Firefinch is a Mali focussed gold miner and lithium developer. Firefinch has an 80% interest in the Morila Gold Mine and 100% of the Goulamina Lithium Project.

The Morila gold mine has produced 7.5Moz of gold since 2000, being one of the world's highest grade open pits some 12 to 20 years ago. Firefinch acquired the mine in November 2020 with the view to increase production at the 4.5Mtpa mill from a current annual production profile of 40koz pa of gold from tailing treatment, towards a target of 70 to 90koz pa of gold through mining of small open pits, stocks and tailings from mid-2021. In 2022, the Firefinch plans to increase production to target 150 to 200koz pa of gold by re-commencing mining from the main Morila pit.

The Goulamina Lithium Project is one of the world's largest undeveloped deposits. All permits are in place and a DFS was completed in October 2020. The DFS confirmed Goulamina as a long life, large scale and low-cost open pit project expected to produce 436ktpa of spodumene concentrate at an average cash cost of US\$281/t. An initial mine life of 23 years is underpinned by a high grade, low impurity Ore Reserve of 52Mt at 1.51% Li₂O for 0.79Mt contained Li₂O comprising 8.1 million tonnes of Proven Ore Reserves at 1.55% Li₂O and 44.0 million tonnes of Probable Ore Reserves at 1.50% Li₂O. Goulamina has a Mineral Resource of 109Mt at 1.45% Li₂O for 1.57Mt contained Li₂O comprising 8.4 million tonnes at 1.57% Li₂O in the Measured category, 56.2 million tonnes at 1.48% Li₂O in the Indicated category and 43.9 million tonnes at 1.45% Li₂O in the Inferred category.

Firefinch is a responsible miner. We support positive social and economic change through contributing to the communities in which we operate. We seek to buy local, employ local and safeguard the environment and our people's health, safety, and wellbeing.

The Company confirms that it is not aware of any new information or data that materially affects the Mineral Resources at Goulamina and Morila and the production estimates for Goulamina. The Company also confirms that all material assumptions and parameters underpinning the Mineral Resource estimates and production estimates continue to apply and have not materially changed. Please refer to ASX Announcements of 8th July 2020 and 20th October 2020 (Goulamina), 8th February 2021 (Morila Resource), 7th September 2020 and 28th April 2021 (Morila Tailings), 24th November 2020 and 3rd May 2021 (N'Tiola, Viper, Domba, Koting, Morila Pit 5), and 9th February 2021, 28th April 2021 and 5th May 2021 (Morila Gold Production, Ore Reserves and Production Targets).
