

**ASX Release**

6 September 2023

## **Appendix 3Y**

Great Divide Mining Ltd (the **Company** or **GDM**), a gold and critical metals explorer in Queensland, provides the annexed Appendix 3Y for Simon Tolhurst relating to an acquisition of 40,000 Shares on market by Mr Tolhurst on 5 September 2023.

The Company notes that the acquisition inadvertently occurred on the second day of a 'blackout period', relating to the Company's full year financial result due at the end of September, as defined by the Company's Trading Policy. Mr Tolhurst had instructed his broker to place an order on market last week (being not during a blackout period) which was intended to be withdrawn on the 'blackout period' commencing on Monday 4 September, but that order had not been so withdrawn.

The Company confirms that it has appropriate policies and procedures in place – in compliance with both its Trading Policy and the ASX Listing Rules – and considers this to be an isolated incident which occurred through an inadvertent error by a director. For the avoidance of doubt, the Company confirms Mr Tolhurst was not in possession of inside or material non-public information at the time of the trade.

Having considered the inadvertent nature of the breach, the Company does not propose to take any further action in this matter other than to continue to remind directors and officers of their obligations under the Company's Trading Policy.

ENDS

ASX release authorised by the Company Secretary of Great Divide Mining Ltd.

### **About Great Divide Mining Ltd (ASX:GDM)**

Great Divide Mining is a Gold, Antimony and critical metals explorer in Queensland, with four projects across eleven tenements. GDM's focus is on developing assets within areas of historical mining and past exploration with nearby infrastructure, thus enabling rapid development. Through a staged exploration and development programme, GDM intends to generate cashflow from its initial projects to support further exploration across its portfolio of highly prospective tenements.
