8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
<p>Answer: The Company believes that it will be able to continue to operate based on its available cash and funding. The previous quarter included payment for significant drilling and assay costs related to the Uis Project, Namibia. Ongoing exploration at the Uis Project comprises of large scale trenching, channel sampling and soil and stream sediment sampling to define high confidence drill targets. The cost of these work programs is significantly less than drilling so the Company anticipates that for the quarter ended 31 December 2023, the operating costs of the Company will be materially lower than the quarter ended 30 September 2023.</p>

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company has a successful track record in being able to secure further funding and is confident that further funding will be available to the Company at the time that it is required.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The Company believes it can continue to operate and meet its obligations. As stated above, the Company anticipates a lower level of operating expenditure owing to the fact that the multiple exploration streams ongoing at the Uis Project are lower cost in comparison to drilling which was reported upon and funded as part of the quarter ended 30 September 2023 and will be reflected in the quarter ended 31 December 2023. The Company will seek to raise further funds at the time when drilling is set to resume.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
