INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

APPENDIX 4D

RESULTS FOR ANNOUNCEMENT TO THE MARKET

Movement from the previous corresponding period (6 months ended 31 December 2019) for:

Revenue from ordinary activities	down	2.2%	to	\$19,890,187
Net profit from ordinary activities after tax attributable to members	up	11.6%	to	\$2,005,737

Note: The results in the previous corresponding period included revenue and profit from the Company's discontinued Tradition Smallgoods operation which was divested on 20 September 2019. Excluding the impact of Tradition Smallgoods, total revenue from continuing operations increased by 8.5% to \$19,890,187 and profit after tax from continuing operations increased by 20.8% to \$2,005,737.

DIVIDENDS

	Amount per security	Franked amount per security
Interim dividend	12.0 cents	12.0 cents
Interim dividend previous corresponding period	11.0 cents	11.0 cents
Record date for determining entitlements to the dividend	16 th March 2021	
Payment date for the dividend	26 th March 2021	

The Company's Dividend Reinvestment Plan (DRP) has been suspended and will not be in operation for the interim dividend payable on 26 March 2021. There is no foreign sourced dividend.

NET TANGIBLE ASSETS

	Current period 31/12/2020	Previous corresponding period 31/12/2019
Net tangible assets per security	\$3.50	\$3.34

This report has been reviewed by Moore Australia Audit (WA).

It is recommended that this report be read in conjunction with the annual financial report of the Company for the year ended 30 June 2020.

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

CHAIRMAN'S REVIEW

On behalf of the Directors, I am pleased to report that the half year under review has been a very successful period for our Company.

The Company has reported a net profit after tax of \$2.0 million up 11.6% on the \$1.8 million in the previous corresponding half year. The Company divested its Tradition Smallgoods business in the previous corresponding period. It was pleasing that the income and contribution to overheads previously received from the divested business have been offset by strong growth in the continuing operations. Excluding Tradition Smallgoods, the net profit after tax of \$2.0 million this half represents a substantial 20.8% increase.

The key financial highlights are summarised as follows:

- Net profit after tax from continuing operations up 20.8% to \$2.0 million
- Net profit before tax from continuing operations up 19.9% to \$2.7 million
- Revenue from continuing operations up 8.5% to \$19.9 million
- Rental income from investment property up 2.8% to \$0.6 million
- Declared interim fully franked dividend up 9% to 12.0 cents per share

The improvement in net profit before tax from continuing operations is very pleasing given it builds on the 23.1% increase in the 2020 financial year and the 23.7% increase in the 2019 financial year.

The Company continues to be in a very strong financial position with net assets of \$38.3 million (representing net tangible asset backing of \$3.50 per share), no debt and cash reserves of \$2.3 million.

Food Operations

The sound performance of the food operations was achieved on an 8.2% increase in bakery segment sales revenue to \$19.2 million from \$17.8 million previously.

As a leading Australian food company, certified to a range of high quality food manufacturing standards, COVID-19 has had a minimal impact on the Company apart from the implementation of some additional operating safeguards.

The Company has continued to increase its investment in and focus on operational performance. During the half year under review, major extensions to the chocolate factory were completed. The extensions were required to increase production capacity and improve operational efficiency of the existing business. In addition, the factory extensions enabled the Company to expand its manufacturing capability by installing a new world class chocolate block production line. The commissioning of the plant is well advanced and is expected to be completed in the current financial year.

Property Investment

Rental income from the property investment continues to make a significant contribution to operating profits. While rental income increased by 2.8%, a reduction in finance costs resulted in the net profit contribution from property increasing by 15.5% to \$0.59 million compared with \$0.51 million in the previous corresponding period.

The property investment comprises industrial and commercial properties that adjoin the Company's existing food factories. The properties are in close proximity to the Cockburn Central Town Centre and have direct access to the Perth Metro rail system, major regional roads, and freeways. The continuing rapid development of the Cockburn Central Town Centre, together with a major road and freeway improvement project currently being undertaken by the State Government in the area, is expected to deliver further opportunities to grow shareholder value from this important asset.

The asset values for the Company's investment properties as at 31st December 2020 remain unchanged from the valuations used in the 30th June 2020 annual accounts.

F.F.I. HOLDINGS LIMITED AND CONTROLLED ENTITIES

(ABN 32 009 155 328)

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

CHAIRMAN'S REVIEW (continued)

Compulsory Land Acquisition

As previously reported, during the last financial year the Main Roads of Western Australia compulsorily resumed an area of the Company's land holdings. The Company's entitlement to compensation for the financial loss resulting from the land taking continues to be negotiated with the Main Roads of Western Australia. Independent experts have been engaged by the Company to assist in resolving this matter. While the expert reports are expected to be completed in the current financial year, at this time it is not known when the matter will be finalised.

Dividend

In view of the improved financial results, the Directors have resolved to increase the interim dividend to 12.0 cents per share, up 9% from the previous corresponding period. The interim dividend is fully franked at the 26% company tax rate.

Outlook

The outlook remains very positive. COVID-19 and other international trade disruptions have highlighted the importance and potential of the Australian food industry. The Company, from the niche markets in which it operates, is in an ideal position to capitalise on the expected growth of Australian made food products.

With a diverse product and customer base, a strong financial position and an experienced and enthusiastic management team, the Board believes FFI will continue to deliver long term growth for shareholders.

Rodney Moonen

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Preparation

These general purpose interim financial statements for the half year reporting period ended 31 December 2020 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of F.F.I. Holdings Limited and its controlled entities (referred to as the “consolidated group” or “Group”). As such, it does not contain information that represents relatively insignificant changes occurring during the half year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2020, together with any public announcements made during the following half year.

These interim financial statements were authorised for issue on 11th February 2021 by the directors of the Company.

b. Accounting Policies

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

The Group has considered the implications of new or amended Accounting Standards, but determined that their application to the financial statements is either not relevant or not material.

c. Principles of Consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent F.F.I. Holdings Limited and all of the subsidiaries (including any structured entities). Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of the subsidiaries is provided in Note 8.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between Group entities are fully eliminated on consolidation.

Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

Equity interests in a subsidiary not attributable, directly or indirectly, to the Group are presented as “non-controlling interests”. The Group initially recognises non-controlling interests that are present ownership interests in subsidiaries and are entitled to a proportionate share of the subsidiary’s net assets on liquidation at either fair value or at the non-controlling interest’s proportionate share of the subsidiary’s net assets. Subsequent to initial recognition, non-controlling interests are attributed their share of profit or loss and each component of other comprehensive income. Non-controlling interests are shown separately within the equity section of the consolidated statement of financial position and consolidated statement of profit or loss and other comprehensive income.

F.F.I. HOLDINGS LIMITED AND CONTROLLED ENTITIES

(ABN 32 009 155 328)

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

d. Fair Value of Assets and Liabilities

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

Valuation techniques

In the absence of an active market for an identical asset or liability, the Group selects and uses one or more valuation techniques to measure the fair value of the asset or liability. The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Group are consistent with one or more of the following valuation approaches:

- *Market approach*: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- *Income approach*: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.
- *Cost approach*: valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Group gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs.

Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

F.F.I. HOLDINGS LIMITED AND CONTROLLED ENTITIES

(ABN 32 009 155 328)

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level into which an input that is significant to the measurement can be categorised as follows:

Level 1	Level 2	Level 3
Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.	Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.	Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

The Group would change the categorisation within the fair value hierarchy only in the following circumstances:

- (i) if a market that was previously considered active (Level 1) became inactive (Level 2 or Level 3) or vice versa; or
- (ii) if significant inputs that were previously unobservable (Level 3) became observable (Level 2) or vice versa.

When a change in the categorisation occurs, the Group recognises transfers between levels of the fair value hierarchy (i.e. transfers into and out of each level of the fair value hierarchy) on the date the event or change in circumstances occurred.

e. Critical Accounting Estimates and Significant Judgements Used in Applying Accounting Policies

The critical estimates and judgements are consistent with those applied and disclosed in the annual financial statements of the Group for the year ended 30 June 2020.

NOTE 6: DISCONTINUED OPERATIONS

Consolidated Group	
31.12.2020	31.12.2019
\$	\$

On 2 September 2019, the Consolidated Group announced its decision to dispose of Tradition Smallgoods, thereby discontinuing its operations in the smallgoods business segment.

The business was sold on 20 September 2019.

Financial information relating to the discontinued operation is set out below.

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

NOTE 7: OPERATING SEGMENTS

Segment Information

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of product category. Operating segments are therefore determined on the same basis.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics and are also similar with respect to the following:

- the products sold;
- the manufacturing process; and
- the type or class of customer for the products.

Types of products and services by segment

(i) *Bakery Segment*

This segment manufactures a wide range of predominantly bakery and home cooking needs food products for distribution to a diverse customer base.

(ii) *Smallgoods Segment*

This segment manufactures a wide range of smallgoods products for distribution to a diverse customer base and was discontinued in September 2019.

(iii) *Investment Property*

This segment manages the Company's industrial/commercial land which is held for investment purposes. This segment does not include land held for the Company's own use.

NOTE 8: INTEREST IN SUBSIDIARIES

Information about Principal Subsidiaries

Set out below are the Group's subsidiaries at 31 December 2020. The subsidiaries listed below have share capital consisting solely of ordinary shares, which are held directly by the Group and the proportion of ownership interests held equals the voting rights held by the Group. Each subsidiary's country of incorporation or registration is also its principal place of business.

Name of Subsidiary	Principal Place of Business	Ownership Interest held by the Group	
		At 31 December 2020 %	At 30 June 2020 %
Fresh Food Industries Pty Ltd	Perth, Western Australia	100	100
Chocolate Products of Australia Pty Ltd	Perth, Western Australia	100	100
Prepact Australia Pty Ltd	Perth, Western Australia	100	100
Danburn Holdings Pty Ltd (formerly Tradition Smallgoods Pty Ltd)	Perth, Western Australia	100	100

Subsidiaries' financial statements used in the preparation of these consolidated financial statements have also been prepared as at the same date as the Group's financial statements.

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

NOTE 9: FAIR VALUE MEASUREMENT (continued)

b. Valuation Techniques and Inputs Used to Determine Level 2 Fair Values

- (i) The value of the Group's investment property as at 31 December 2020 remains unchanged from the valuations used in the 30 June 2020 annual accounts. The value of the Group's investment property was reviewed at 30 June 2020 by the Directors. The value adopted as at 30 June 2020 is based on a valuation performed as at 30 June 2018 by a licensed independent valuer as well as consideration of other current relevant factors.
- (ii) The value of the Group's freehold land as at 31 December 2020 remains unchanged from the valuations used in the 30 June 2020 annual accounts. The value of the Group's freehold land was reviewed at 30 June 2020 by the Directors. The value adopted as at 30 June 2020 is based on an assessment by Directors of the property's current active open market value.

There were no changes during the reporting period in the valuation techniques used by the Group to determine Level 1, Level 2 and Level 3 fair values.

There were no transfers between Level 1, Level 2 and Level 3 during the reporting period.

DIRECTORS' DECLARATION

The directors of the Company declare that:

1. the financial statements and notes, as set out on pages 8 to 22 are in accordance with the *Corporations Act 2001*, including:
 - a. complying with Accounting Standard AASB 134: Interim Financial Reporting; and
 - b. giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the half year ended on that date; and
2. in the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors of F.F.I. Holdings Limited.

R G Moonen

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF F.F.I. HOLDINGS LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of F.F.I. Holdings Limited (the company) and its controlled entities (the consolidated entity), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the company is not in accordance with the *Corporations Act 2001*, including:

- a. giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and
- b. complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standards on Review Engagements ASRE 2410: *Review of Interim and Other Financial Reports Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including:

- a. giving a true and fair view of the company's financial position as at 31 December 2020 and its performance for the half-year ended on that date; and
- b. complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

As the auditor of the company, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

F.F.I. HOLDINGS LIMITED AND CONTROLLED ENTITIES

(ABN 32 009 155 328)

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

**INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS
OF F.F.I. HOLDINGS LIMITED (CONTINUED)**

Report on the Half-Year Financial Report (continued)

Auditor's Responsibility (continued)

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the company, would be in the same terms if provided to the directors as at the time of this auditor's review report.
