

## Notice under Section 708A(5)(e) of the Corporations Act

19 April 2023: Orthocell Limited ("Issuer") notifies ASX (as the operator of the prescribed financial market on which the securities identified below are or are to be quoted) under section 708A(5)(e) of the Corporations Act that:

1. the securities identified below were issued without disclosure to investors under Part 6D.2 of the Corporations Act;
2. as at the date of this notice the Issuer has complied with the provisions of Chapter 2M of the Corporations Act as they apply to the Issuer and with section 674 of the Corporations Act; and
3. as at the date of this notice there is no information:
  - (a) that has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
  - (b) that investors and their professional advisers would reasonably require for the purpose of making an informed assessment of:
    - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
    - (ii) the rights and liabilities attaching to the securities,

to the extent that it would be reasonable for investors and their professional advisers to expect to find such information in a disclosure document.

### About Orthocell Limited

Orthocell is a regenerative medicine company focused on regenerating mobility for patients by developing products for the repair of a variety of bone and soft tissue injuries. Orthocell's portfolio of products include CelGro™, a collagen medical device which facilitates tissue repair and healing in a variety of dental and orthopaedic reconstructive applications. Striate+™ was the first product approved for dental GBR applications and is cleared for use in US FDA (510k), Australia (ARTG) and Europe (CE Mark). Remplir™, for peripheral nerve repair, recently received approval in Australia (ARTG). SmrtGraft™, for tendon repair, is available in Australia under Special Access Scheme or participation in a clinical trial. The Company's other major products are autologous cell therapies which aim to regenerate damaged tendon and cartilage tissue. Orthocell is accelerating the development of its tendon cell therapy in the US with technology transfer, manufacturing scale up and FDA engagement in advance of a randomised controlled study under FDA supervision.
