About Anglo American

Anglo American is a leading global mining company whose products are the essential ingredients in almost every aspect of modern life. Its portfolio of world-class competitive operations, development projects and undeveloped resources, provides many of the metals and minerals that enable a cleaner, greener, more sustainable world and that meet the fast-growing consumer-driven demands of developed and maturing economies. AngloAmerican's people are at the heart of its business, using innovative practices and the latest technologies to mine, process, move and market our products to its customers – and to discover new resources – safely and sustainably.

As a responsible producer of diamonds (through De Beers), copper, platinum group metals, the steelmaking ingredients of iron ore and metallurgical coal, and nickel – with crop nutrients in development and thermal coal operations planned for divestment – AngloAmerican are committed to being carbon neutral across our operations by 2040. The group works together with its business partners and diverse stakeholders to unlock sustainable value from precious natural resources for the benefit of the communities and countries in which it operates, for society as a whole, and for our shareholders. Anglo American is re-imagining mining to improve people's lives.

About DXN Limited

DXN is Asia Pacific's only vertically integrated manufacturer and operator of modular data centres. DXN's core business is designing, engineering, manufacturing, maintaining and operating data centres.

The Company has two core divisions that provide a complete symbiotic relationship that better captures what we do, how we do it and why we do it.

These divisions are:

1. **Modular Division** – designs, engineers, manufactures, and deploys EDGE facilities and critical DC infrastructure; and
2. **Data Centre Operations** - operates, maintains and markets data centres and critical infrastructure for our own DXN data centres as well as our modular customers. For more <https://dxn.solutions>
