

MARKET UPDATE

HIGHLIGHTS:

- **Genus wins design, supply and installation of 33kV overhead lines at the Western Range Project**
- **Approximately \$30 million contract value**
- **Contract work to commence immediately and estimated to be completed in early 2025**

National essential power and communications infrastructure provider GenusPlus Group Ltd (ASX: GNP) (GenusPlus, or the Company) today announced the award of a circa \$30 million contract with Rio Tinto (RTIO).

GenusPlus has been contracted for the design, supply and installation of 33kV overhead lines including the installation and termination of buried cables at road crossings; and substations, supply and installation of pole top power transformers at the Western Range project in the Pilbara region of WA, approximately 15 km west of Paraburdoo.

The contract for design, supply and installation of a 33kV overhead lines will commence immediately and is estimated to be completed in early 2025, with Genus' project workforce comprising approximately 30 personnel.

GenusPlus Group's Managing Director David Riches welcomed the opportunity to extend the relationship with Rio Tinto through delivery of key transmission & distribution infrastructure.

"We are delighted to secure the Western Range Contract and continue to build on our long and successful relationship with Rio Tinto. We look forward to completing the works safely and on time. This contract award is important as we convert our strong tender pipeline to orderbook heading into FY2024." Mr Riches said

The Board of the Company has authorised the release of this announcement to the market.
