ASX RELEASE: 30 October 2020

Quarterly Activities Report

For the quarter ended 30 September 2020

Highlights

- **Continued improvements to the installation of the new Front Entry ("FE") supercharger system**
- **Promising results from the development of the tune for the new FE system**
- **Positive progress on the recapitalisation of the Company**

Sprintex Limited (ASX: **SIX**) ("**Sprintex**" or "**the Company**") is pleased to provide shareholders with this Quarterly Activities Report for the three (3) months ended 30 September 2020.

The Company manufactures and distributes its patented range of Sprintex® superchargers and supercharger systems. During the quarter the Company continued research and development on the installation of the supercharger assembly for production of the new FE supercharger system, and reviewed and refined production samples and modelling for the supercharger sub-components.

The Company continued to receive promising results on the tuning development with a 3rd party professional tuning provider on the Jeep JL FE supercharger system, with road testing, monitoring and further calibration expected to commence shortly. This activity is required to be completed prior to releasing the new system to market.

COVID-19

COVID-19 continued to have an impact on the group operations, with some relaxing of restriction on Movement Control Orders (**MCO**) in effect in Malaysia, Stay at Home Orders in the USA, and social distancing restrictions imposed in Australia, only to see a resurgence of the virus adding further uncertainty to the economies. Conditions created by the COVID-19 pandemic remain fluid, uncertain and constantly evolving. The Company continues adapting to a work-from-home environment, as and when required, and follows increased hygiene, health and work practice advice from relevant state and federal governments across its global operations.

The Company continues to monitor the evolving COVID-19 pandemic and the implications to its business, but did note a promising increase in sales activity towards the end of the previous quarter, which continued in this current quarter.

Although the Company continues to be a recipient of a number of Australian Government assistance packages, it remains focused on conservatively managing its cashflow through this period of uncertainty.

The Company continues to monitor announcements on stimulus measures to support its ongoing work arrangements with its employees and will implement further responses as required. The health and safety of its staff remains a key priority.

CORPORATE

Efforts to advance the previously announced recapitalisation and relisting plan for the Company continued during the quarter.

During the quarter, the following corporate activities were completed and the Company remains focused on the successful reinstatement of its securities on the ASX:

- On 17 July, the Company held its 2018 and 2019 Annual General Meetings at which all resolutions put to the shareholders were passed;
- On 28 September, the Company held a general meeting of shareholders at which all key resolutions required for the successful completion of its recapitalisation plan were passed;
- The audited accounts for the year ended 30 June 2020 were released on ASX on 29 September; and
- In addition, the Company has continued to make submissions to the ASX in respect of the reinstatement to trading of the Company's securities. The Company is in continued discussions with the ASX in respect of this matter and is working towards reinstatement in late November 2020. *(The Company reminds shareholders that the reinstatement of the Company's securities to quotation on the official list of the ASX is at the discretion of the ASX, including satisfaction of the Listing Rules. There is no guarantee that the securities of the Company will be reinstated and if so, when).*

Subsequent to quarter end, on 19 October 2020, the Company released its Prospectus.

At the end of the quarter, the Company had approximately \$3,000 in cash.

No payments were made during the quarter to related parties of the Company or an associate of a related party of the Company.

During the quarter the Company spent \$120k on research and development and \$17k on product development, predominantly on the development of the new FE system.

8.6 If Item 8.5 is less than 2 quarters, please provide answers to the following questions:

- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Yes, it is anticipated that the current level of net operating cash flows will continue for the time being.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes, SIX notes that it is currently finalising a recapitalisation of the Company which includes loan forgiveness, loan conversions to equity, 100% acquisition of joint venture company, Proreka Sprintex Sdn. Bhd., and a capital raising of \$6.5m.

The proposed recapitalisation is conditional upon the following:

- the ASX confirming the conditions that SIX needs to satisfy in order for the recommencement of quotation of the Company's shares on ASX and the Company determining that it is able to satisfy these conditions; and
- all current directors of the Company agreeing to resign from the Board upon completion of the recapitalisation, issue of new shares (in respect of the debt conversions, capital rising and acquisition of joint venture company, Proreka Sprintex Sdn. Bhd.) and relisting of the Company's securities on the ASX.

The reinstatement of SIX's securities to quotation on the official list of the ASX is at the discretion of the ASX including with respect to satisfaction of the Listing Rules. There is no guarantee that the securities of the Company will be reinstated and if so when.

- Additional interim funding of \$300,000 has been agreed with Lidx Technology Ltd in advance of the completion of the proposed recapitalisation and relisting of the Company, of which \$90,000 was received during the current quarter, as noted in 3.5 above.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The Company has reduced its spending and some working capital funding has been provided ahead of the completion of the potential recapitalisation and relisting of the Company.
