the Prospectus dated 21 November 2022 as supplemented by the supplementary prospectus dated 5 December 2022, lodged with ASX on 5 January 2023.
