

## AUSTRALASIAN METALS

ASX Announcement | ASX: A8G | 26 July 2023

# JUNE 2023 QUARTERLY ACTIVITIES REPORT

### Highlights

#### Operations

##### Capella & Mt Clermont

- Maiden Inferred Mineral Resource Estimate (MRE) (2012 JORC Code & Guidelines) has been completed for the Ayres Rock and the Retro Extended deposits situated within the Company's Capella and Mt Clermont Gold Projects
- The combined MRE amounts to 63,600 ounces of gold at a grade of 1.13 g/t at a 0.6 g/t Au cut-off and constrained to 100m below the surface. Mineralisation continues at depth

##### Bauxite

- Acquisition of the May Queen South Bauxite Project (EL16260 & EPM16261)
- JORC 2012 Inferred Mineral Resource Estimate of 54.9Mt bauxite mineral at 37.5% total alumina, 5.2% TiO<sub>2</sub> and 7.9% total silica

##### Northern Territory Lithium

- The Company has received its Aboriginal Area Protection Authority (AAPA) certificate for Mt Peake diamond drilling program together with approval of the Mining Management Plan
- A8G was awarded \$95,185 in grant funding from the Northern Territory government to fund the maiden drilling program
- Mt Peake drilling to commence this quarter.

##### Corporate

- Sale of Fairview Gold Project, WA to Marquee Resources Limited (ASX:MQR) for 6.5 million MQR shares (~\$250,000) and 6 million options
- Well-funded with \$ ~4 million in cash reserves as at 30 June 2023

Australasian Metals Limited (ASX:**A8G**, **Australasian** or the **Company**) is pleased to present its quarterly activities report for the June quarter.

## Operations

### ***Mt Peake Lithium project (100%)***

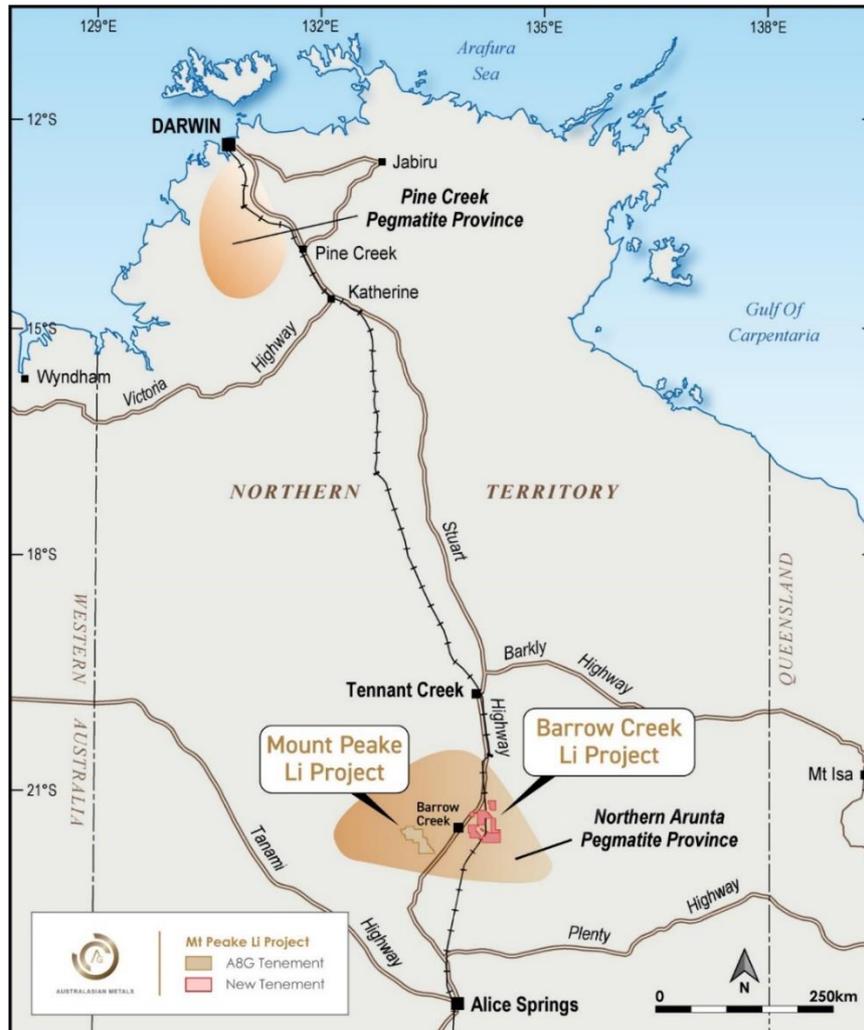

The Mt Peake lithium project (granted EL32830) is located in the Mt Peake area of the Anningie Tin-Tantalum-Pegmatite fields, within the north Arunta Region of the NT. The area is considered highly prospective for hard rock lithium mineralisation. EL32830 covers over

## AUSTRALASIAN METALS

ASX Announcement | ASX: A8G | 26 July 2023

640km<sup>2</sup> and shares a boundary with Core Lithium Limited's (ASX:CXO) Anningie lithium project. The project is located ~200km north of Alice Springs (**Figure 1**).

**Figure 1:** Mt Peake and Barrow Creek lithium project location in the Northern Arunta Pegmatite province of the Northern Territory

The Company has been awarded a grant of \$95,185 (inclusive of GST) under the *Resource the Territory* initiative, which is administered by the Northern Territory Geological Survey. The funds from the grant will be applied towards the Company's maiden diamond drilling program at the highly prospective Mt Peake Lithium Project in the Northern Arunta province, which is expected to start in Q3 2023. This additional funding has allowed the Company to test the well-defined targets with less financial risk and the Company has the capacity to design an expanded drilling program if needed which will encompass a greater area than would otherwise be possible.

## AUSTRALASIAN METALS

ASX Announcement | ASX: A8G | 26 July 2023

Additionally, the Company has obtained its Aboriginal Area Protection Authority certificate, which allows the company to conduct diamond drilling in Mt Peake high priority targets. The Company has an approved mining management plan (MMP) in place, which means the Company now has all permits in place to conduct the very first diamond drilling program for Lithium mineralisation in this under-explored region.

### ***Barrow Creek Lithium project (90%)***

Barrow Creek is located roughly 100 km to the northeast of the Mt Peake Lithium project (**Figure 1**). There are historical Ta-Sn mineral occurrence records across several tenements, and pegmatite rocks have been mapped, with regional geological mapping by previous explorers and government geologists.

Several campaigns of fieldwork were completed during the quarter and the Company now has the AAPA certificate to conduct a RAB drilling program. The Company is now negotiating an access agreement with the landowners to get the Mining Management Plan approved.

### **Queensland Projects (100%)**

#### ***Mt Clermont and Capella Project***

Mt Clermont hosts the regionally significant Retro, Retro Extended, and Nanya prospects associated with the Retro Fault Zone. The project lies within the Anakie Province of the Drummond Basin, which is composed of a sequence of Devonian to Carboniferous sediments in Central Queensland, approximately 60km by road north-west of the town of Emerald. Mt Clermont has over 6,700m of historical drilling, showing potential for a high-grade polymetallic epithermal system.

On 11 April 2023, the Company announced a maiden JORC Inferred Mineral Resource Estimate (MRE) for the Ayres Rock and the Retro Extended deposits situated within the Capella and Mt Clermont Gold Projects.

The MRE for each of the deposits are as follows:

<b>Inferred Resources</b>				
<b>Projects</b>	<b>Au Cut-off Grade</b>	<b>M Tonnes</b>	<b>Au g/t</b>	<b>Au Koz</b>
<b>Ayres Rock</b>	<b>0.60</b>	<b>0.92</b>	<b>1.02</b>	<b>30.1</b>
<b>Retro Extended</b>	<b>0.60</b>	<b>0.82</b>	<b>1.27</b>	<b>33.5</b>
<b>TOTAL COMBINED</b>	<b>0.60</b>	<b>1.74</b>	<b>1.13</b>	<b>63.6</b>

*(minor rounding)*

AUSTRALASIAN METALS

ASX Announcement | ASX: A8G | 26 July 2023

The Company will target extensions of mineralisation in the form of potential high grade plunging shoots identified in drilling such as drill hole CAR036: **26m at 3.88 g/t Au** from 45m, including: **2m at 33.4 g/t Au** from 50m and **3m at 3.89 g/t Au** from 59m and **1m at 9.75 g/t Au** from 78m (see ASX Announcement dated 25 July 2022).

### May Queen South Bauxite Project

On 30 May 2023, the Company announced it had entered into an agreement to acquire the May Queen South Bauxite project from Atlantic Lithium Limited.

The May Queen South Bauxite project is located in central Queensland, within a short trucking distance of a rail system leading north to the Port of Bundaberg. It is also located within close proximity of the main Queensland Rail network heading south towards the Port of Brisbane.

Bauxite mineralised plateaus and zones defined to date are shown in Figure 2 below, along with RC drilling locations. Mapping, sampling and initial laboratory assay results have defined significant high-grade bauxite mineralisation at average 42% alumina over a combined surface area of 16km<sup>2</sup>. There is currently strong customer demand for this ore type.

## AUSTRALASIAN METALS

ASX Announcement | ASX: A8G | 26 July 2023

**Figure 3:** Location of Tenements 16260 and 16261, A8G existing tenements in May Queen gold project

The Project has a JORC 2012 Inferred Mineral Resource estimate of **54.9Mt at 37.5% total  $Al_2O_3$ % and 5.2%  $TiO_2$  and 7.9% Rx  $SiO_2$ %<sup>1</sup>.**

Preliminary scoping metallurgical test-work including size reduction, scrubbing and sizing was completed at Core Resources laboratory in Brisbane, Australia on representative 25 to 50kg bulk samples of the surface duricrust and bauxite resource. This work was carried out, to test whether a 'premium quality' DSO product could be easily beneficiated through simple crushing, scrubbing and screening.

Post quarter end, on 7 July 2023 the Company announced that it had completed its initial field program at the May Queen South Bauxite project. The program consisted primarily of mapping and surface rock chip sampling. The geological fertility of the Project was confirmed by the identification of several high grade surface samples of between 6% to 17.55%  $TiO_2$ .

## AUSTRALASIAN METALS

ASX Announcement | ASX: A8G | 26 July 2023

### ***Next Steps***

The Company is currently working to have EPM16260 and EPM16261 titles transferred to its subsidiary company and expects this to be completed within the next few weeks. Once the transfer is complete we will submit the required work program application to commence a shallow drill program which will focus on expanding the TiO<sub>2</sub> mineral resource.

### ***May Queen Gold Project***

The May Queen gold project comprises granted Exploration Permits for Minerals EPM 19419 and adjacent EPM 27746, located within the Brovinia goldfield in Queensland, approximately 375km by road from Brisbane.

No work was undertaken at May Queen during the June quarter.

### **Western Australian Projects**

#### ***Fairview Gold project***

Post quarter end, on 17 July 2023, the Company announced that it entered into a sale agreement with Marquee Resources Limited (ASX:MQR) regarding the sale of the Company's 100% interest in the Fairview Gold Project, Western Australia (EL E08/3248). The sale of Fairview allows Australasian to continue its focus on the Company's lithium, gold and bauxite/titanium projects in the Northern Territory and Queensland.

### **Corporate**

#### ***New Opportunities***

The board continues to assess new project opportunities to drive further shareholder value.

#### ***Release of securities from escrow***

On 12 May 2023, 10,950,000 ordinary shares were released from escrow.

#### ***Cash Position***

As at 30 June 2023, the Company had approximately ~\$4 million of cash and nil debt.

#### ***Summary of Exploration Expenditure***

In accordance with Listing Rule 5.3.1, the Company reports that there was ~\$244,000 exploration expenditure incurred during the June quarter.

### **Competent Person Statement**

The information in this report that relates to Exploration Results is based on, and fairly represents, information and supporting documentation prepared by Dr Qingtao Zeng, Managing Director of Australasian Metals Limited. Dr Zeng is a member of the Australasian Institute of Mining and Metallurgy and he has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity which has been undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr Zeng consents to the inclusion in this release of the matters based on the information in the form and context in which they appear. Dr Zeng is a shareholder of Australasian Metals Limited.

*Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.*

Amounts at item 6.1 are in relation to director fees included in item 1.2.

Amounts at item 6.2 are in relation to consulting fees included in item 2.1.

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

<b>7. Financing facilities</b>	<b>Total facility amount at quarter end \$A'000</b>	<b>Amount drawn at quarter end \$A'000</b>
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i>		
<i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 <b>Total financing facilities</b>	-	-
7.5 <b>Unused financing facilities available at quarter end</b>		-
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

<b>8. Estimated cash available for future operating activities</b>	<b>\$A'000</b>
8.1 Net cash from / (used in) operating activities (item 1.9)	(124)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(229)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(353)
8.4 Cash and cash equivalents at quarter end (item 4.6)	4,028
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	4,028
8.7 <b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>	11.41
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

## Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: ..... 26 July 2023.....

Authorised by: .....Board of Directors.....  
(Name of body or officer authorising release – see note 4)

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
