SUGAR ZONE UPDATE

Silver Lake Resources Limited (“**Silver Lake**” or the “**Company**”) advises that its Sugar Zone operation in Northern Ontario, Canada was fully evacuated on the afternoon of 29 May 2023 (local time), at the request of local authorities, due to the threat of nearby forest fires.

Mining and processing operations have been suspended and all personnel have been safely evacuated from the site to White River in accordance with Silver Lake’s emergency response plan.

Site power supply has been interrupted following damage to the power transmission line from White River to the Sugar Zone site. No other damage to site infrastructure has been reported as this time.

Silver Lake will provide an update on the situation and any material impact it may have on operations as soon as access to the site is permitted and the situation becomes clearer.

This announcement was authorised for release to ASX by Luke Tonkin, Managing Director. For more information about Silver Lake Resources Limited and its projects please visit our web site at www.silverlakeresources.com.au.
