

Market Announcements Office  
ASX Limited  
20 Bridge Street  
Sydney NSW 2000

Dear Sir / Madam,

## CHANGE OF SHARE REGISTRY DETAILS

Comet Resources Limited (ASX: CRL) advises that as of Monday 16 November 2020, Comet Resources Limited has changed its provider for shareholder registry services from Advanced Share Registry Services to Automic Pty Ltd ("Automic").

Our new Share registry contact details are as follows:

Automic  
Level 5, 126 Phillip Street  
Sydney NSW 2000

GPO Box 5193  
Sydney NSW 2001

Shareholders can easily and efficiently manage their holdings via Automic's secure and highly accessible online investor portal. The portal provides, among other things, an online interface to update and manage shareholder details, view balances and transaction history.

### Shareholder registration online

Shareholders that are not already a user of Automic's investor portal may visit <https://investor.automic.com.au> and sign up to register their details using the two simple steps provided in the setup process.

Shareholders with any queries in relation to their Comet Resources Limited holding are advised to contact Automic at [hello@automicgroup.com.au](mailto:hello@automicgroup.com.au) or on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia).

### **For further information please contact: MATTHEW O'KANE**

## About Comet Resources

### Santa Teresa Gold Project (Mexico)

The Santa Teresa Gold Project is comprised of two mineral claims totalling 202 hectares located in the gold rich El Alamo district, approximately 100 km southeast of Ensenada, Baja California, Mexico; and 250 km southeast of San Diego, California, USA. The Project is prospective for high grade gold. In addition to the two claims of the Project, two additional claims totalling a further 378 hectares in the surrounding El Alamo district are being acquired from EARL.

### Barraba Copper Project (NSW)

The 2,375ha exploration license that covers the project area, EL8492, is located near the town of Barraba, approximately 550km north of Sydney. It sits along the Peel Fault line and encompasses the historic Gulf Creek and Murchison copper mines. The region is known to host volcanogenic massive sulphide (VMS) style mineralisation containing copper, zinc, lead and precious metals. Historical workings at Gulf Creek produced high-grade copper and zinc for a short period around the turn of the 19th century, and this area will form a key part of the initial exploration focus.

### Springdale Graphite Project (WA)

The 100% owned Springdale graphite project is located approximately 30 kilometres east of Hopetoun in south Western Australia. The project is situated on free hold land with good access to infrastructure, being within 150 kilometres of the port at Esperance via sealed roads.

The tenements lie within the deformed southern margin of the Yilgarn Craton and constitute part of the Albany-Fraser Orogen. Comet owns 100% of the three tenement's (E74/562 and E74/612) that make up the Springdale project, with a total land holding of approximately 198 square kilometres.
