Dear Sir/Madam

**25 September 2023**

Technology Metals Limited Australia (ASX:TMT) (the **Company**) requests a trading halt in its securities effective immediately pursuant to ASX Listing Rule 17.1. In accordance with ASX Listing Rule 17.1, the Company provides the following information in relation to its request:

1. **Reason for trading halt:** the trading halt is requested to assist the Company in managing its continuous disclosure obligations as the Company expects to make an announcement to the market in relation to a proposed material transaction regarding a merger.
2. **Duration of the trading halt:** the Company requests that the trading halt remain in place until the earlier of the commencement of normal trading on Wednesday, 27 September 2023 or when an announcement regarding the proposed transaction is released to the market.
3. **Termination of the trading halt:** the Company anticipates that the trading halt will cease upon it making an announcement to the market regarding the proposed material transaction.
4. **No reason:** the Company is not aware of any reason why a trading halt should not be granted.
5. **Further information:** the Company is not aware of any further information which needs to be disclosed to the market about the trading halt.

## AUTHORISED FOR RELEASE ON THE ASX BY THE COMPANY'S BOARD OF DIRECTORS

## About Technology Metals Australia

Technology Metals Australia Limited (ASX: **TMT**) is a future-oriented ASX-listed company focused on the development of its flagship, 100 per cent owned Murchison Technology Metals Project (**MTMP**), which is expected to meet global demand for high-purity vanadium, increasingly recognised as a critical mineral around the world. The MTMP is located 50km southeast of Meekatharra in the mid-west region of Western Australia and is one of the highest-grade vanadium projects in the world, with planned production at 6% of current global vanadium demand.

TMT's vision is to be a leader in the Australian and international vanadium industry playing a crucial role in meeting a growing demand for a critical metal that helps the world to decarbonise. Together with vLYTE, TMT's wholly owned subsidiary focused on adding downstream value to high-quality feedstock, the MTMP will be a strategic, long-life asset supporting the nascent and fast-growing vanadium redox flow battery industry. TMT's ESG values extend beyond the MTMP's production – TMT's contribution to a cleaner world is envisioned to include utilisation of renewable energy generation, battery storage, heat capture and transition to electric options for mobile equipment.
