TRADING HALT REQUEST

RLF AgTech Ltd ("the company") hereby requests a trading halt in its securities and provides the following information in accordance with Listing Rule 17.1.

The request for the trading halt is in relation to signing of a material agreement with the Commonwealth Bank of Australia in relation to the Company's carbon business.

The trading halt is to last until the earlier of the Company releasing an announcement, or the commencement of trading on Thursday, 27 July 2023.

The Company is not aware of any reason why the trading halt should not be granted.

Yours Faithfully

Ben Donovan

Company Secretary

About RLF AgTech Ltd

RLF AgTech Ltd (ASX: RLF) is a technology-driven plant nutrition company that develops products to empower farmers, nourish people and restore the earth. RLF combines plant science with advanced chemistry and manufacturing practices to produce high-quality plant nutrition products for commercial agriculture. RLF's Plant Proton Delivery Technology enables farmers to grow higher-yielding, better-quality, and more nutritious produce while supporting the plants' natural ability to store and reduce atmospheric carbon. In the years ahead, commercial agriculture is destined to play a significant role in sequestering carbon. RLF's technologies will support this, using its Accumulating Carbon in Soil System (ACSS) to help capture and store CO₂ by increasing the organic matter in the world's soils.
