INVESTOR PRESENTATION

AUGUST 2023

— ASX:VTM —

DISCLAIMER

Not a disclosure document
The purpose of this presentation is to provide general information about the Company only. This presentation is not a disclosure document for the purpose of Chapter 6D of the Corporations Act 2001 (Cth) (Corporations Act) and does not purport to include the information required of such a disclosure document. It has not been lodged with or approved by any regulatory authority, such as the Australian Securities and Investments Commission or the Australian Securities Exchange.

No New Information or Data
This document contains exploration results and historic exploration results as originally reported in fuller context in Victory Metals Ltd ASX Announcements as published on the Company's website. Victory confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcements. In the case of Mineral Resource estimates, Ore Reserve estimates, production targets and forecast financial information derived from the production targets, all material assumptions and technical parameters underpinning the estimates, production targets and forecast financial information derived from the production targets contained in the relevant market announcement continue to apply and have not materially changed in the knowledge of Victory. The recent Company ASX new releases referred to in this presentation include:

- **"NORTH STANMORE INITIAL MINERAL RESOURCE ESTIMATE"**
dated 2nd August 2023
- **"FOLLOW UP METALLURGICAL TESTWORK PROVIDES EXCELLENT RARE EARTH MAGNET METAL RECOVERIES"** *dated 13th June 2023*
- **"RC DRILLING ASSAYS COMPLETED WITH HIGH CONTENT OF HEAVY REE"** *dated 15 May 2023*
- **"EXCEPTIONAL RECOVERIES OF CRITICAL HEAVY RARE EARTH ELEMENTS"** *dated 1 May 2023*
- **"RC Drilling Confirms HREE Mineralisation"** *dated 17 April 2023*
- **"VICTORY EXPANDS RARE EARTH ELEMENT EXPLORATION AREA"**
dated 6 April 2023
- **"Rare Earth Element Footprint Confirmed"** *dated 13 March 2023*

NO OTHER MATERIAL AUTHORISED

The Company has not authorised any person to give any information or make any representation in connection with any proposed offer of securities. A prospective investor cannot rely upon any information or representations not contained in this presentation.

NATURE OF MINERAL EXPLORATION RISKS

This presentation does not purport to be all-inclusive or to contain all the information that you or any other party may require to evaluate the prospects of the Company. The mineral tenements of the Company as described in this presentation are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.

Some of the tenements are in the application stage only and there is no guarantee the applications will be granted by the responsible minister or governmental decision maker having jurisdiction. There can be no assurance that exploration of the tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

FORWARD-LOOKING STATEMENTS

This announcement contains "forward-looking statements". All statements other than those of historical facts included in this announcement are forward looking statements. Where a company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, metals price volatility, currency fluctuations, increased production costs and variances in ore grade or recovery rates from those assumed in mining plans, as well as political and operational risks and governmental regulation and judicial outcomes. Neither company undertakes any obligation to release publicly any revisions to any "forward-looking" statement.

RELIANCE ON PRESENTATION

A recipient of this presentation must make their own assessment of the matters contained herein and rely on their own investigations and judgment in making an investment in the Company. This presentation does not purport to contain all of the information a recipient of this presentation requires to make an informed decision whether to invest in the Company. Specifically, this presentation does not purport to contain all the information that investors and their professional advisers would reasonably require to make an informed assessment of the Company's assets and liabilities, financial position and performance, profits, losses and prospects.

NOT A RECOMMENDATION OR FINANCIAL ADVICE

The information in this presentation is not a recommendation to subscribe for securities in the Company and does not constitute financial advice. Any person who intends to subscribe for securities must conduct their own investigations, assessment and analysis of the Company and its operations and prospects and must base their investment decision solely on those investigations and that assessment and analysis. Prospective investors should consult their own legal, accounting and financial advisers about an investment in the Company.

COMPETENT PERSON STATEMENT

Professor Ken Collerson
Statements contained in this report relating to exploration results, scientific evaluation, and potential, are based on information compiled and evaluated by Professor Ken Collerson. Professor Collerson, BSc (Hons.), PhD is Principal of KDC Geo Consulting, and a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM), membership number #100125. He is a geochemist and geologist membership number #100125. He is a geochemist/geologist with sufficient relevant experience in relation to rare earth element geochemistry, critical metal mineralisation and REE systematics given in Core metallurgical data summaries being reported on, to qualify as a Competent Person as defined in the Australian Code for Reporting of Identified Mineral resources and Ore reserves (JORC Code 2012). Professor Collerson consents to the use of this information in this report in the form and context in which it appears.

**AUSTRALIA'S LARGEST
Heavy Rare Earth (HREO)
enriched ionic/regolith
clay deposit**

**250 MT JORC RESOURCE
Inferred Mineral
Resource Estimate**

**130,000 TONNES
of Total Rare Earth
Oxide (TREO) from 18%
of the drilled area**

**A\$102,000 PER TONNE
BASKET PRICE
Victory hosts a premium
basket of REE with an
estimated basket
A\$102 per kg**

**VERY HIGH PERCENTAGES
of valuable and critical
REE Dysprosium (Dy)
and Terbium (Tb) @ 3.6%**

**77.7% COMBINED
METALLURGICAL RECOVERY
of magnet metals
NdPr+DyTb**

WHY VICTORY METALS

NORTH STANMORE RARE EARTH ELEMENT PROJECT

North Stanmore is
100% OWNED with
outstanding logistical and
location advantages

**VERY LOW CONTENTS OF
RADIOACTIVE ELEMENTS**
Uranium (and Thorium)
assists with the
economics of the project

Infill drill program
to **COMMENCE IN
SEPTEMBER 2023**
to increase grade,
size and confidence in
the MRE and to facilitate
a scoping study

LOW LEACH TIMES
with economic acid
consumption and
low levels of gangue
materials and impurities

Beneficiation test
work shows rare earth
element feed grades
**CAN BE INCREASED
UP TO 148%**

CONTINUED...

INITIAL MINERAL RESOURCE ESTIMATE

NORTH STANMORE

Initial Inferred Mineral Resource of **250Mt at 520ppm**

MRE area is only **18%** of Exploration Target Area

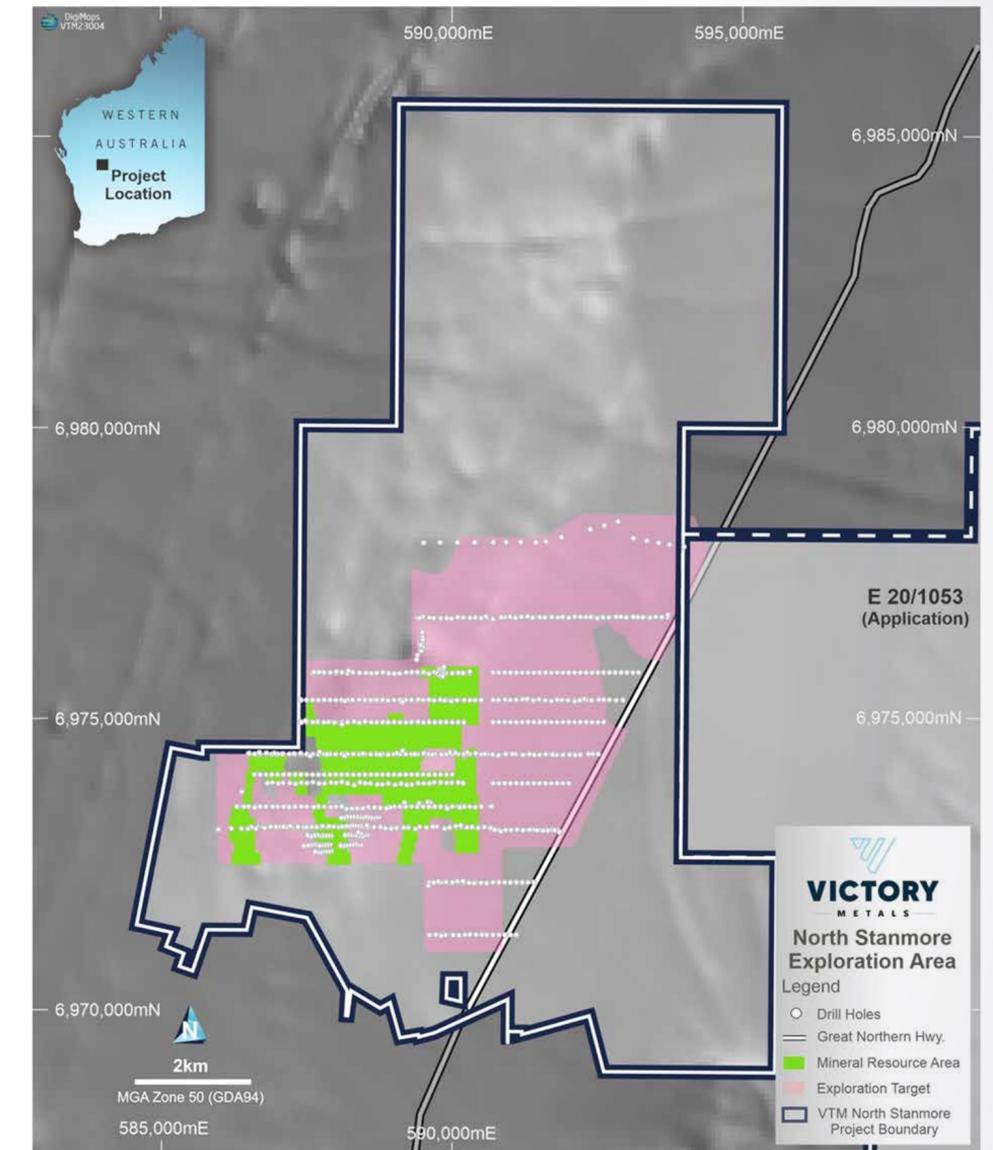

Exploration Target **700Mt to 1,100Mt**

130,000t of contained Total Rare Earth Oxide (TREO)

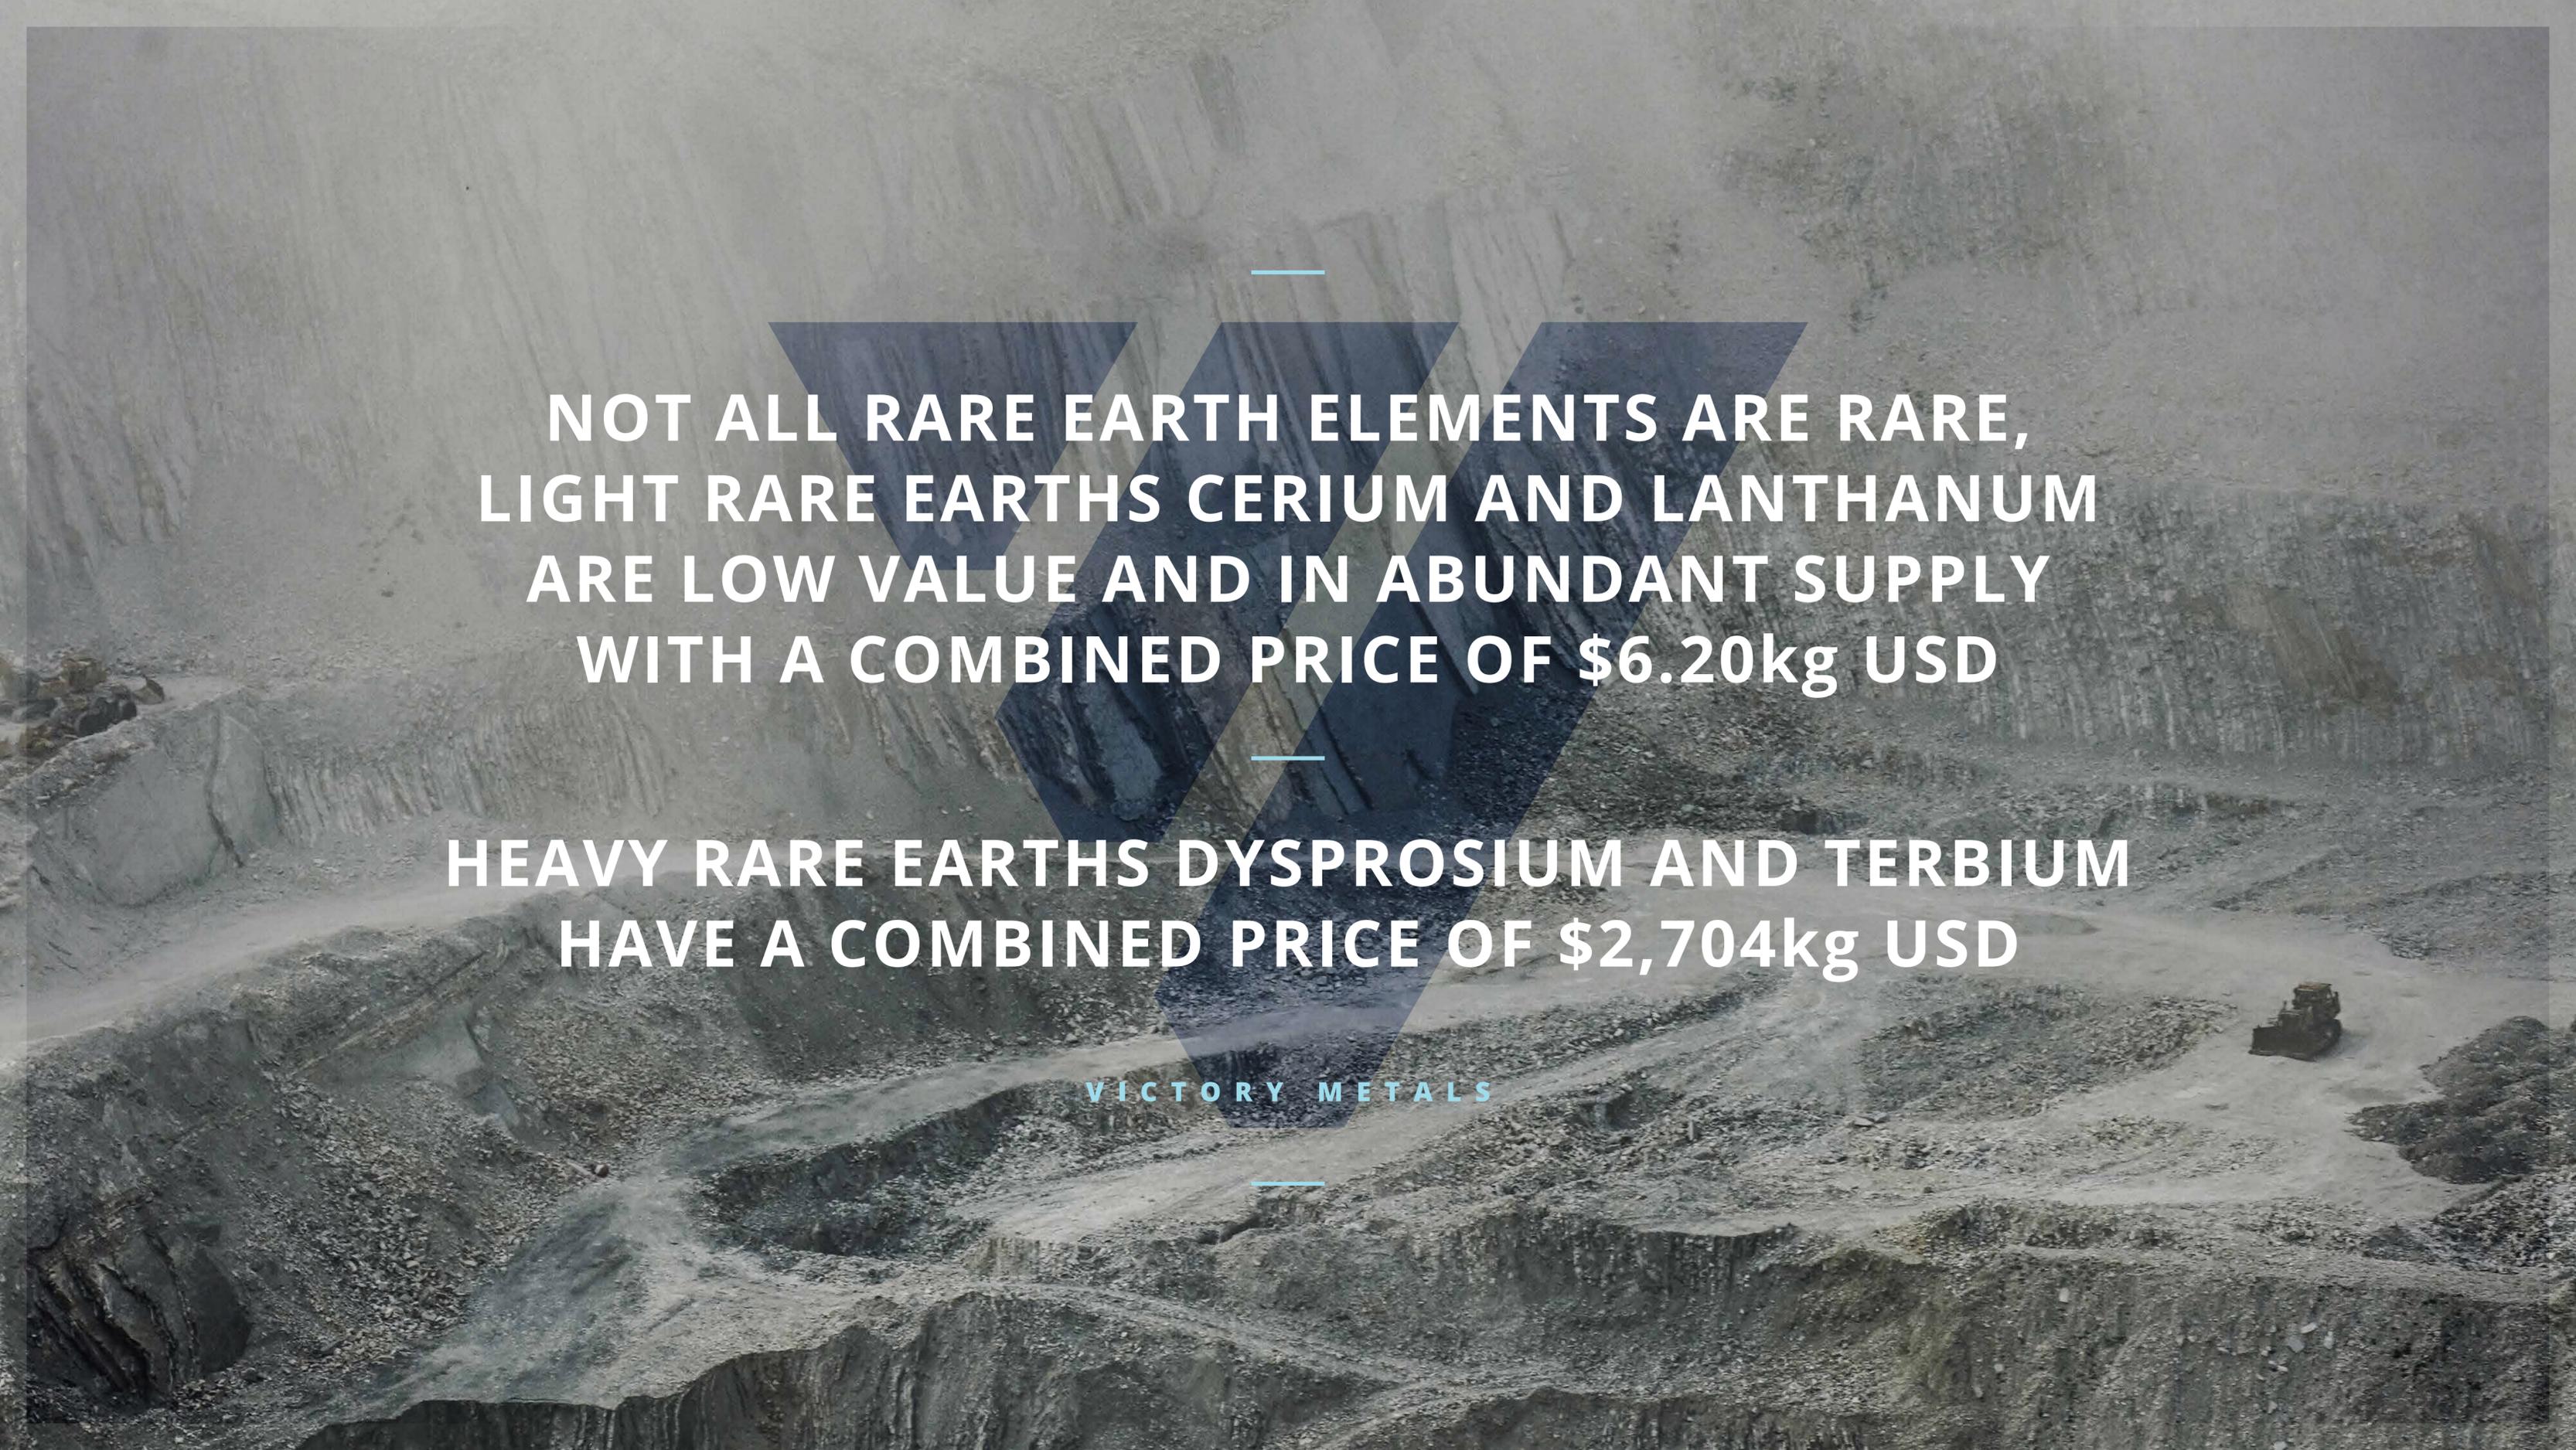

Substantial (**33%**) heavy rare earth oxide (HREO/TREO)

54% critical metals as identified by the US Government 2022

Drill assays averaging **828ppm** of TREO (400ppm cut off)

North Stanmore tenement package and pending tenements, with the MRE and exploration target areas highlighted.

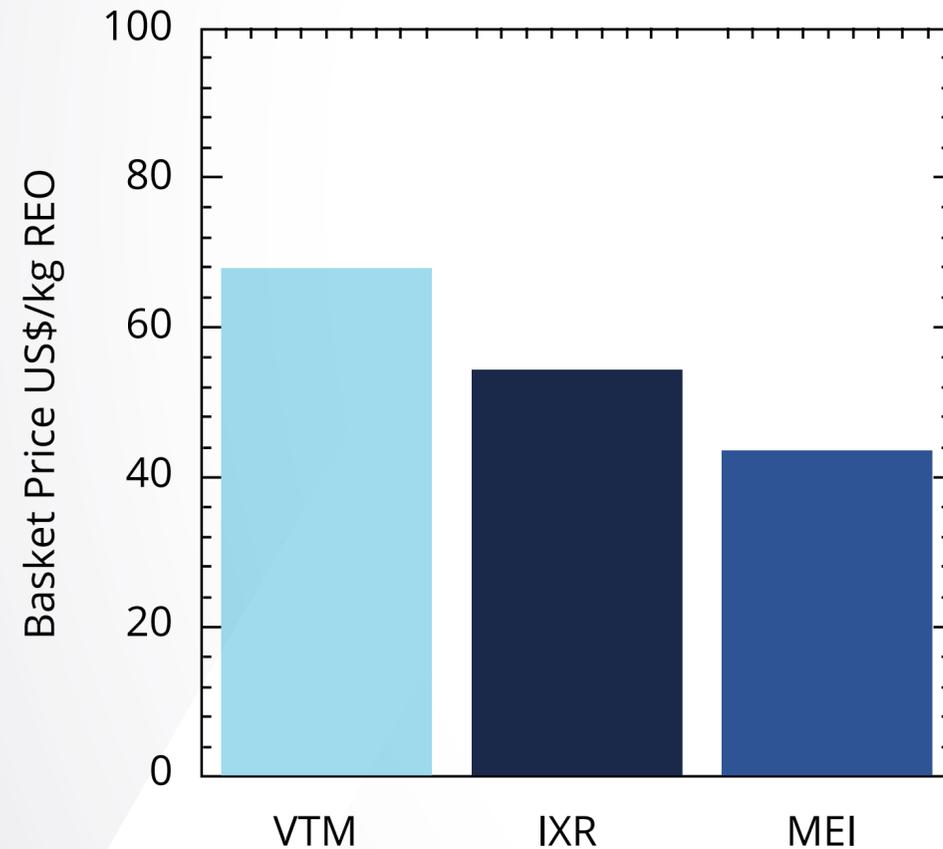

NOT ALL RARE EARTH ELEMENTS ARE RARE,
LIGHT RARE EARTHS CERIUM AND LANTHANUM
ARE LOW VALUE AND IN ABUNDANT SUPPLY
WITH A COMBINED PRICE OF \$6.20/kg USD

HEAVY RARE EARTHS DYSPROSIUM AND TERBIUM
HAVE A COMBINED PRICE OF \$2,704/kg USD

LOCATION

PRIME LOCATION WITH WEATHER ADVANTAGES FOR MINING, EXPLORATION AND POWER GENERATION

- North Stanmore situated alongside Great Northern Highway being one of Australia's major arterial road networks connecting the Pilbara to the World

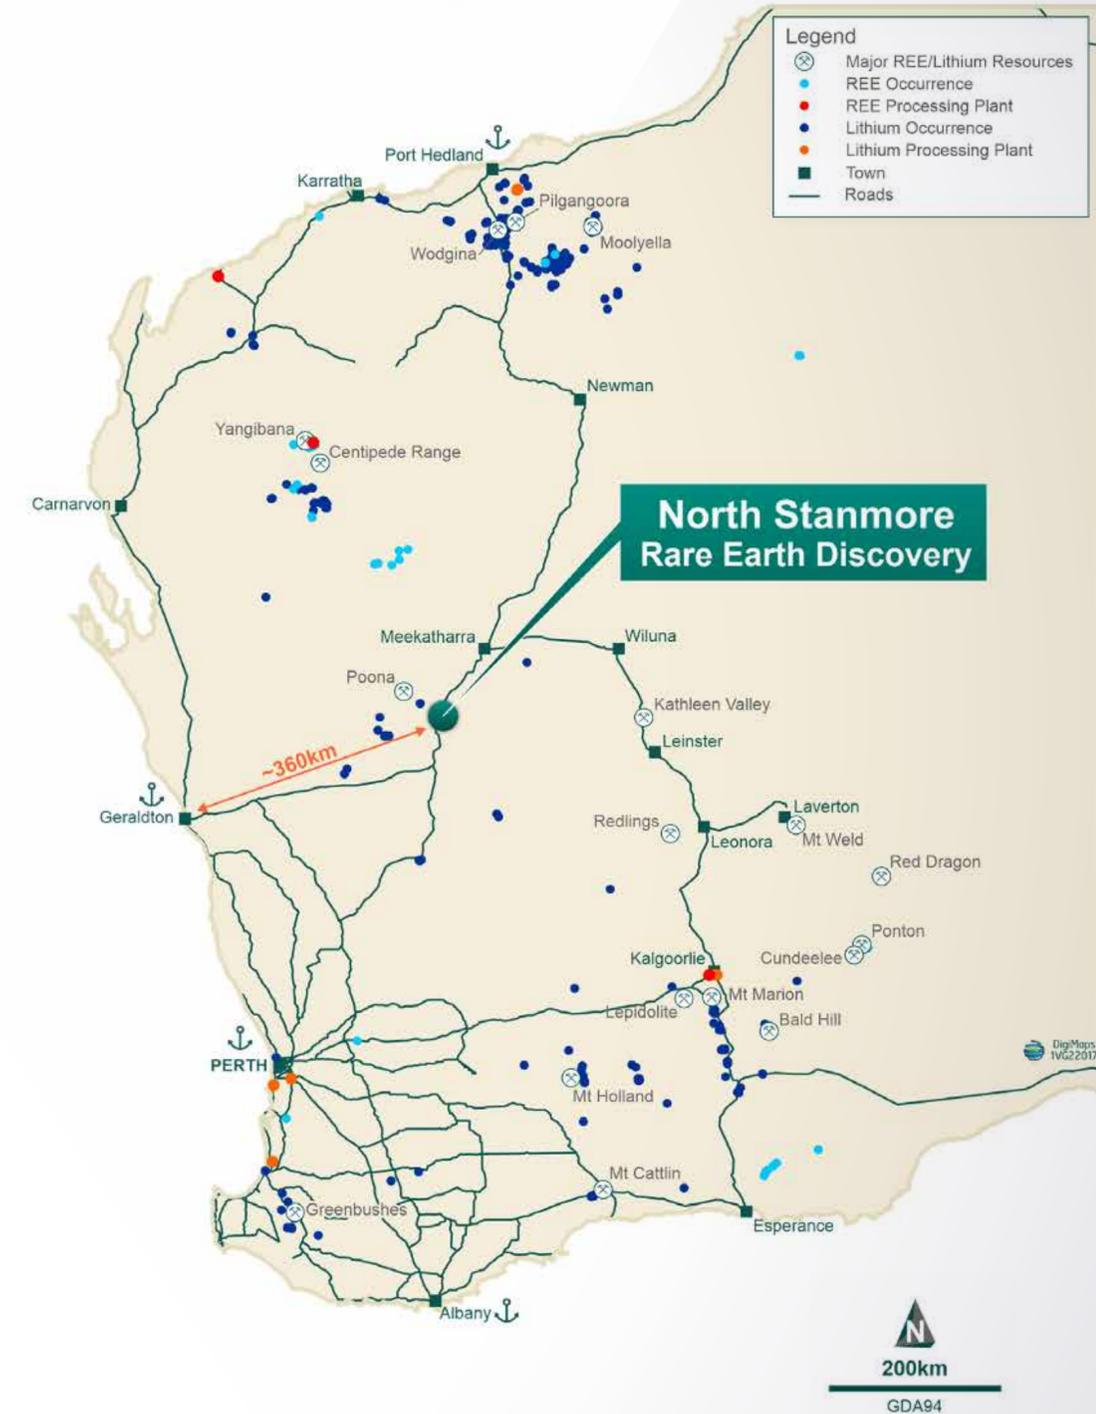

- Situated approximately 7.5km from Cue township and ~420km to Geraldton Port by sealed roads

- Cue has a regional airport which is connected to major cities by a commercial airline

- Westgold recently commissioned hybrid power station in Cue
- VTM has no freehold land owners to deal with, land access or resettlement issues as 100% of North Stanmore is situated on Crown Land

NORTH STANMORE METALLURGY

- **EXCEPTIONAL YIELDS** of Heavy Rare Earth Elements up to 63.6% Lutetium (Lu), 60% Dysprosium (Dy) and 58% Terbium (Tb)
- These high recoveries were achieved with **LOW TEMPERATURE** 50°C and **SHORT LEACHING TIME** of (4 hrs)
- **INCREASED MAGNET METALS** NdPr + DyTb recoveries of 77.7% from follow up testwork using a sulphuric acid baking leach with low leach time (2 hrs)
- Victory's metallurgical approach uses ammonium sulphate and sulphuric acid that are **SIGNIFICANTLY LESS EXPENSIVE** and more **READILY AVAILABLE** than hydrochloric acid

INVESTMENT HIGHLIGHTS

» **AUSTRALIA'S LARGEST** Heavy Rare Earth enriched Deposit with a premium mix of REE

» **SIGNIFICANT UPSIDE** with further exploration to commence 7km north of MRE area

» Infill MRE drill program to **COMMENCE IN SEPTEMBER 2023** to increase grade, size and confidence

» Initial MRE **250MT** **AND 130,000T** of TREO

» **HIGH METALLURGY RECOVERIES** of valuable and critical Heavy Rare Earth Elements

» **100% OWNED** adjacent to one of Australia's major arterial networks the Great Northern Highway

» Well Funded with **\$3.25M CASH IN BANK** and low burn rate

» **PROVEN LOW COST RECOVERY** process with Gold and Scandium credits
