31 MAY 2023

KIN APPOINTS EXECUTIVE DIRECTOR - BUSINESS DEVELOPMENT

Experienced corporate executive Nicholas Anderson appointed to drive Kin's business development activities in Leonora Region

Highlights

- Experienced corporate executive and current Non-Executive Director, Nicholas Anderson, appointed to the newly-created role of Executive Director – Business Development.
- Mr Anderson to analyse opportunities and pathways for the Company to add additional value for Kin shareholders in the Leonora gold district.

The Board of Kin Mining NL (ASX: KIN or “the Company”) is pleased to announce the appointment of Mr Nicholas Anderson as Executive Director – Business Development. The newly-created role will be focused on identifying opportunities for Kin to build additional value for shareholders in the highly prospective Leonora gold district of Western Australia.

Mr Anderson has been a non-executive Director of Kin Mining since July 2019 and has over 20 years' experience across the mining and corporate finance industries, with a wealth of experience in corporate transactions, mergers and acquisitions, debt financing and management.

Kin Mining Managing Director, Andrew Munckton, said: “Nicholas will work closely with Kin's management team and our corporate advisors, Argonaut, to explore business development opportunities to build additional value for Kin shareholders. With the ongoing consolidation of the Leonora region, and the increased levels of corporate activity in the gold sector, the Board believes this appointment will help Kin enhance its strategic position in the region and assist the Company's management team to deliver our growth strategy.

“We believe Nicholas' skills and experience will provide the Company with important additional resources to take advantage of the opportunities in the region.”

Commenting on his appointment, Nicholas Anderson said: “I am honoured to assist Kin during this exciting time in its history and look forward to delivering value for the Company and its stakeholders.”

ABOUT KIN MINING NL

Kin Mining NL (ASX: KIN) is a West Australian based gold development and exploration company. Kin’s key focus is its 100% owned Cardinia Gold Project (CGP) located in the highly prospective North-Eastern Goldfields region of Western Australia. The CGP has a 1.41Moz gold Mineral Resource (see Table A1) defined in both oxide and deeper primary mineralisation with considerable potential to grow this resource with further drilling.

Kin’s exploration effort is the systematic program of exploration across the Cardinia Mining Centre that seeks to advance a number of targets in parallel while developing a pipeline of exploration targets for ongoing Mineral Resource expansion.

¹The company confirms that it is not aware of any new information or data that materially affects the information included in the ASX Announcement of 23 September 2022 "Cardinia Gold Project Mineral Resource Hits 1.4Moz.....", and that all material assumptions and technical parameters underpinning the estimates in that announcement continue to apply and have not materially changed.

COMPETENT PERSON'S STATEMENT

The information contained in this report relating to exploration results relates to information compiled or reviewed by Leah Moore. Ms Moore is a member of the Australian Institute of Geoscientists and is a full-time employee of the company. Ms Moore has sufficient experience of relevance to the styles of mineralisation and the types of deposit under consideration, and to the activities undertaken to qualify as a Competent Person as defined in the 2012 edition of the JORC "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves".

Ms Moore consents to the inclusion in this report of the matters based on information in the form and context in which it appears.

CAUTIONARY STATEMENT

In relation to the disclosure of visual mineralisation, the Company cautions that visual estimates of sulphide material abundance should never be considered a proxy or substitute for laboratory analysis. Laboratory assay results are required to determine the widths and grade of the visible mineralisation reported in preliminary geological logging. The Company will update the market when laboratory analytical results become available.
