Chairman's Letter

Dear DGO Shareholder,

Recommended off-market takeover bid for DGO

On behalf of the Gold Road Board, I am pleased to present you with this Bidder's Statement which details Gold Road's Offer to acquire all of your DGO Shares.

The Offer has been unanimously recommended by the DGO Board and each DGO Director intends to accept the Offer in respect of all DGO Shares they own and control (representing approximately 16% of DGO Shares on issue), in each case in the absence of a Superior Proposal.

The all scrip offer represents an attractive and significant implied premium for every DGO Share, implying an offer price of \$3.55 per DGO Share¹, and an equity value of approximately \$308 million (partially diluted basis)².

The Gold Road offer represents an attractive and significant implied premium for DGO shareholders at various volume weighted average share prices (VWAPs)³:

- 20% over the last trading day VWAP (prior to the Announcement Date) of \$2.91 for DGO shares, at an implied offer price of \$3.49 based on Gold Road's last trading day VWAP;
- 28% over DGO's 10 trading day VWAP of \$2.77 for DGO shares, at an implied offer price of \$3.55 based on Gold Road's 10 day VWAP; and
- 37% over the 30 day VWAP of \$2.60 for DGO shares, at an implied offer price of \$3.56 based on Gold Road's 30 day VWAP.

Under the Offer, DGO Shareholders are provided an opportunity to obtain significantly elevated liquidity on their investments given the considerably higher trading liquidity of their resulting holding of Gold Road Shares relative to that of DGO Shares on the ASX, whilst realising an attractive and significant premium to the recent trading levels of DGO Shares.

DGO Shareholders will also gain immediate leverage to the gold price via Gold Road's 50% interest in the high quality Gruyere Gold Mine (**Gruyere**), which is targeting production to a sustainable 350,000 ounces (100% basis) per annum⁴ from calendar year 2023. Gruyere's mine life is greater than 10 years and is one of Australia's largest gold mining operations. In addition, you will gain exposure to Gold Road's industry leading exploration strategy across its 100% owned Yamarna tenements. Gold Road's dividend policy⁵ offers shareholders an opportunity to benefit from future shareholder returns. Importantly, DGO Shareholders will also continue to benefit from exposure to DGO's current suite of assets after they are incorporated in the combined group.

The Offer is conditional on an 80% Minimum Acceptance Condition by DGO shareholders, no disposal of any De Grey Mining Ltd listed securities and other standard conditions. Gold Road intends to waive all remaining conditions within 6 business days after the 80% Minimum Acceptance Condition is met provided there is no subsisting breach of conditions at that time (see **section 10.12** of this Bidder's Statement for the full list of conditions). At this time the Offer will become unconditional. Full details of the Offer, including its terms, are set out in this Bidder's Statement. I encourage you to read this Bidder's Statement carefully, and in its entirety, and then accept the Offer as soon as possible.

¹ Based on the 10 day VWAP of Gold Road shares on the ASX as of 1 April 2022, being the last trading day prior to the Announcement Date. The implied value of the Offer will change with fluctuations in the Gold Road share price.

² Calculated as \$3.55 multiplied by partially diluted shareholding of 86,748,194 shares. Excludes out of the money DGO Options and DGO Performance Rights.

³ Each Gold Road VWAP as of 1 April 2022, being the last trading day prior to the Announcement Date.

⁴ See Gold Road ASX announcements from 17 February 2022 entitled "2021 Annual Mineral Resource and Ore Reserve Statements", 31 January 2022 entitled "Yamarna Mineral Resource Grows and Exploration Update", and 15 February 2021 entitled "Gruyere 3-year Outlook, 2021 Guidance & Growth Strategy" available at goldroad.com.au. Gold Road confirms that all material assumptions underpinning the production target in the initial announcement continue to apply and have not materially changed.

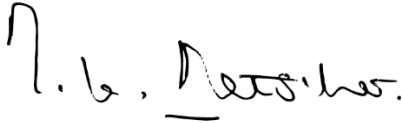

⁵ See Gold Road ASX announcement dated 16 September 2020.

The Offer is open for your acceptance until 7.00pm Sydney time on Monday, 9 May 2022, unless extended. To accept the Offer, please follow the instructions in this Bidder's Statement and the enclosed Acceptance Form.

If you have any questions about the Offer, please contact the Offer Information Line on 1300 620 417 (toll free) (within Australia) or +61 3 9415 4653 (outside of Australia), Monday to Friday between 8.30am and 5.00pm (Sydney time).

The Gold Road team strongly encourages you to carefully read this Bidder's Statement and then to contact your chosen broker to **ACCEPT** this offer.

We look forward to welcoming you as a Gold Road Shareholder.

REASONS WHY YOU SHOULD ACCEPT THE OFFER

The Offer provides significant benefits to you as a DGO Shareholder. The key reasons why you should accept the Offer are as follows:

1	The Offer is unanimously recommended by DGO Directors
2	The Offer represents an attractive and significant premium for your DGO Shares
3	Opportunity to realise full value of your DGO portfolio
4	De-risks your investment via exposure to an established high quality gold producer
5	Opportunity for you to realise significant liquidity on your investment
6	Avoid future funding and associated dilution risk
7	You may be eligible for CGT roll-over relief
8	You may not incur brokerage or stamp duty in accepting the Offer
9	The DGO Share price may fall after the Offer lapses

1. Unanimous recommendation from the DGO Directors

The DGO Directors have announced that they will unanimously recommend that DGO Shareholders accept the Offer, in the absence of a Superior Proposal.

Each DGO Director has also confirmed that he or she intends to accept the Offer in respect of all DGO Shares they own and control on the day that is 21 days after the date of the Offer, again in the absence of a Superior Proposal. Collectively, the DGO Directors own or control approximately ~13.6 million DGO Shares representing approximately ~16%⁶ of all DGO Shares as at the Last Practicable Date prior to the date of this Bidder's Statement. This intention extends to any new DGO Shares issued upon exercise of DGO Convertible Securities owned or controlled by the DGO Directors (which they intend to accept the separate offers being made for those DGO Convertible Securities or immediately exercise and accept the Offer should those DGO Convertible Securities vest in accordance with their terms).

If you accept the Offer made to you and the Offer becomes or is declared unconditional, you will receive 2.16 Gold Road Shares for each of your DGO Shares.

As at the date of this Bidder's Statement, Gold Road is not aware of any Superior Proposal having been received by DGO and DGO has not made Gold Road aware of any party having an intention to make such a proposal.

2. The Offer represents an attractive and significant premium for your DGO Shares

The all scrip offer represents an attractive and significant implied premium for every DGO share, implying an offer price of \$3.55⁷, and an equity value of approximately \$308 million (partially diluted basis)⁸.

The Gold Road offer represents an attractive and significant implied premium for DGO shareholders at various volume weighted average share prices (VWAPs)⁹:

- 20% over the last trading day VWAP (prior to the Announcement Date) of \$2.91 for DGO shares, at an implied offer price of \$3.49 based on Gold Road's last trading day VWAP;
- 28% over DGO's 10 trading day VWAP of \$2.77 for DGO shares, at an implied offer price of \$3.55 based on Gold Road's 10 day VWAP; and
- 37% over the 30 day VWAP of \$2.60 for DGO shares, at an implied offer price of \$3.56 based on Gold Road's 30 day VWAP.

Under the Offer, DGO Shareholders will receive 2.16 Gold Road Shares for each of your DGO Shares held.

Figure 1 and Figure 2 below show the implied value of Gold Road's Offer for your DGO Shares relative to the various historical trading prices and benchmarks of DGO Shares on the ASX up to (and including where relevant) 1 April 2022 (being the last day of ASX trading prior to the announcement of Gold Road's Offer).

⁶ Based on current DGO Shares on issue of 83,477,112 and excludes any new DGO Shares to be issued upon any exercise/vesting of DGO Convertible Securities.

⁷ Based on the 10 day VWAP of Gold Road shares on the ASX as of 1 April 2022, being the last trading day prior to the Announcement Date. The implied value of the Offer will change with fluctuations in the Gold Road share price.

⁸ Calculated as \$3.55 multiplied by partially diluted shareholding of 86,748,194 shares. Excludes out of the money DGO Options and DGO Performance Rights.

⁹ Each Gold Road VWAP as of 1 April 2022 being the last trading day prior to the Announcement Date.

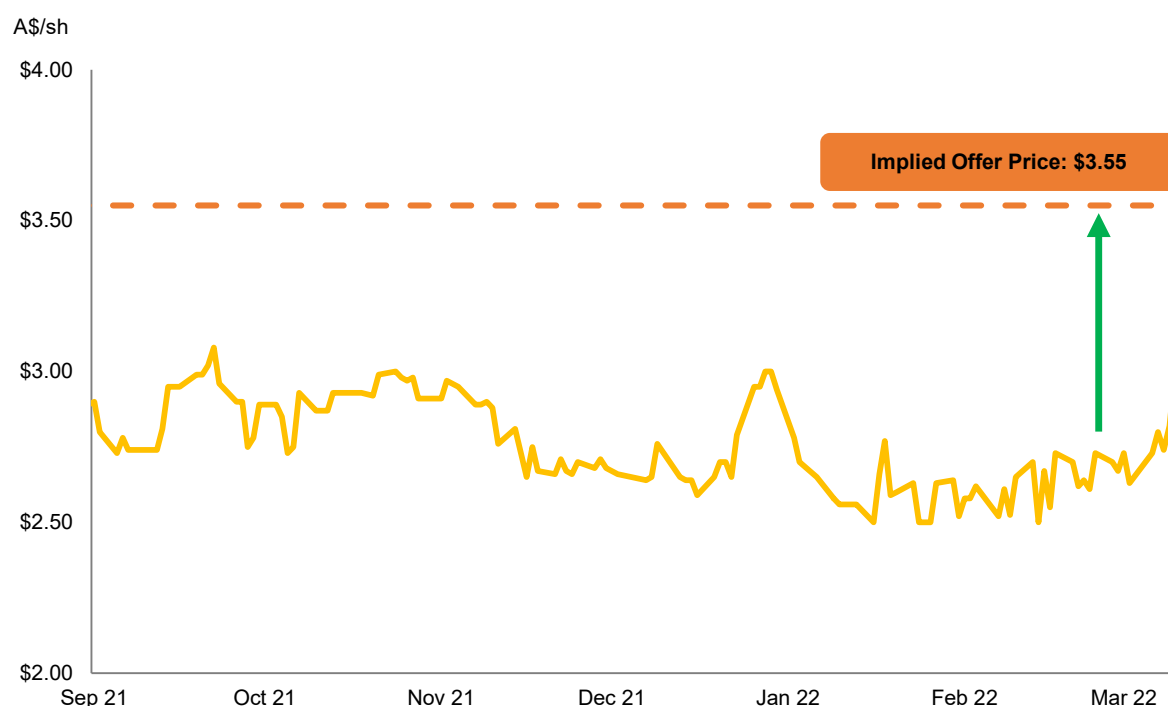

Figure 1 - Premium under implied value of Gold Road's Offer relative to DGO's historical trading price up to 1 April 2022, being the last trading day prior to the Announcement Date (Source: Bloomberg)

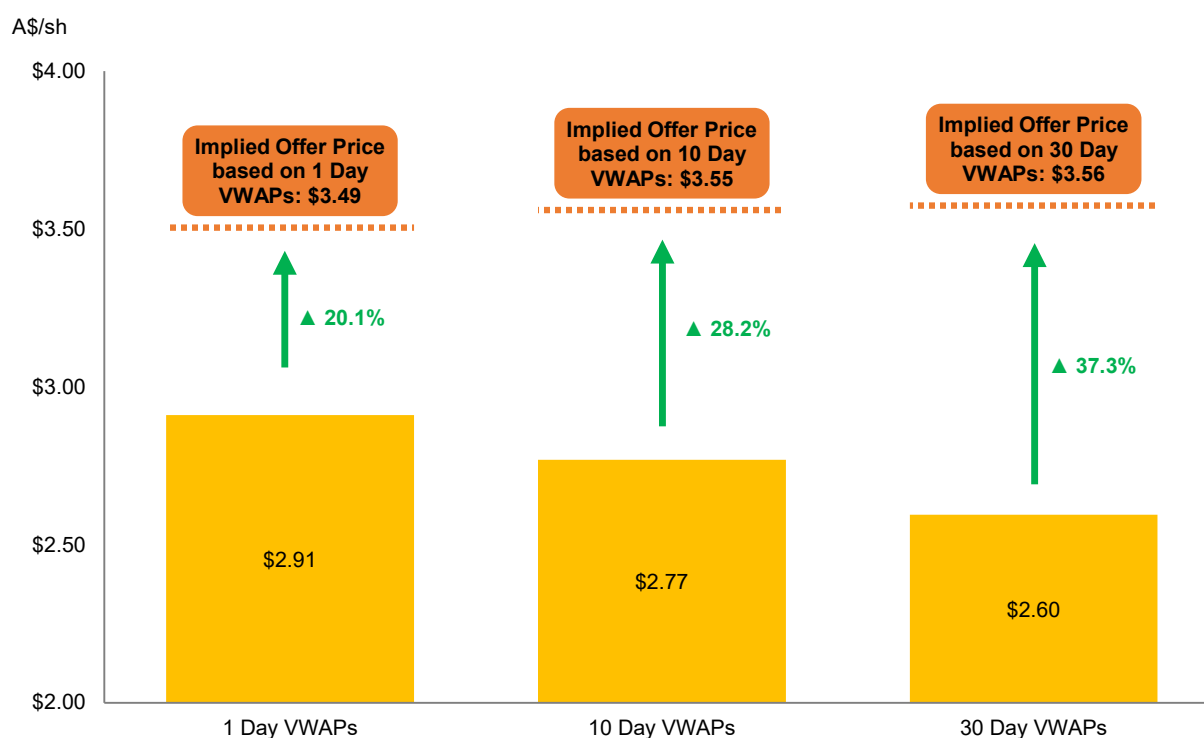

Figure 2 - Premium under implied value of Gold Road's Offer relative to DGO's historical trading benchmarks up to 1 April 2022, being the last trading day prior to the Announcement Date (Source: Bloomberg)

3. Opportunity to realise full value of your DGO portfolio

DGO's share price has historically traded at a discount to the underlying market valuation of the individual listed investments that make up a significant portion of DGO's portfolio of investments and exploration assets over the majority of the last six month period. Additionally, if DGO were to seek to monetise its portfolio holdings outside of Gold Road's Offer, this would likely have tax implications. This transaction offers DGO shareholders the opportunity to achieve fuller value for the portfolio, as well as complimenting it through exposure to the high quality Gruyere operation and Yamarna exploration tenure.

4. Maintain exposure to DGO's portfolio through a shareholding in a high quality ASX200 gold producer with Tier 1 production and exploration assets

Gold Road is an established ASX200 listed mid-tier Australian gold producer with a Tier 1 mine¹⁰ and exploration projects in the underexplored and highly prospective Yamarna Greenstone Belt in Western Australia's north-eastern Goldfields.

By becoming a Gold Road Shareholder, you will de-risk but maintain exposure to DGO's portfolio of assets through a shareholding in a high quality ASX200 gold producer as you gain immediate leverage to the gold price via Gold Road's 50% interest in the Gruyere Gold Mine (**Gruyere**). Gruyere was developed in joint venture with Gold Fields Ltd and produced first gold in June 2019. Gruyere is targeting production to a sustainable 350,000 ounces (100% basis) per annum from calendar year 2023.¹¹ Gruyere's mine life is greater than 10 years and is one of Australia's largest gold mining operations.

In addition to Gold Road's 50% interest in Gruyere, Gold Road controls 100% of tenements covering ~3,250 km² across the Yamarna Greenstone Belt with a Mineral Resource of 0.51 million ounces. Gold Road is executing an industry leading exploration strategy to discover the next multi-million-ounce gold deposits at Yamarna.

In 2021, Gold Road had attributable gold production of 123,265 ounces at a competitive All-in Sustaining Cost (**AISC**) of \$1,558 per ounce. In 2022, Gold Road expects attributable production from its 50% interest in Gruyere of between 150,000 to 170,000 ounces at an AISC of \$1,270 to \$1,470 per ounce.¹²

Gold Road benefits from strong cash flow generation at Gruyere and a strong balance sheet position (debt free with cash and equivalents of \$139.9 million as at 31 March 2022),¹³ placing it in a strong position to fund future exploration and potential development. Gold Road's dividend policy¹⁴ further offers shareholders an opportunity to benefit from future shareholder returns.

5. Opportunity for you to realise significant liquidity on your investment

Gold Road is an ASX200 listed company with a market capitalisation of approximately \$1.4 billion as at the Last Practicable Date prior to the date of this Bidder's Statement. Furthermore, Gold Road Shares have considerably higher trading liquidity relative to that of DGO Shares on the ASX (see Figure 3 below).

The Offer provides an opportunity for DGO Shareholders to obtain significantly elevated liquidity on their investments (and thus may more readily monetise their resulting holding of Gold Road Shares if desired) whilst realising a significant premium to the recent trading price of DGO Shares. In the six month period ending 1 April 2022 (being the last day of ASX trading prior to the announcement of Gold Road's Offer), the average daily turnover of Gold Road Shares was approximately \$7 million per day compared to the average daily turnover of DGO Shares of approximately \$71,000 per day.

¹⁰ Gold Road defines a Tier 1 mine as an operation that produces ~300,000 ounces per annum with a large mineral resource and ore reserve base. There is no commonly agreed definition of a Tier 1 mine in the gold industry.

¹¹ See Footnote 4 above for production target disclosure.

¹² See Gold Road ASX announcement dated 31 January 2022.

¹³ See Gold Road ASX announcement dated 7 April 2022.

¹⁴ See Gold Road ASX announcement dated 16 September 2020.

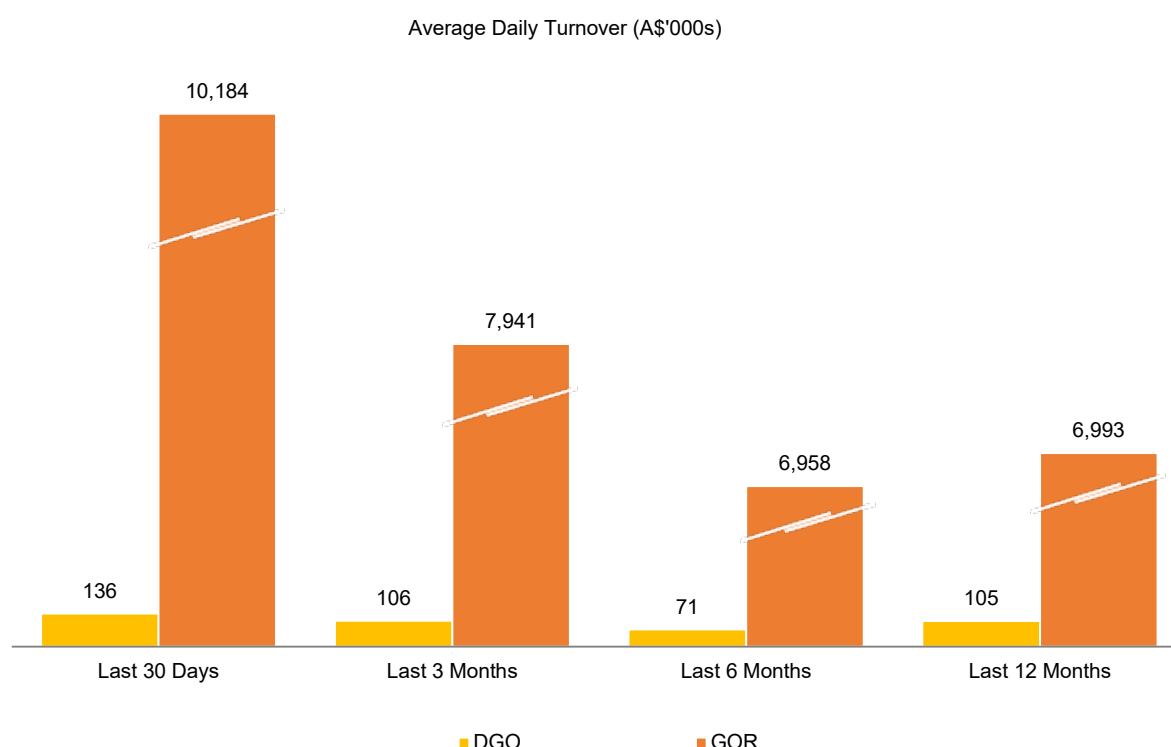

Figure 3 – Daily traded volumes of Gold Road and DGO Shares on the ASX for the twelve month period ending 1 April 2022, being the last trading day prior to the Announcement Date (Source: Bloomberg)

6. Avoid future funding and associated dilution risk

DGO currently has a latest disclosed net debt position of \$6.4 million¹⁵. Future funding would likely require raising further debt, future equity dilution and / or selling all or part of DGO's strategic listed investments.

Gold Road is well positioned with \$139.9 million in cash and no drawn debt¹⁶ to provide capacity for substantial future funding requirements without the need to dilute shareholder's equity or any forced sale of any strategic listed investments.

7. You may be eligible for CGT roll-over relief

DGO shareholders may benefit from CGT scrip for scrip roll-over relief if Gold Road is able to acquire at least 80% of all DGO Shares.

Information in relation to CGT roll-over relief and general Australian taxation implications of accepting the Offer are set out in **section 7**. The Australian tax guide does not take account of your individual circumstances and does not constitute tax advice. You should consult your own independent professional tax advisor for tax advice, taking into account your individual circumstances. To maximise the potential for CGT roll-over relief to be available, the Offer is subject to an 80% Minimum Acceptance Condition. Gold Road may only declare the Offer to be free of the 80% Minimum Acceptance Condition if there is a Superior Proposal or in the event the Bid Implementation Agreement is terminated for any reason.

¹⁵ Refer to DGO's and Gold Road's joint ASX announcement dated 4 April 2022. The drawdown on the debt facility with Bell Potter is \$6.5 million as at 31 March 2022.

¹⁶ Refer to Gold Road ASX announcement dated 7 April 2022.

8. You may not incur brokerage or stamp duty in accepting the Offer

If you accept the Offer and your DGO Shares are registered in an Issuer Sponsored Holding in your name, you will not incur brokerage on the transfer of your DGO Shares to Gold Road pursuant to the Offer.

If you accept the Offer and your DGO Shares are registered in a CHESS Holding, or if you are a beneficial owner whose DGO Shares are registered in the name of a Broker, bank, custodian, or other nominee, you should ask your Controlling Participant (usually your Broker) or that nominee whether it will charge any transactional fees or service charges in connection with acceptance of the Offer.

If you sell your DGO Shares on the ASX, rather than disposing of them via the Offer, you may incur brokerage charges (and, potentially, GST on those charges).

You will not be required to pay any stamp duty on the disposal of your DGO Shares under the Offer or on the acquisition of Gold Road Shares under the Offer.

9. The DGO Share price may fall after the Offer lapses

Since the Announcement Date, DGO Shares have traded at a level that reflects the implied value of the Offer.

If the Offer is not successful and an alternative third party proposal does not emerge, the DGO Share price may decline and may trade below the implied value of the Offer. As a result, DGO Shareholders who have not accepted the Offer before it lapses may not have another opportunity to sell their DGO Shares for the implied value of \$3.55¹⁷ per DGO Share as at 1 April 2022 (being the last day of ASX trading prior to the announcement of Gold Road's Offer).

¹⁷ Based on the 10 day VWAP of Gold Road shares on the ASX as of 1 April 2022. The implied value of the Offer will change with fluctuations in the Gold Road share price.

For the year ended 31 December 2021, Gold Road reported attributable gold production of 123,265 ounces at an All-In Sustaining Cost (**AISC**) of \$1,558 per ounce.¹⁹

For the full year ended 31 December 2020, as reported in its 2020 Annual Report (which was prepared in accordance with Australian Accounting Standards), Gold Road reported full year consolidated revenue of \$294.7 million and consolidated net profit after tax of \$80.8 million. For the year ended 31 December 2020, Gold Road reported attributable gold production of 129,087 ounces at an AISC of \$1,273 per ounce.²⁰

1.2. Gold Road's principal activities and operations

Gold Road is an Australian gold producer with a 50% interest in Gruyere, and with exploration projects in the underexplored Yamarna Greenstone Belt, in Western Australia's north-eastern Goldfields.

Gold Road discovered the Gruyere Deposit in 2013 as part of its exploration across Yamarna. In 2016, Gold Road entered into a joint venture with a wholly owned Subsidiary of Gold Fields Ltd (JSE:GFI) to develop Gruyere. Gruyere produced first gold in June 2019 and from first gold to 31 December 2021, Gruyere has produced 603,832 ounces (100% basis) with Gold Road's attributable production achieved at an AISC of \$1,373 per ounce from the attainment of commercial production²¹.

Gold Road's guidance for 2022 sees Gruyere production of 300,000 to 340,000 ounces (100% basis) at an attributable AISC of between \$1,270 to \$1,470 per ounce.²² Beyond this, the Gruyere joint venturers are targeting significant operational growth to sustain 350,000 ounces (100% basis) per annum from calendar year 2023²³. As at 31 December 2021, Gold Road has attributable Mineral Resources of 4.7 million ounces and an attributable Ore Reserve of 2.2 million ounces.²⁴

In addition to its 50% interest in Gruyere, Gold Road controls 100% of tenements covering ~3,250 km² across Yamarna with a Mineral Resource of 0.51 million ounces²⁵ (included in the above attributable Mineral Resources figure). Gold Road is executing an exploration strategy with the aim of discovering the next multi-million-ounce gold deposits at Yamarna.

Additional information on Gold Road may be found on Gold Road's website goldroad.com.au.

1.3. Gruyere Joint Venture

The Gruyere mine was developed as a joint venture between Gold Road and Gruyere Mining Company Pty Ltd, a member of the Gold Fields Ltd group (JSE:GFI) and the manager of the operation. Gold Road maintains a strong oversight of the Gruyere operation through the JV Management Committee and JV Technical Committee. Both joint venture partners have equal representation on the committees, sharing the Chair role which rotates annually between Gold Road and Gold Fields Ltd.

Gruyere is an operating open pit mine in Western Australia. Ore is currently sourced from one open pit, the Gruyere Open Pit. Future ore sources will include satellite open pits from the Golden Highway Ore Reserves located approximately 25 km to the west of Gruyere. Current mining activities are being performed via conventional truck and excavator operations by an experienced open pit mining contractor.

Gruyere's mineral processing facility consists of a primary gyratory crusher, ore stockpiling, a Semi-Autogenous Grinding (SAG) mill, ball mill and pebble crusher milling circuit, pre-leach thickening, standard carbon-in-leach (CIL) circuit, elution, and gravity recovery circuit. Circuit optimisation, mine to mill enhancements and technical studies have enabled debottlenecking learnings to assist with increased throughput rates. The process plant was designed to treat 7.5 Mtpa, however, subsequent work shows this can be increased to approximately 10 Mtpa.²⁶

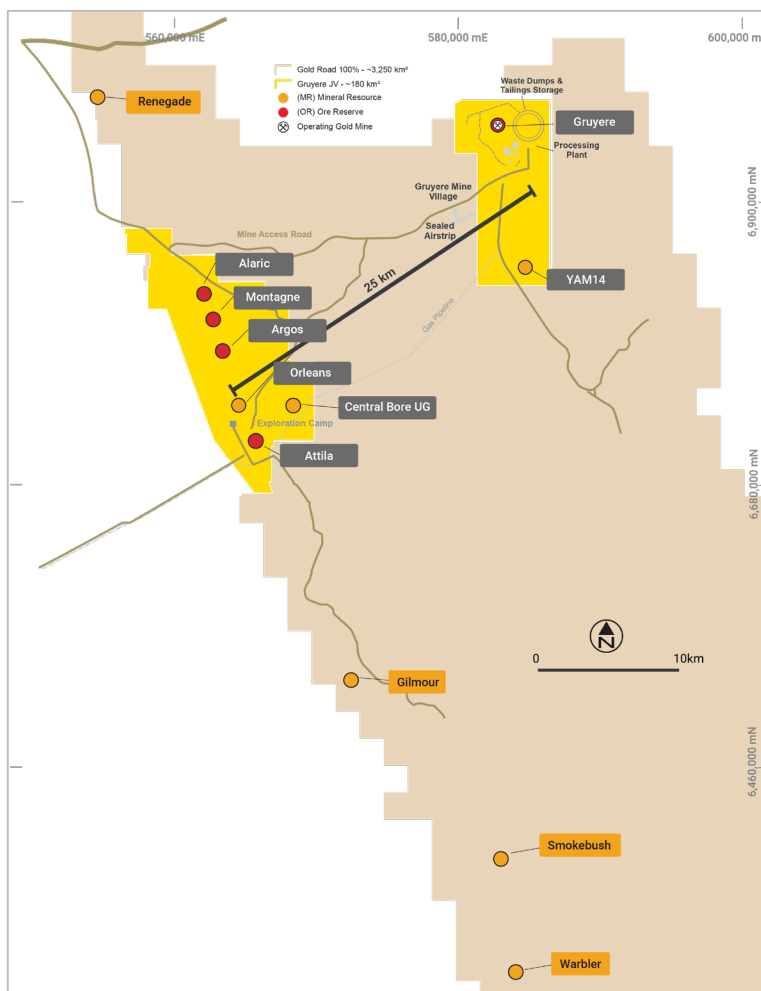

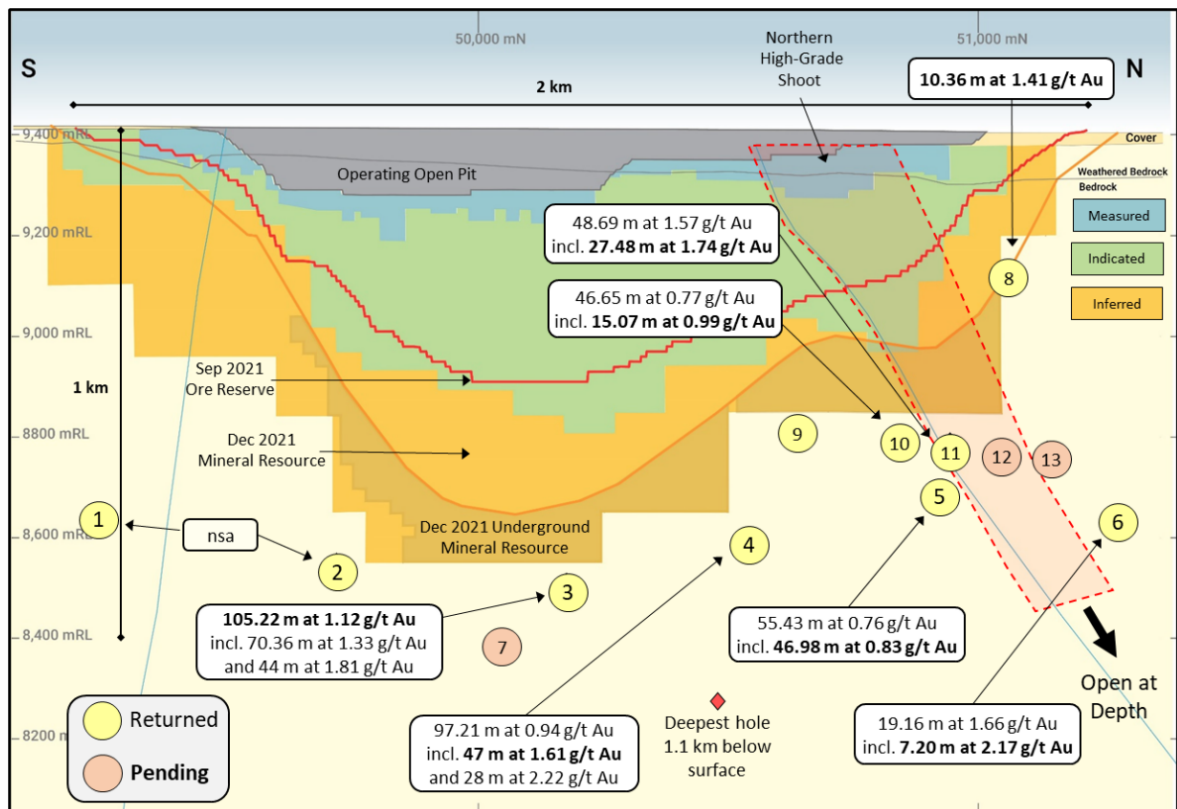

Figure 4 – Gruyere (50%) and Yamama (100%) Mineral Resource and Ore Reserve location map²⁷

Opportunity exists to extend mine life beyond the current Ore Reserve through the conversion of existing open pit and underground resources beneath the current Ore Reserve.²⁷

²⁶ See Gold Road ASX announcements dated 15 February 2021 and 27 October 2021.

²⁷ See Gold Road ASX announcement dated 17 February 2022.

1.4. Yamarna Exploration Project

Gold Road holds 100% ownership of tenements across almost 100% of the underexplored Yamarna Greenstone Belt that surrounds the Gruyere joint venture tenements. Gold Road holds a ~3,250 km² strategic land position on the Yamarna belt, which due to the remoteness and its masking veneer of sand cover remains underexplored. Yamarna offers a unique opportunity, combining:

- an underexplored greenstone belt geologically equivalent to the highly endowed Eastern Goldfields provinces of the Archean Yilgarn;
- being in the favourable mining jurisdiction of Western Australia;
- a low population density;
- a supportive local community; and
- relatively mild climatic conditions.

Gold Road's exploration strategy is directed at delivering economic value-adding gold deposits that can be developed as standalone mining operations, creating shareholder value through organic growth.

²⁸ See Gold Road ASX announcements dated 17 February 2022 and 31 January 2022.

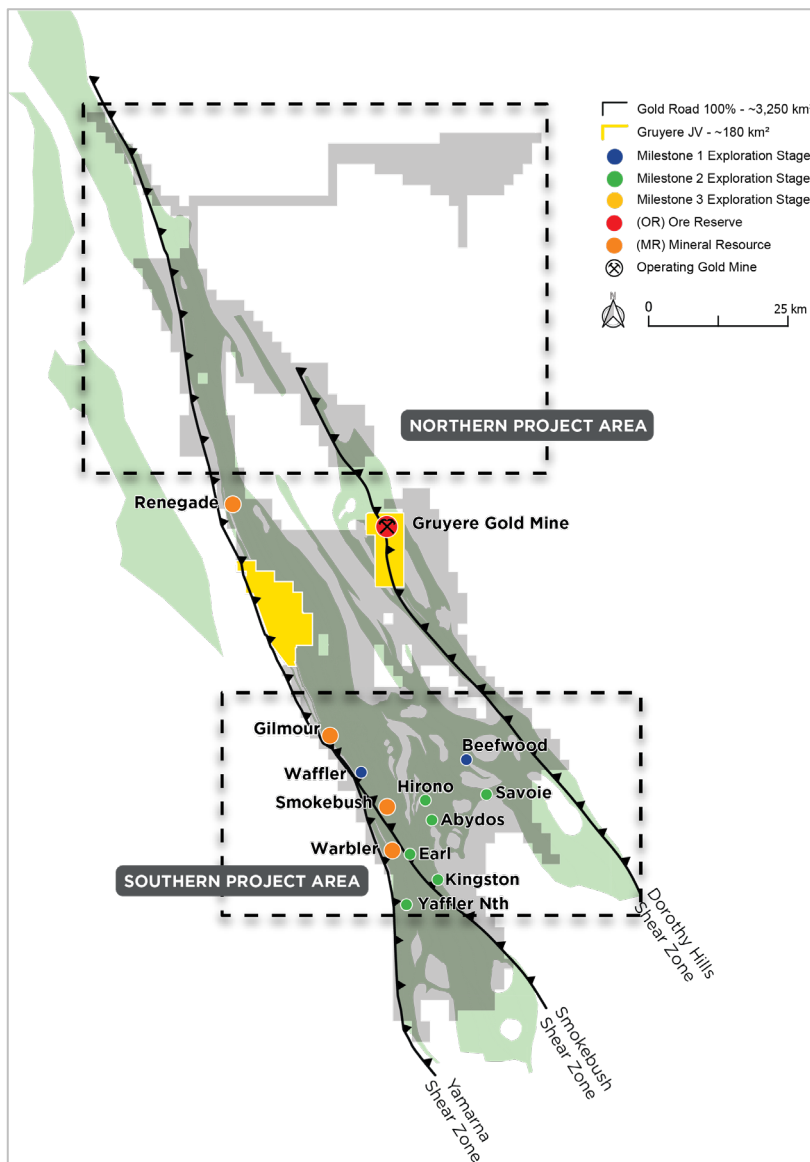

Figure 6 – Yamarna tenement plan showing location of Yamarna Mineral Resources and priority prospects as of January 2022²⁹

In 2021, exploration was primarily directed towards aircore and reverse circulation (RC) drill testing of promising new targets. High aircore drill productivity across the Southern Project Area successfully delineated several multi-kilometre gold-in-regolith anomalies and associated fertile structural fluid pathways. Advanced RC and diamond follow up drill testing of these results commenced during the December 2021 quarter.³⁰

The 2022 Yamarna exploration program focuses on priority targets within the Southern Project Area, an area exhibiting the key geological elements required for hosting major gold deposits, such as fertile regional structures, prospective host rocks and local structural complexity.

1.5. Other

Gold Road holds a 1.5% Net Smelter Royalty on Gold Fields Ltd's 50% share of production from the Gruyere joint venture after 2 million ounces (100% basis) is produced at Gruyere. As at 31 December 2021, 603,832 ounces had been produced at Gruyere (100% basis).³¹

Gold Road has a number of exploration leases under application in northeast Queensland.³¹ The applications are an early stage exploration project in an area that remains largely underexplored.

Gold Road Shares are quoted on the ASX under the code 'GOR'.

An application will be made within seven days of the date of this Bidder's Statement to the ASX for Official Quotation of the Gold Road Shares issued, or which will be issued, under the Offer. Quotation is not guaranteed or automatic on such an application to the ASX. Nothing in this Bidder's Statement will be taken to state or imply that the Gold Road Shares issued under this Offer will be quoted on the ASX, but quotation is expected in the ordinary course as Gold Road is already admitted to the Official List of the ASX.

³⁸ Voting power based on 882,534,175 Gold Road Shares on issue.

The rights and liabilities attaching to the Gold Road Shares that will be issued as the consideration under the Offer are set out in Gold Road's Constitution and are subject to the Corporations Act and the Listing Rules. Gold Road is proposing to amend its Constitution by a special resolution of its shareholders which will be notified to shareholders in a Notice of Meeting. If passed, the rights and liabilities attaching to the Gold Road Shares will be set out in the amended Constitution.

The main rights and liabilities attaching to the Gold Road Shares are summarised below. This summary does not purport to be exhaustive and must be read subject to the full text of Gold Road's Constitution, available on Gold Road's website at <https://goldroad.com.au/corporate-governance/>.

(b) Meetings of shareholders and voting rights

At a meeting of Gold Road Shareholders, each holder is entitled to attend and vote in person, by proxy, by attorney or by representative. Subject to the terms on which shares (or any class of shares) are issued, each Gold Road Shareholder has one vote on a show of hands and one vote per Gold Road Share on a poll for each share held. A quorum is two or more members present in person or by proxy at the meeting and entitled to vote on a resolution at the meeting.

Except where a resolution requires a special majority, questions arising at a general meeting must be decided by a majority of votes cast by the members present at the meeting. If the votes are equal on a proposed resolution, the chairperson of the meeting has a casting vote, in addition to any member vote.

A poll may be demanded by the Chairperson of the meeting, any 5 shareholders entitled to vote present in person or by proxy, attorney or representative or by any one or more shareholders holding not less than 5% of the total voting rights of all shareholders having the right to vote.

(c) Directors

The minimum number of Gold Road Directors is 3 and the maximum is 10. A director may be appointed by resolution at a general meeting. The Gold Road Directors may appoint a new director to fill a casual vacancy or as an addition to the Gold Road Board. If the Directors appoint a Director, Gold Road must confirm the appointment at the next annual general meeting. No Director, other than the Managing Director, may hold office for longer than 3 years without re-election.

(d) Dividends

Gold Road's Directors may determine or declare that a dividend is payable. To the extent permitted by law, the Directors may resolve to pay a dividend out of any available account, including the capital of Gold Road. Subject to the terms on which shares (or any class of shares) are issued, all dividends will be payable equally on all shares, except that a partly paid share will only be entitled to that proportion of the dividend that the amount actually paid on that share bears to the total amounts paid and payable on the share.

(e) Officers' Indemnities and Insurance

Under Gold Road's Constitution, to the extent permitted by law, Gold Road indemnifies every person who is or has been a director, secretary or officer of Gold Road or a Subsidiary of Gold Road against a liability incurred by that director, secretary or officer arising out of the conduct of any activity of Gold Road or relevant Subsidiary or the proper performance of any duty of that director, secretary or officer. Gold Road may also pay the premiums on directors and officers liability insurance in accordance with Corporations Act.

(f) Winding up

If Gold Road is wound up, a liquidator may (with the sanction of a special resolution) divide the whole or any part of Gold Road's property among members or classes of members as the liquidator decides.

(g) Transfer of shares

Gold Road Shares are generally freely transferable. The Gold Road Directors may refuse to register a transfer of Gold Road Shares or request Computershare (being Gold Road's share registry) to apply a holding lock to prevent a proper transfer, in the circumstances identified in the Gold Road Constitution or as otherwise permitted or required under the Corporations Act or Listing Rules.

(h) Issue of further shares

Gold Road Directors may, subject to any restrictions imposed by the Constitution, the Listing Rules and the Corporations Act, allot and issue further Shares with or without preferential rights on such terms and conditions as the Directors determine.

(i) Unmarketable parcels

Subject to the Listing Rules, Gold Road may sell the Shares of a member who holds less than a Marketable Parcel of Gold Road Shares.

(j) Alteration to Constitution

The Constitution can only be amended by special resolution passed at a general meeting of Gold Road. Gold Road must give at least 28 days' notice of its intention to propose a resolution as a special resolution.

As noted above, Gold Road is proposing to amend its Constitution by a special resolution of its shareholders at its forthcoming annual general meeting to modernise its constitution, including to provide greater flexibility and clarity around how Gold Road may conduct hybrid meetings in the future, particularly if the Corporations Act is permanently amended to be more facilitative of such meetings. More specifically, the proposed amendments to the Constitution will confirm the ability of Gold Road to hold meetings using or with the assistance of any technology approved by the directors or in any manner permitted by law (subject to it being a hybrid meeting). The proposed amendments do not permit wholly "virtual" online meetings. Consequential amendments are also proposed to provide clarity around procedural matters, including to ensure that 'online' attendees are treated as being present at the meeting and are counted for a quorum, and to confirm that the Directors may prescribe the detailed procedures by which meetings held with technological assistance may be conducted.

Following the completion of the Offer, the Combined Group will have:

- a pro-forma market capitalisation of \$1.7 billion⁵³, making it a significant ASX200 mid-tier gold producer and explorer;
- a strong balance sheet of ~\$131 million in cash and short term debt of \$6.5 million⁵⁴;

- an experienced and highly qualified management and exploration team with a proven track record of advancing exploration projects to production, based in Western Australia, with the skills, infrastructure, and balance sheet to advance this portfolio efficiently and effectively; and

- The indicative fair value of financial assets, which are comprised of listed company investments, has been determined based on the relevant closing share price as at 5 April 2022. The fair value of all other acquired assets and liabilities has been estimated based on their book values.
- The pro-forma adjustments include recognising a payable for an estimate of transaction costs of both Gold Road and DGO.
- The pro-forma adjustments include the recognition of the following events subsequent to 31 December 2021:
 - Gold Road dividends announced and paid.
 - The further draw down of DGO's debt facility.
- The excess of the estimated fair value of the identifiable net assets acquired (\$294.8 million) over the fair value of the consideration (\$286.9 million for 100%) has been allocated to the asset revaluation reserve on the basis that the majority of the value of the assets are investments carried at fair value and that changes in those fair values will be recognised in other comprehensive income.
- A pro-forma balance sheet has also been presented as if Gold Road acquires 80% of the shares in DGO, rather than 100%.

(d) Material changes in the Combined Group's financial position since the most recent balance dates

Other than as disclosed to the market by Gold Road and DGO (in accordance with their reporting and disclosure obligations) since the date of the release of their respective 2021 Annual Report and 2022 Half Yearly Report (including the transaction announcement on the Announcement Date), or as disclosed in this Bidder's Statement, there are no material changes in the Combined Group's financial position since the most recent balance date.

5.7 Forecast financial outlook for the Combined Group

Gold Road has given consideration as to whether a reasonable basis exists to produce reliable and meaningful forward looking financial information in relation to the Combined Group (including revenue, earnings or profit forecasts). Gold Road has concluded that it would be difficult to do so at this stage, particularly given the focus on the post completion reviews referenced in **section 6** of this Bidder's Statement will focus on these matters. Until such time, Gold Road does not believe it is appropriate to provide any such combined forward looking financial projections.

5.8 Dividends

Gold Road intends to continue using its current dividend policy in relation to the Combined Group.

5.9 Effect of the Offer on Combined Group's Mineral Resources and Ore Resources

DGO does not currently have any direct interest in any Mineral Resources or Ore Reserves. Accordingly, the Combined Group's Mineral Resources and Ore Reserves will be identical to Gold Road's Mineral Resources and Ore Reserves, which are set out in section 1.6 of this Bidder's Statement.

6 Intentions of Gold Road

6.1 Approach and intentions of Gold Road

This **section 6** sets out the intentions of Gold Road on the basis of facts and public information concerning DGO which are known to Gold Road as at the Last Practicable Date before the date of this Bidder's Statement, in relation to the following:

- the continued operation of DGO;
- any major changes to be made to the operation of DGO, including any redeployment of the fixed assets of DGO;
- the future employment of DGO employees; and
- the compulsory acquisition of DGO Shares and the removal of DGO from the official list on the ASX.

While Gold Road has conducted limited due diligence on DGO. Gold Road does not have detailed knowledge of all material information necessary to reach final decisions as to its intentions. Gold Road will only reach final decisions in light of material facts and circumstances at the relevant time and following completion of the review of DGO's operations referred to below.

Accordingly, the statements set out in this **section 6** are statements of current intentions only and may vary as new information becomes available or circumstances change.

6.2 Intentions upon acquiring 90% or more of DGO Shares

This **section 6.2** describes Gold Road's intentions if at the end of the Offer Period, Gold Road:

- receives valid acceptances of at least 75% (by number) of the DGO Shares not held by Gold Road (and its Associates); and
- acquires a relevant interest in at least 90% (by number) of the DGO Shares then on issue.

(a) Compulsory acquisition of DGO Shares and removal from official list

If Gold Road and its Associates collectively have Relevant Interests in at least 90% of DGO Shares during, or at the end of the Offer Period, Gold Road will give a notice pursuant to Part 6A.1 of the Corporations Act to compulsorily acquire all outstanding DGO Shares, even if DGO Shares to which those notices relate are issued:

- after the Offer closes but before notices are given (pursuant to section 661A(4)(b) of the Corporations Act); or
- on exercise of DGO Options, up to 6 weeks after the notices are given (pursuant to section 661A(4)(c) of the Corporations Act).

If not all of the DGO Options are exercised or acquired by Gold Road and Gold Road is entitled to compulsorily acquire any outstanding DGO Shares, Gold Road intends to compulsorily acquire any outstanding DGO Options pursuant to Part 6A.2 of the Corporations Act, although it reserves the right not to do so.

DGO Shareholders should consult their legal advisors for a determination of their legal rights with respect to any compulsory acquisition.

The income tax consequences to a DGO Shareholder of a compulsory acquisition may differ from the income tax consequences to such DGO Shareholder accepting the Offer. See **section 7** for further information on taxation considerations for DGO Shareholders who dispose their DGO Shares under the Offer.

(b) DGO Board

Gold Road intends to replace all members of the DGO Board with its own nominees. The identity of such nominee directors has not yet been finally determined, but it is expected they will be predominantly drawn from the current directors and management of Gold Road.

(c) General operational review

After the Offer Period, Gold Road intends to undertake a general review of DGO's operations covering strategic, financial and operating matters, with an objective of realising maximum value of DGO's portfolio (as described in **section 5.2**). In doing so, Gold Road will keep all options open for value maximisation.

As part of its review, Gold Road intends to further assess DGO's portfolio of brownfield investments and greenfield discovery opportunities, including a detailed review of DGO's geological database. The conclusions and outcomes of the review, as well as any new results from exploration, will inform Gold Road's preferred strategic approach to these opportunities.

(d) Operations and assets

DGO's portfolio of brownfield investments and greenfield discovery opportunities will be fully integrated into Gold Road's assets portfolio. Gold Road will leverage its technical and operational expertise in the gold mining and exploration industry and, subject to the outcomes of its strategic review, intends to provide capital to conduct further exploration activities.

Subject to property leasing commitments, Gold Road intends to close DGO's Melbourne and Perth offices.

(e) Impact on DGO's executives and employees

Following completion of the Offer, and as part of the general strategic and operational review described above, Gold Road intends to evaluate the future operation and management requirements of DGO and, over time, relocate all corporate, administrative and exploration functions to Gold Road's Perth office. As part of this review, Gold Road will seek to retain suitable DGO employees to meet Gold Road's organisational requirements.

(f) Financial and tax

Gold Road would seek to repay the Bell Potter Finance Facility from its existing cash position and provide working capital to the DGO Group to enable the ongoing efficient operation of DGO's business.

On obtaining a 100% Relevant Interest, Gold Road would include the DGO Group into its income and GST consolidated tax groups.

6.3 Intentions upon acquiring 50.1% or more of DGO Shares

This **section 6.3** describes Gold Road's intentions if it were to acquire a Relevant Interest in at least 50.1% but less than 90% of DGO Shares on issue. (Note that Gold Road may only declare the Offer to be free of an 80% Minimum Acceptance Condition if there is a Superior Proposal or in the event the Bid Implementation Agreement is terminated for any reason, as described in **section 9.1(j)**).

The ability of Gold Road to implement the intentions set out in this **section 6.3** will be subject to the legal obligations of the DGO Directors (including any nominees of Gold Road) to have regard to the interests of DGO and all DGO Shareholders, the requirements of the Corporations Act and (provided DGO remains listed) the Listing Rules relating to transactions between related parties. These shareholder protections may limit or modify the implementation of the intentions outlined below. As a result of those requirements, the approval of minority DGO Shareholders may be required for the implementation of some of the intentions outlined below.

The ability of Gold Road to implement any of the intentions set out in this **section 6.3** will be subject to, among other things:

- the legal obligations of the DGO Directors to have regard to the interests of DGO and DGO Shareholders;
- the requirements of the Corporations Act relating to transactions between related parties; and
- potentially the Listing Rules relating to transactions between related parties.

It should be noted that Gold Road expects that each of its nominees to the DGO Board will exercise their own independent judgement and skill when it comes to the operational, financial and business decisions relating to DGO. Gold Road's only influence will be through its position as a majority shareholder in DGO.

Subject to the limitations noted above, Gold Road's intentions for DGO as a part owned controlled entity are as follows:

(a) Directors

Subject to the Corporations Act and DGO's constitution, Gold Road intends to seek to replace some of the members of the DGO Board so that Gold Road nominees constitute at least a majority of the members of the DGO Board. No decision has been made at this stage about the identity of the proposed nominees to the DGO Board or which current DGO Directors would be removed.

Also, upon Gold Road acquiring a Relevant Interest of 50.1% of all DGO Shares (on a fully diluted basis) and payment of consideration of the Offer, if requested, DGO is under an obligation in the Bid Implementation Agreement to use best endeavours to assist Gold Road with the resignation of the existing DGO nominee directors on the board of De Grey and appointment of the directors nominated by Gold Road (subject to those persons having provided a consent to act as directors).

Gold Road will seek, to the extent possible through its nominees on the DGO Board, to implement the intentions detailed in **section 6.2** where they are consistent with DGO being a controlled entity of (but not wholly-owned by) Gold Road and are considered to be in the best interests of DGO Shareholders as a whole.

Gold Road would consider (but not necessarily comply with) the recommendations in the ASX Corporate Governance Principles and Recommendations when determining the composition of the DGO Board.

(b) General strategic and operational review

Gold Road is supportive of DGO's strategic direction, which primarily involves investing in ASX listed brownfield explorers and acquiring strategic greenfield discovery opportunities.

Consistent with Gold Road's model of business, following the end of the Offer, Gold Road would continue to monitor the performance of DGO and as appropriate conduct a general strategic and operational review of DGO's structure, assets, business, personnel and operations.

Following the general strategic and operational review process, the executive management of DGO may be enhanced or supplemented by Gold Road, with a view to ensuring that DGO has the best possible skills and resources available to undertake its business.

(c) Listing on ASX

Gold Road intends, subject to satisfying the relevant preconditions, to remove DGO from the official list of the ASX.

In relation to the removal of DGO from the official list of the ASX, ASX guidance indicates that the usual conditions that the ASX would expect to be satisfied in order for it to approve the removal of DGO from the official list in the context of a successful takeover bid include:

- at the end of the Offer, Gold Road owns or controls at least 75% of the DGO Shares and the Offer has remained open for at least two weeks after Gold Road attained ownership or control of at least 75% of the DGO Shares; and
- the number of DGO Shareholders (other than Gold Road) having holdings with a value of at least \$500 is fewer than 150, and in such case, the ASX will not usually require Gold Road to obtain DGO Shareholder approval for DGO's removal from the official list of the ASX.

In addition, the ASX may approve an application for DGO to be removed from the official list of the ASX with shareholder approval and, where such removal is sought later than one month after the close of the Offer, Gold Road would be entitled to vote on the resolution approving the removal.

If DGO is removed from the official list of the ASX, there may be risks related to remaining as a minority shareholder in DGO. These include reduced or non-existent liquidity if shareholders wish to sell their DGO Shares.

(d) Further acquisition of DGO Shares

Gold Road may, at some later time, acquire further DGO Shares in a manner consistent with the Corporations Act and any other applicable laws.

(e) Subsequent acquisition of interest in DGO

It is possible that even if Gold Road is not entitled to proceed to compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act; for example, as a result of acquisitions of DGO Shares in reliance on the "3% creep" exception in item 9 of section 611 of the Corporations Act. If so, it may exercise those rights.

6.4 Intentions if Gold Road does not acquire 50.1% of DGO

Gold Road may only declare the Offer to be free of the 80% Minimum Acceptance Condition if there is a Superior Proposal or in the event the Bid Implementation Agreement is terminated for any reason and so the circumstances in which it may acquire less than 50.1% of DGO are limited. Gold Road reserves its right to declare the Offer free from the 80% Minimum Acceptance Condition where it is permitted to do so. However, it has made no decision as to whether it will do so.

This **section 6.4** describes Gold Road's intentions if Gold Road were to declare the Offer free of the 80% Minimum Acceptance Condition (where permitted to do so) and acquire a relevant interest of less than 50.1% of DGO. In that circumstance:

- Gold Road does not expect to be in a position to give effect to the intentions set out in **sections 6.2** and **6.3** of this Bidder's Statement (other than Gold Road's intention to request appointment of Gold Road's nominees as DGO Directors); and
- Gold Road's current intention is to continue to hold any DGO Shares acquired with a view to maximising returns for Gold Road's shareholders (this may result in Gold Road and its Associates acquiring additional shares, to the extent permitted by law).

6.5 Limitations in giving effect to intentions

The ability of Gold Road to implement the intentions set out in this **section 6** will be subject to the legal obligations of the Gold Road Directors to have regard to the interests of Gold Road and all Gold Road Shareholders, and the requirements of the Corporations Act and the Listing Rules relating to transactions between related parties. Gold Road will only make a decision on the above mentioned courses of action following legal and financial advice in relation to those requirements.

6.6 Intentions generally

Subject to the above, Gold Road currently intends, on the basis of the facts and information concerning DGO which are known to it:

- to generally continue the operations of DGO; and
- not to make any major changes to the operations of DGO or redeploy any of the fixed assets of DGO.

7 Australian tax implications

7.1 Introduction

The following is intended only as a general guide of the Australian income tax, goods and services tax (GST) and stamp duty consequences for DGO Shareholders who dispose of DGO Shares in conjunction with the Offer.

The comments set out below are relevant only to those DGO Shareholders who hold their DGO Shares on capital account for tax purposes.

The comments below are not relevant to DGO Shareholders who:

- hold their DGO Shares as revenue assets or as trading stock;
- acquired their DGO Shares pursuant to an employee share, option or rights plan;
- are subject to the taxation of financial arrangement rules in Division 230 of the *Income Tax Assessment Act 1997* in relation to gains and losses on their DGO Shares;
- are non-residents of Australia who hold their DGO Shares in carrying on a business through a permanent establishment in Australia;
- are financial institutions, insurance companies, partnerships, tax exempt organisations, sovereign entities, trusts or superannuation funds; or
- are temporary residents, or have changed their tax residence while holding DGO Shares.

The guide does not take account of the individual circumstances of particular DGO Shareholder and does not constitute tax advice. It does not purport to be a complete analysis of the potential tax consequences of the Offer and is intended as a general guide to the Australian income tax, GST and stamp duty implications. DGO Shareholders should seek advice from an appropriate professional adviser in relation to the tax implications of the Offer based on their own individual circumstances.

The comments also do not take into account tax legislation of any country other than Australia. DGO Shareholders who are tax residents of a country other than Australia (whether or not they are also Australian tax residents, or are temporary tax residents of Australia) should take into account the tax consequences under the laws of their country of tax residence, as well as under Australian tax law, and any applicable tax treaty between Australia and that country, of acceptance of the Offer.

The following description is based upon the Australian tax law and administrative practice in effect at the date of this Bidder's Statement, but the descriptions are general in nature and are not intended to be an authoritative or complete statement of the tax laws applicable to the particular circumstances of every DGO Shareholder. Other than as expressly discussed or specified, the comments do not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time.

7.2 Australian resident shareholders

(a) Shareholders who accept the Offer

If the Offer becomes unconditional, acceptance of the Offer will involve the disposal by DGO Shareholders of their DGO Shares by way of transfer to Gold Road. This will constitute a CGT event for Australian tax purposes.

The date of disposal for CGT purposes will be the date the contract to dispose of the DGO Shares is formed. As the conditions to which the Offer is subject are all conditions subsequent that do not prevent formation of a contract by acceptance of the Offer, the date of disposal will be the date that the Offer is accepted.

(b) Compulsory acquisition

If a DGO Shareholder does not dispose of their DGO Shares under the Offer and their DGO Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, those DGO Shareholders will also be treated as having disposed of their DGO Shares for CGT purposes.

In that case, the date of disposal for CGT purposes will be the date when Gold Road becomes the owner of the DGO Shares.

(c) CGT

Calculation of capital gain or capital loss (apart from scrip for scrip roll-over relief)

DGO Shareholders who are Australian residents may make a capital gain or capital loss on the disposal of DGO Shares. DGO Shareholders will make a capital gain to the extent that their capital proceeds from the disposal of the DGO Shares are more than their cost base. Conversely, DGO Shareholders will make a capital loss to the extent that the capital proceeds are less than their reduced cost base of those DGO Shares.

The cost base of the DGO Shares generally includes the cost of acquisition and any incidental costs of acquisition and disposal that are not deductible to the shareholder. The reduced cost base of a DGO Share is usually determined in a similar, but not identical, manner.

The capital proceeds will be the market value of the 2.16 Gold Road Shares received per DGO Share (**Share Consideration**), calculated at the date of disposal for CGT purposes (discussed above).

Individuals, complying superannuation entities or trustees that have held DGO Shares for at least 12 months before the date of disposal may be entitled to discount the amount of the capital gain (after application of capital losses) from the disposal of DGO Shares. The discount is 50% in the case of individuals and trusts (except a trust that is a complying superannuation entity) or 33 1/3% for complying superannuation entities.

DGO Shareholders should seek specific advice on the availability of the CGT discount in their own circumstances. Capital gains and capital losses of a taxpayer in a year of income are aggregated to determine whether there is a net capital gain. Any net capital gain (after discount) is included in assessable income and is subject to income tax at the taxpayer's marginal tax rate. Capital losses may not be deducted against other income for income tax purposes, but may be carried forward to offset against future capital gains (subject to the satisfaction of any applicable loss utilisation rules).

Scrip for scrip roll-over relief

Scrip for scrip roll-over relief may be available if Gold Road attains at least an 80% shareholding in DGO through the Offer, including any DGO Shares already held. If scrip for scrip roll-over relief is available, Australian resident DGO Shareholders who have a capital gain on their DGO Shares attributable to the Share Consideration can choose to disregard that capital gain.

In order to choose scrip for scrip roll-over relief, DGO Shareholders must make an election prior to lodging their income tax return for the income year in which the CGT event occurs. The way you prepare the tax return is sufficient evidence of the making of the choice. Gold Road will not make a choice under section 124-795(4) of the *Income Tax Assessment Act 1997* to deny scrip for scrip roll-over relief.

Roll-over is not available if a capital loss arises on the exchange of the DGO Shares.

(d) Implications of holding Gold Road Shares

As a consequence of accepting the Offer, a DGO Shareholder will cease to be a shareholder of DGO and will become a shareholder of Gold Road. Dividends received by an Australian resident shareholder of Gold Road would generally be included in the assessable income of such a shareholder, and, if franked, may qualify for benefits under the dividend imputation regime.

(e) CGT on subsequent disposal of Gold Road Shares

A subsequent disposal of Gold Road Shares will generally result in Australian CGT implications as described above. The precise consequences will differ depending upon whether or not scrip for scrip roll-over relief was claimed in relation to the disposal of DGO Shares pursuant to the Offer.

Where scrip for scrip roll-over relief was not chosen or available

Where scrip for scrip rollover relief was not chosen or was not available in relation to the disposal of the DGO Shares, the cost base of the Gold Road Shares would include the market value of the DGO Shares at the acquisition date of the Gold Road Shares.

Other amounts may also be included in the cost base of the Gold Road Shares, such as any incidental costs to sell the Gold Road Shares.

The acquisition date of the Gold Road Shares will be when the contract for disposal of the DGO Shares was formed or the date the Gold Road Shares are issued if the DGO Shares were compulsorily acquired. The CGT discount may be available for certain shareholders if the Gold Road Shares are held for more than 12 months.

Where scrip for scrip roll-over chosen

Where a DGO Shareholder chooses scrip for scrip roll-over relief the cost base for the Gold Road Shares is determined by attributing, on a reasonable basis, the existing cost base of the DGO Shares disposed of to the Gold Road Shares acquired.

Other amounts may also be included in the cost base of the Gold Road Shares, such as any incidental costs to sell the Gold Road Shares.

A shareholder will be taken to have acquired the Gold Road Shares at the time the DGO Shares were originally acquired for CGT purposes, including for the purposes of determining whether the CGT discount may apply.

7.3 Non-resident shareholders

Non-resident DGO Shareholders that are Foreign Shareholders and that accept the Offer will not receive new Gold Road Shares. Instead, Foreign Shareholders will be paid the net proceeds of the sale by the Sale Nominee of those Gold Road Shares that they would otherwise have been entitled to in respect of the Offer.

For a DGO Shareholder who:

- is not, and has not been, a resident of Australia for Australian tax purposes;
- holds their DGO Shares on capital account; and
- does not hold their DGO Shares in carrying on a business through a permanent establishment in Australia,

the disposal of DGO Shares will generally only result in Australian CGT implications if those DGO Shares constitute an "indirect Australian real property interest" (**IARPI**). The DGO Shares will constitute an IARPI if:

- that DGO Shareholder together with its Associates held 10% or more of the DGO Shares at the time of disposal or throughout any 12 month period within two years preceding the disposal; and
- more than 50% of the market value of DGO's assets comprise direct or indirect interests in Australian real property assets (which includes Australian mining and exploration leases and licences).

Gold Road is obligated to pay an amount equal to 12.5% of the consideration payable to DGO Shareholders to the Australian Taxation Office in certain circumstances if those DGO Shares constitute an IARPI. Gold Road is currently of the view that the DGO Shares are not IARPIs and therefore does not expect to withhold any amount in respect of tax from the consideration.

For non-resident DGO Shareholders that are required to recognise a capital gain on the disposal of their DGO Shares and who are Ineligible Foreign Shareholders receiving net proceeds from the sale of Gold Road Shares, scrip for scrip roll-over relief should not be available.

For non-resident DGO Shareholders that are required to recognise a capital gain on the disposal of their DGO Shares and who receive Share Consideration, scrip for scrip roll-over is generally not available unless your Gold Road Shares received constitute an IARPI.

Non-residents should seek their own advice as to the tax treatment of dividends on the Gold Road Shares and any subsequent disposal of the Gold Road Shares. In general fully franked dividends will not attract dividend withholding tax; and unfranked dividends will attract withholding tax prima facie at a rate of 30% of the gross amount of the dividend, but subject to rate reduction under tax treaties.

7.4 Stamp Duty

If you accept the Offer you will not be required to pay any stamp duty on the disposal of your DGO Shares under the Offer or on the acquisition of Gold Road Shares under the Offer.

7.5 GST

DGO Shareholders should not be liable to pay any GST in respect of a disposal of those DGO Shares or acquisition of Gold Road Shares.

The disposal and acquisition of shares are 'financial supplies' for GST purposes. If DGO Shareholders incur any costs which include GST (such as advisor fees) relating to their participation in the Offer, they may only be entitled to input tax credits for such costs in certain circumstances and should seek specific advice.

8 Risk factors

8.1 Overview

If the Offer becomes unconditional, DGO Shareholders who accept the Offer (other than Ineligible Foreign Shareholders) will become shareholders in Gold Road, and Gold Road will acquire an interest in DGO.

A number of risks and uncertainties, which are both specific to Gold Road and the Combined Group and of a more general nature, may affect the future operating and financial performance of the Combined Group and the value of Gold Road Shares. There are also additional risks relating to the Offer and the Combined Group, to which DGO Shareholders will be exposed through their holding of DGO Shares. This may include risks and uncertainties of De Grey given DGO's significant investment in the company. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, while others can be covered by insurance, but some are outside the control of Gold Road and the Combined Group and cannot be mitigated or insured against. Many of these risks also affect the businesses of other companies operating in the same industry.

The risks set out in this **section 8** are not exhaustive of all the risks faced or that may be faced by Gold Road Shareholders. The risks are general only and do not take into account your individual objectives, financial situation or needs. You should carefully consider the following risk factors, as well as other information provided by Gold Road, and consult your professional advisers before deciding whether to accept the Offer.

8.2 Specific risks relating to Gold Road and the Combined Group

(a) Laws, regulations, rules, approvals, licences and permits

The Combined Group's operations will be subject to various Federal, State and local laws and plans, including those relating to mining, prospecting, development permit and licence requirements, industrial relations, environment, land use, royalties, water, native title and cultural heritage, mine safety and occupational health. No assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail exploration, production or development.

Approvals, licences and permits required to comply with such rules and regulations are subject to the discretion of the applicable government officials. No assurance can be given that Gold Road will be successful in obtaining any or all of the various approvals, licences and permits or maintaining such authorisations in full force and effect without modification or revocation. To the extent such approvals are required and not retained or obtained.

As at the date of this Bidder's Statement, Gold Road holds all the titles and approvals it currently needs for Gruyere.

(b) Land access arrangements

Mineral exploration, development and mining generally require consultation and agreement with landholders or other third parties in relation to access arrangements regarding underlying land. The Combined Group may be subject to restrictions associated with such land access arrangements, and may be required to pay compensation or adhere to other attached conditions. There is the further risk that landholders or other third parties may refuse access to the relevant land, which may negatively impact the Combined Group's capacity to further explore or develop any projects, the subject of such land. De Grey's Mallina Gold Project will likely require consultation and agreement with landholders and access to key third party infrastructure such as gas pipelines, power infrastructure and roads. By their nature the ability to access, or potential cost to access this infrastructure, is not guaranteed.

(c) Title risk

The *Native Title Act 1993* (Cth) recognises and protects the rights and interest in Australia of Aboriginal and Torres Strait Islander people in land and waters according to their traditional laws and customs. Native Title may impact the Combined Group's operations and future plans. Native Title is not generally extinguished by the grant of exploration and mining tenements, as they are not generally considered to be a grant of exclusive possession. However, a valid exploration or mining tenement prevails over Native Title to the extent of any inconsistency for the duration of the title.

There may be areas in relation to tenements which the Combined Group has an existing interest in, or will acquire an interest in the future, over which common law Native Title rights exist, or may be found to exist, which may preclude or delay exploration, development or production activities. The Gruyere Joint Venture tenements are currently covered by a Native Title Agreement. Gold Road's 100% owned exploration tenements are subject to industry standard heritage agreements and the extent and timing of programs is subject to compliance with these agreements. If a decision is made to mine on the 100% owned Yamarna exploration tenements, a Native Title Agreement will likely be required, and there is no certainty that a Native Title Agreement will be reached.

The Combined Group will also need to comply with Aboriginal heritage legislation requirements which require heritage survey work to be undertaken ahead of the commencement of mining and exploration operations.

Development of De Grey's Mallina Gold Project will require the grant of mining tenements with lease applications requiring negotiation with various parties including pastoral lease holders, traditional owners and government agencies. While access issues are faced by many mining companies and are a common aspect of mining project development, the ability to negotiate satisfactory commercial arrangements with landowners, pastoral lease holders, occupiers and Native Title groups is important. In addition to mining lease(s), the Mallina Gold Project will require tenure for the substantial infrastructure to support a mining operation, potentially including gas pipelines, power lines, borefields and access roads. A Native Title agreement is yet to be negotiated for the Mallina Gold Project.⁶³

(d) Exploration and development risk

The exploration for and development of mineral deposits is speculative and involves significant risks. Whether a mineral deposit will be commercially viable depends on a number of factors, including: the particular attributes of the deposit (such as size, grade and proximity to infrastructure), metal prices, metallurgical recovery, capital construction and operating costs, and government regulation including regulations relating to prices, taxes, royalties, land tenure, land use, exporting of minerals and environmental protection. There is no certainty that the expenditures made by Gold Road towards the search for and evaluation of mineral deposits, will result in discoveries of commercial quantities of ore.

(e) Future Mining Studies

Studies undertaken on the potential to advance projects to a mining operation or continue as a mining operation have not all been independently verified by Gold Road and there is no certainty of a future or continuing mining operation. Gold Road's ability, or the ability of its strategic investment companies, to develop its exploration projects to mining projects in the future may be delayed or prevented as a result of factors including weather conditions, mechanical difficulties or a shortage of technical expertise or equipment. There may be difficulties with obtaining government and/or third-party approvals, operational difficulties encountered with construction, extraction and production activities, unexpected shortages or increase in the price of consumables (including water and energy resources such as grid power, diesel, gas and other fossil fuels), labour disruptions, plant and equipment, information technology systems, cost overruns or lack of access to required levels of funding.

⁶³ See De Grey ASX announcement dated 28 January 2022 entitled Quarterly Activities Report.

Gold Road's future operations, as well as future and existing operations of its strategic investment companies, may be adversely affected by higher than anticipated treatment costs, worse than anticipated metallurgical conditions, unfavourable geotechnical or hydrological conditions, fluctuations in metal prices or lack of availability of plant and equipment. The occurrence of any of these circumstances could result in Gold Road, or its strategic investment companies, not realising its operational or development plans or in such plans costing more than expected or taking longer to realise than expected.

The De Grey Mallina Gold Project is subject to a scoping study only. The scoping study has been completed by De Grey to a quoted level of accuracy of +/- 35%.⁶⁴ The scoping study outcomes, production target and forecast financial information referred to are based on low accuracy level technical and economic assessments that are insufficient to support estimation of Ore Reserves. Metallurgical, geotechnical and mining studies are only at a preliminary stage. The scoping study does not define a preferred or complete processing route with uncertainty remaining on how the ore will be processed. The infrastructure requirements for the project, and the associated capital and operating costs are not comprehensively defined. The eventual capital and operating costs of any future operation could be significantly higher than stated in the scoping study. The development timeline for the project, inclusive of exploration, studies, permitting and approvals, and project financing is preliminary in nature. There is no certainty of eventual conversion to Ore Reserves or that the production target itself will be realised.

(f) Operational risks

The Combined Group's assets and mining operations, as any others, will be subject to uncertainty with respect to (among other things): ore tonnes, mine grade, ground conditions, geology metallurgical recovery or unanticipated metallurgical issues (which may affect extraction costs), infill resource drilling, mill performance, the level of experience of the workforce, operational environment, funding for development, regulatory changes, accidents and other unforeseen circumstances such as unplanned mechanical failure of plant or equipment, or the health and safety of its workforce, storms, floods, bushfires or other natural disasters. Mining operations could also suffer from poor design or poor reliability of equipment, impacts to supply chain, and transport of plant equipment and the workforce to and from site.

The occurrence of any of these circumstances could result in the Combined Group not realising its operational or development plans, or plans costing more than expected or taking longer to realise than expected. Any of these outcomes could have an adverse effect on Gold Road's financial and operational performance.

As Gruyere is the only current operating asset which the Combined Group has a direct and significant interest in, any operational risks which materialise at Gruyere will have a greater effect on the Combined Group than a diversified company with two or more operations.

(g) Commodity price volatility

Gold Road's future profitability depends upon the world market price of gold. If the market price for gold falls below Gold Road's future production costs and remains at such levels for any sustained period of time, it may not be economically feasible to commence or continue production. Production from Gold Road's mineral properties will be dependent upon the price of gold being adequate to make these properties economic.

Gold Road currently has certain gold price hedging arrangements in place and may in the future be required or choose to enter into further gold price hedging arrangements. Although gold price hedging activities may protect Gold Road in certain instances, they may also limit the price that can be realised on the proportion of recovered metal that is subject to any hedges, if the market price for gold exceeds the hedge contract price.

⁶⁴ See De Grey ASX announcement dated 5 October 2021.

(h) Mineral Resource and Ore Reserve estimates

Mineral Resource and Ore Reserve estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional fieldwork and analysis, the estimates are likely to change. This may result in alterations to development and mining plans which may, in turn, adversely affect the Combined Group's operations.

The Mineral Resources and Ore Reserve statements declared by strategic investment companies, including De Grey and Dacian, have not been independently verified by Gold Road. De Grey's 9 million ounce Mallina Gold Resource hosts a large proportion of Inferred Resources which carry a relatively low level of confidence, due to a low drilling density. The Mallina Gold Resource is reported constrained by cut-off grade but unconstrained by any mineable shapes (e.g. open pit shells). No Ore Reserves have been declared by De Grey.⁶⁵

(i) Joint venture risk

Joint venture arrangements form part of Gold Road's growth strategies. There can be no assurance that these joint venture arrangements will be successful. Projects held and run through joint ventures may impose a number of restrictions on Gold Road's ability to sell its interest in any assets held through such a structure and may require prior approval of other joint venture partners or may be subject to pre-emptive rights.

Subject to the relevant joint venture agreements, Gold Road may be unable to control the actions of its joint venture partners and therefore cannot guarantee that the joint venture arrangements will be operated or managed in accordance with Gold Road's preferred direction or strategy. There is therefore a risk of financial failure, negligence or default by a participant or manager in any joint venture to which Gold Road is or may become a party.

Gold Road's interests may not always be the same as that of its joint venture partners and disagreements may arise. Disagreements between joint venturers or a failure of a joint venture partner to adequately manage a project poses a further risk of financial loss or legal or other disputes with the other participants in such a joint venture. In addition, Gold Road is not the operating and/or majority party in all of its joint venture arrangements (in particular the Gruyere Joint Venture) and therefore has less control over decision making and less visibility over operational risks associated with those particular joint ventures. In these circumstances, Gold Road is reliant on third party managers or its joint venture partner(s) to manage and communicate risk factors to Gold Road.

(j) Key personnel and contractors

A number of key personnel are important to attaining the business goals of Gold Road and the Combined Group. One or more of these key employees could leave their employment, and this may adversely affect the ability of Gold Road and the Combined Group to conduct their business and, accordingly, affect the financial performance of Gold Road and the price of Gold Road Shares.

Recruiting and retaining qualified personnel are important to the success of the Combined Group. The number of persons skilled in the exploration and development of mining properties is limited and competition for such persons can be strong, depending on market conditions.

Any disputes with employees (through personal injuries, occupational health and safety, industrial matters or otherwise), change in labour regulations, or other developments in the area may cause labour disputes, work stoppages or other disruptions in production that could adversely impact the Combined Group.

⁶⁵ See De Grey ASX announcements dated 23 June 2021 and 5 October 2021.

The Combined Group may use external contractors or service providers for many of its activities, and as such the failure of any current or proposed contractors, subcontractors or other service providers to perform their contractual obligations may negatively impact the business of the Combined Group. Gold Road cannot guarantee that such parties will fulfil their contractual obligations and there is no guarantee that Gold Road would be successful in enforcing any of its contractual rights through legal action. Further, the insolvency or managerial failure by any such contractors or other service providers may pose a significant risk to Gold Road's operating and financial performance and financial position.

(k) Royalties

Each gold mining project operated by Gold Road will be subject to Western Australian royalties. If royalties rise, the profitability and commercial viability of Gold Road's projects may be negatively impacted. In addition, assets held by Gold Road may be or become the subject of third party royalty claims (for example legacy royalties). If a third party royalty is determined to be valid, Gold Road's liability under that royalty may or may not be substantial and may or may not affect its financial position, its financial results or its operations.

(l) Competition risk

The industry in which the Combined Group is involved is subject to domestic and global competition. Although Gold Road considers that it undertakes all reasonable due diligence in its business decisions and operations, Gold Road has no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Combined Group's projects and business.

(m) Regulatory risk

Gold Road must meet regulatory requirements that are subject to continual review, including inspection by regulatory authorities. Failure by Gold Road to continuously comply with regulatory requirements (including, without limitation, in relation to mining, prospecting, rehabilitation, permitting and licencing requirements, industrial relations, environment, waste disposal, land use, royalties, native title, land access, mine safety and occupational health) or failure to take satisfactory corrective action in response to adverse inspection could result in enforcement actions. Gold Road operates in a regulated environment with the potential for significant penalties for non-compliance with applicable laws and regulations. Gold Road's future growth prospects are reliant on its ability to market its services and any regulatory change, event or enforcement action which would restrict those activities could have a material impact on Gold Road's growth and future financial performance. Amendments to current law and regulations governing operations or more stringent implementation of laws and regulations could have an adverse impact on Gold Road, including increases in expenses, capital expenditure and costs. The impact of future regulatory and legislative change upon the business of Gold Road cannot be predicted.

Approvals, licences and permits required to comply with such laws may, in some instances, be subject to the discretion of government officials and, in some cases, the local community. No assurance can be given that Gold Road will be successful in obtaining or maintaining any or all of the various approvals, licences and permits. To the extent such approvals are required and not retained or obtained in a timely manner or at all, Gold Road may be curtailed or prohibited from continuing or proceeding with mining, development and/or exploration activities. There can be no assurance that the costs involved in retaining or obtaining such approvals will not exceed those estimated by Gold Road.

Mining operations can be subject to public and political opposition. Opposition may include legal challenges to exploration and development permits, political and public advocacy, electoral strategies, media and public outreach campaigns and protest activity, all which may delay or halt development or expansion. For example, native title claims on any existing or future tenements held by Gold Road, or its strategic investment companies, may potentially impact Gold Road's operations and future plans.

(n) Environmental risk

The operations and activities of the Combined Group will be subject to the environmental laws and regulations of Australia. As with most exploration projects and mining operations, the Combined Group's operations and activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. Gold Road attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations.

Gold Road is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Combined Group's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Combined Group to incur significant expenses and undertake significant investments which could have material adverse effect on the Combined Group's business, financial condition and performance.

(o) Community and social

Gold Road's relationship with the communities in which it operates is important to ensure the future success of its existing operations and the construction and development of its projects. While Gold Road believes its relationships with the communities in which it operates are strong, there is an increasing level of public concern relating to the perceived effect of mining activities on the environment and on communities impacted by such activities. A failure by Gold Road to adequately respond to changes in environmental laws (including those relating to climate change) or comply with regulations governing access may adversely affect Gold Road's relationship with key stakeholders, community relations and its social licence to operate. More detail is available in Gold Road's Sustainability Report which can be accessed on Gold Road's website.

(p) Litigation

The Combined Group could be exposed to possible litigation risks including environmental claims, occupational health and safety claims and employee claims. Further, the Combined Group may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Combined Group's operations, financial performance and financial position. As at the date of this Bidder's Statement, Gold Road is not aware of any material disputes or litigation being undertaken.

(q) Insurance

Gold Road faces various risks in connection with its business including blowouts, explosions, fires, damages or lost equipment and damage or loss from inclement weather or natural disasters. Any of these hazards could result in personal injury or death, damage to or destruction of equipment and facilities, suspension of operations, environmental damage and damage to the property of others. Gold Road intends to insure its operations in accordance with industry practice. However, in certain circumstances, Gold Road's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on Gold Road's business, financial condition and results.

Insurance against all risks associated with mining exploration and production is not always available and where available the costs can be prohibitive.

(r) Future financing requirements

Gold Road may require further financing support in the future to support additional capital expenditure or to meet future objectives. Despite Gold Road's strong capital raising track record, there is no certainty that it will be successful in obtaining the financing required as and when needed, on favourable terms or at all. Failure to obtain future financing on a timely basis may compromise Gold Road's ability to commence new contracts, perform existing contracts or may prevent it from achieving other objectives. In particular, the Mallina Gold Project will require a significant amount of additional funding to bring the project into production. In a world that is rapidly migrating towards a lower carbon economy, and where the global population is increasingly focused on the social sustainability aspect of environmental, social and governance (ESG) rather than just environmental, Gold Road will need to continue to balance ESG considerations in connection with its future financing requirements. Refer to Gold Road's 2021 Sustainability Report available on Gold Road's website at <https://goldroad.com.au/sustainability/> for further details.

(s) Production guidance

Gold Road has from time to time provided production guidance. This guidance is based on assumptions and forecasts which may subsequently prove to be incorrect, resulting in different actual results. While Gold Road considers that this guidance is reasonable, actual future production may vary from the guidance for various reasons, many of which cannot be foreseen and are beyond the control of Gold Road. These factors may cause the production guidance not to be achieved or to be achieved later than expected, or to be achieved at a higher cost than anticipated.

(t) Climate change risks

Climate change risk to the Combined Group (and particularly Gold Road given its mature operations) is related to operations in the mining industry. The climate change risks particularly attributable to Gold Road include the emergence of new or expanded regulations associated with the transitioning to a lower carbon economy and market changes related to climate change mitigation.

The Combined Group may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage.

Climate change may cause certain physical and environmental risks that cannot be predicted by the Combined Group, including events such as increased severity of weather patterns and incidence of extreme weather events and longer term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry within which the Combined Group operates.

(u) Realising value in market securities

DGO's portfolio of strategic listed investments are tradeable on the ASX and consequently exposed to market fluctuations and individual company performance.

There is no guarantee that the eventual value realised for all, or part of the investment will reflect the current market value of the security. Any realisation of value will depend on a number of market related factors, including the liquidity and performance of the underlying stock and the percentage of total issued shares held.

8.3 Risks specifically relating to the Offer

(a) Conditions of the Offer

As described in **section 10.12**, the Offer is subject to a number of Conditions. Subject to any statutory withdrawal rights that may be available, DGO Shareholders who accept the Offer whilst they remain conditional will no longer be able to trade their DGO Shares on the ASX or withdraw their acceptance of the Offer. DGO Shareholders should be aware that the market price of DGO Shares may exceed the implied price under the Offer during the Offer Period. For those DGO Shareholders who accept the Offer and the Conditions remain unsatisfied at the end of the Offer Period and are not otherwise waived by Gold Road, there is no obligation on Gold Road to issue Gold Road Shares to you as consideration for your DGO Shares. In those circumstances, any acceptances of the Offer will be void and you would then be free to deal with your DGO Shares.

(b) Issue of Gold Road Shares as consideration

DGO Shareholders are being offered a specified number of Gold Road Shares as consideration under the Offer, rather than a number of Gold Road Shares with a specified market value. As a result, the value of the consideration will fluctuate depending upon the market value of the Gold Road Shares.

Furthermore, under the Offer, Gold Road will issue a significant number of Gold Road Shares. Some DGO Shareholders may not intend to continue to hold Gold Road Shares and may wish to sell them on the ASX. There is a risk that if a significant number of DGO Shareholders seek to sell their Gold Road Shares, this may adversely impact the price of Gold Road Shares.

(c) Limited withdrawal rights

DGO Shareholders may only withdraw their acceptance of the Offer in very limited circumstances. Otherwise, DGO Shareholders will be unable to withdraw their acceptances, even if the value of the DGO Shares to be issued to them varies from the date of their acceptance.

(d) Gold Road acquiring less than 100% of DGO Shares

There are some risks associated with the Offer for DGO Shareholders who do not accept the Offer and remain DGO Shareholders. If, in connection with or following the Offer, Gold Road acquires between 90% and 100% of the DGO Shares, Gold Road may be entitled to compulsorily acquire the remaining DGO Shares.

Gold Road may in its sole discretion declare the Offer to be free from any conditions at any time provided that Gold Road may only declare the Offer to be free of the 80% Minimum Acceptance Condition if there is a Superior Proposal or in the event the Bid Implementation Agreement is terminated for any reason (as described in **section 9.1(j)**).

In circumstances where Gold Road acquires a Relevant Interest of more than 50.1% but less than 90% of the DGO Shares, Gold Road will hold a controlling interest in DGO. The remaining DGO Shareholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own. They could also encounter a lower level of liquidity in DGO Shares than exists today, which could result in a lower price for those DGO Shares should they wish to sell them in future. The existence of a minority interest in DGO may have an impact on the operations of the Combined Group, although this impact will depend upon the ultimate level of DGO ownership acquired by Gold Road.

(e) Roll-over relief

A condition of the Offer is that Gold Road obtains a Relevant Interest in at least 80% of all DGO Shares. Gold Road may only declare the Offer to be free of this condition if there is a Superior Proposal or in the event the Bid Implementation Agreement is terminated for any reason (as described in **section 9.1(j)**).

If Gold Road waives the 80% Minimum Acceptance Condition (where permitted) and acquires a Relevant Interest in less than 80% of the DGO Shares, scrip-for-scrip CGT roll-over relief will not be available to holders of DGO Shares who have sold their shares under the Offer. The 80% Minimum Acceptance Offer is a condition set out in **section 10.12(a)**.

(f) Change of control risk

The acquisition of DGO may trigger change of control clauses in some material contracts to which DGO is a party. Where triggered, the change of control clause will, in most cases, require Gold Road to seek the counterparty's consent in relation to the acquisition of DGO.

There is a risk that a counterparty may not provide their consent to the acquisition, which may trigger a termination right in favour of that counterparty, or that the counterparty may require a payment from Gold Road or renegotiation of terms to obtain such consent.

If any of the material contracts containing a change of control clause are terminated by the counterparty or renegotiated on less favourable terms, it may have a material adverse effect on Gold Road's post-acquisition (assuming this occurs) financial performance and prospects. There can be no assurance that Gold Road will be able to negotiate such contracts on commercially reasonable terms, if at all.

Additionally, as a result of the acquisition, clients of DGO that are not bound by contract or that have rights to terminate for convenience, may elect to terminate their relationship with DGO. If any material clients terminate their relationship with DGO, Gold Road's financial performance and prospects post-acquisition (assuming this occurs) may be materially adversely affected.

(g) Reliance on information provided by DGO

Gold Road undertook a limited due diligence process in respect of DGO, which relied in part on the review of financial, legal and other information provided by DGO and on publicly available information for DGO's listed investments. While Gold Road considers the due diligence process undertaken to be appropriate, Gold Road has not been able to verify the accuracy, reliability or completeness of all the information which was provided to it against independent data. Similarly, Gold Road has prepared (and made assumptions in the preparation of) the financial information relating to DGO on a standalone basis, and also to Gold Road should Gold Road become DGO's ultimate parent company.

If any of the data or information provided to and relied upon by Gold Road in its due diligence process and its preparation of this Bidder's Statement proves to be incomplete, incorrect, inaccurate or misleading, there is a risk that the actual financial position and performance of Gold Road may be materially different to the financial position and performance expected by Gold Road and reflected in this Bidder's Statement.

Shareholders should also note there is no assurance that the due diligence conducted was conclusive and that all material issues and risks in respect of the acquisition of DGO have been identified and avoided or managed appropriately. Therefore, there is a risk that unforeseen issues and risks may arise, which may also have a material impact on Gold Road (for example, Gold Road may later discover liabilities or defects which were not identified through due diligence or for which there is no protection for Gold Road). This could adversely affect the operations, financial performance or position of Gold Road.

Further, the information reviewed by Gold Road includes forward looking information. Forward looking information is inherently unreliable and based on assumptions that may not be achieved or satisfied in future.

(h) Analysis of acquisition

Gold Road has undertaken financial, business and other analyses of DGO to determine its attractiveness to Gold Road, and whether to pursue its acquisition. It is possible that such analyses, and the best-estimate assumptions made by Gold Road, draw conclusions and make forecasts that are inaccurate or which may not be realised.

To the extent that the actual results achieved by DGO are different to those indicated by Gold Road's analysis, there is a risk that the profitability and future earnings of the operations of Gold Road may be materially different from the profitability and earnings expected as reflected in this Bidder's Statement.

(i) Integration risk

There are risks that any integration between the businesses of Gold Road and DGO may be more complex than anticipated, take longer than expected, encounter unexpected challenges or issues and take longer than expected, divert management attention or not deliver the expected benefits and this may affect Gold Road's operating and financial performance. Further, the integration of DGO's accounting functions may lead to revisions, which may impact on Gold Road's reported financial results.

(j) Historical liability

If Gold Road becomes DGO's ultimate parent company, Gold Road may become directly or indirectly liable for any liabilities that DGO has incurred in the past as a result of prior acts or omissions, including liabilities which were not identified during Gold Road's due diligence or which are greater than expected, and for which the various forms of protections negotiated by Gold Road in its agreement to acquire DGO turn out to be inadequate in the circumstances. Such liabilities may adversely affect the financial performance or position of Gold Road post-acquisition.

8.4 General risks**(a) Market price of Gold Road shares**

The market price of Gold Road shares may fluctuate over time as a result of a number of factors including the financial performance and prospects of Gold Road, prevailing market conditions, general investor sentiment in those markets, inflation, interest rates, exchange rates, commodity prices, changes to government regulation, policy or legislation and the liquidity and volume of shares being bought or sold at any point in time. Accordingly, there can be no guarantee that there will be an active or liquid market in shares traded on ASX and there is no guarantee that the Gold Road Shares issued to DGO Shareholders pursuant to the Offer will trade at or above the issue price. It should also be noted that the historic share price performance of Gold Road shares does not necessarily provide any guidance as to the future share price performance.

(b) Economic risk

The operating and financial performance of the Combined Group will be influenced by a variety of general economic and business conditions, including levels of consumer spending, oil prices, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets and government fiscal, monetary and regulatory policies.

Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war or natural disasters. A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have an adverse impact on Gold Road's operating and financial performance and financial position.

(c) Equity dilution

Gold Road may elect to issue Gold Road Shares or other securities in Gold Road in the future. While Gold Road will be subject to the constraints of the Listing Rules regarding the percentage of capital that it is able to issue within a 12 month period (other than where exceptions apply), the increase in the number of securities issued and the possible sale of these securities may have the effect of depressing the price of Gold Road securities already on issue. In addition, Gold Road Shareholders at the time may be diluted as a result of the issue of such securities.

(d) COVID-19

The global economic outlook is still facing uncertainty due to the ongoing COVID-19 pandemic, which has been having, and is likely to continue to have, a significant impact on global capital markets, the gold price, foreign exchange rates and supply chains. To date, COVID-19 has not had any material impact on Gold Road's (or, as far as Gold Road is aware, DGO's) operations, however, any infections on sites could result in the Combined Group's operations being suspended or otherwise disrupted for an unknown period of time, which may have an adverse impact on the Combined Group's operations as well as adverse implications on Gold Road's future cash flows, profitability and financial condition.

(e) Risk of conflict

Conflict events including, but not limited to, significant riots or acts of terrorism, invasion, hostilities (whether war be declared or not), or war may adversely affect the operating and financial performance of the Combined Group. Escalation of the current conflict in Ukraine may increase market volatility generally and/or volatility in global commodity prices generally.

(f) Changes in Australian government policy, laws and regulations generally

Amendments to current laws, regulations and permits governing operations and activities of mining companies, or a more stringent implementation of them, could have a material adverse impact on the viability and profitability of the Combined Group, and consequent returns to investors. The activities of the Combined Group will be subject to various Federal, State and local laws governing prospecting, development, production, taxes, labour standards, occupational health and safety and other matters.

(g) Changes in tax rules or their interpretation

Changes in tax law (including value added or indirect taxes and stamp duties), or changes in the way tax laws are interpreted, may impact the Combined Group's tax liabilities or the tax treatment of a Gold Road Shareholder's investment. In particular, both the level and basis of taxation may change. In addition, an investment in Gold Road Shares involves tax considerations which may differ for each Gold Road Shareholder. Each DGO Shareholder is encouraged to seek professional tax advice in connection with the Offer and how they may be discretely impacted.

(h) Dividends

Any future determination as to the payment of dividends by the Combined Group will be at the discretion of the Gold Road Directors and will depend on the financial condition of the Combined Group, future capital requirements and general business and other factors considered relevant by the Gold Road Directors at the time. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Combined Group.

(i) Cyber Security and IT

Gold Road relies on IT infrastructure and systems and the efficient and uninterrupted operation of core technologies. Gold Road's core technologies and other systems and operations could be exposed to damage or interruption from system failures, computer viruses, cyber-attacks, power or telecommunication provider's failure or human error. These events may cause one or more of Gold Road's core technologies to become unavailable. Any interruptions to these operations would impact Gold Road's ability to operate and could result in business interruption, loss of customers and revenue, damaged reputation and weakening of competitive position and could therefore adversely affect Gold Road's operating and financial performance.

(j) Bribery and corruption

Gold Road's operations are subject to various anti-corruption laws and regulations which prohibit a company and its employees or intermediaries from bribing or making improper payments to government officials or other persons to obtain or retain business or gain some other business advantage. Gold Road maintains anti-bribery policies, anti-corruption training programs, codes of conduct, procedures and other safeguards designed to prevent the occurrence of fraud, bribery and corruption. Instances of fraud, bribery and corruption, and violations of laws and regulations could have a material adverse effect on the Gold Road's reputation, business, results of operations, financial condition and the price of Gold Road shares.

9 Additional information

9.1 Bid Implementation Agreement

On 4 April 2022, Gold Road and DGO entered into the Bid Implementation Agreement which sets out the basis on which Gold Road will make the Offer and the respective obligations of Gold Road and DGO in relation to the Offer.

This section contains a summary of some of the material terms of the Bid Implementation Agreement. A complete copy of the Bid Implementation Agreement was released to the ASX on 4 April 2022.

(a) Offer

The Offer is for Gold Road to acquire DGO shares for the consideration of 2.16 Gold Road Shares for each DGO Share. The Offer made in respect of DGO Shares will extend to DGO Shares that are issued during the Offer Period as a result of the exercise of DGO Convertible Securities that are on issue as at the Record Date.

(b) Restrictions on waiver of 80% Minimum Acceptance Condition

The Offer is subject to a condition that at the end of the Offer Period, Gold Road has a relevant interest in at least 80% of all DGO Shares (on a fully diluted basis). Gold Road may not declare that the Offer is free of that condition unless there is a Superior Proposal or in the event the Bid Implementation Agreement is terminated for any reason (as described in **section 9.1(j)**).

(c) Extension of Offer Period

The initial Offer Period will last for at least one month (see **section 10.3** below), subject to Gold Road's right to extend the period in accordance with the Corporations Act provided that Gold Road must not extend the Offer Period beyond a date that is 6 months from the opening of the Offer (**Initial Maximum Offer Period**) unless prior to the end of the Initial Maximum Offer Period Gold Road and its Associates together have relevant interests in more than 50.1% of DGO Shares (on a fully diluted basis), in which case Gold Road may extend the Offer Period to a date that is no more than 9 months from the opening of the Offer.

(d) Exclusivity

Clause 6 of the Bid Implementation Agreement sets out the exclusivity obligations of DGO in connection with the implementation of the Takeover Bid. A summary of the key exclusivity obligations of DGO during the Exclusivity Period is set out below:

- (i) **(no talk and no shop)** DGO must not, and must ensure that each of its Related Persons do not, directly or indirectly:
 - (A) **(no shop)** solicit, invite, encourage or initiate any inquiry, expression of interest, offer proposal, negotiations or discussions by any person in relation to, or which would reasonably be expected to encourage or lead to the making of, a Competing Proposal or communicate to any person an intention to do anything referred to in this **section 9.1(d)(i)(A)**; or
 - (B) **(no talk)** subject to section 9.1(d)(iii):
 - facilitate, participate in or continue any negotiations or discussions with respect to any inquiry, expression of interest, offer or proposal by any person to make, or which would reasonably be expected to encourage or lead to the making of, a Competing Proposal or participate in or continue any negotiations or discussions with respect to any Competing Proposal;
 - negotiate, accept or enter into, or offer or agree to negotiate, accept or enter into, any agreement, arrangement or understanding regarding a Competing Proposal;

- disclose or otherwise provide or make available any non-public information about the business or affairs of DGO Group to a Third Party (other than a Government Agency that has the right to obtain that information and has sought it) in connection with, with a view to obtaining, or which would reasonably be expected to encourage or lead to the formulation, receipt or announcement of, a Competing Proposal (including providing such information for the purposes of the conduct of due diligence investigations in respect of DGO Group) whether by that Third Party or another person; or
 - communicate to any person an intention to do anything referred to above.
- (ii) **(notification of approaches)** During the Exclusivity Period, DGO must immediately notify Gold Road in writing if DGO or any of its Related Persons becomes aware of any:
- (A) written approach or written attempt to initiate any negotiations or discussions in respect of any inquiry, expression of interest, offer, proposal or discussion in relation to an actual, proposed or potential Competing Proposal;
 - (B) written proposal made to DGO or any of its Related Persons in connection with, or in respect of any exploration or completion of, an actual, proposed or potential Competing Proposal; or
 - (C) provision by DGO or any of its Related Persons of any non-public information concerning the business or operations of DGO or DGO Group to any Third Party (other than a Government Agency) in connection with an actual, proposed or potential Competing Proposal,

whether direct or indirect, solicited or unsolicited, and in writing or otherwise.

A notification must, subject to the fiduciary exception, include the identity of the relevant person making or proposing the relevant Competing Proposal and all material terms and conditions of the Competing Proposal (including the implied offer price per DGO Share).

- (iii) **(fiduciary exception)** the no talk and notification of approaches requirements are subject to a 'fiduciary exception' where in the opinion of the DGO Board, acting in good faith after receiving written advice from its external legal adviser and financial advisers, the Competing Proposal is or may reasonably be expected to lead to a Superior Proposal and compliance with those provisions would constitute, or would be reasonably likely to constitute, a breach of any of the fiduciary or statutory duties of the DGO Directors, provided that the Competing Proposal was not directly or indirectly brought about by, or facilitated by a breach of the exclusivity clause in the Bid Implementation Agreement.
- (iv) **(matching right)** during the Exclusivity Period, DGO must not, and must procure that each DGO Group Member does not, enter into any legally binding agreement pursuant to which one or more of a Third Party, DGO or any DGO Group Member proposes or propose to undertake or give effect to a Competing Proposal and must use its best endeavours to procure that none of its directors change their recommendation in favour of the Takeover Bid, publicly recommend a Competing Proposal (or recommend against the Takeover Bid) or make any public statement to the effect that they may do so at a future point (provided that a statement that no action should be taken by DGO Shareholders pending the assessment of a Competing Proposal by the DGO Board and its advisers shall not contravene this clause),
- unless:
- (A) the DGO Board, acting in good faith and in order to satisfy what DGO Directors consider to be their statutory or fiduciary duties (having received written legal advice from their external legal adviser), determine that the Competing Proposal would be or would be reasonably likely to be a Superior Proposal;
 - (B) DGO has provided Gold Road with the material terms and conditions of the Competing Proposal, including price and the identity of the Third Party making the Competing Proposal;

(C) DGO has given Gold Road at least 5 Business Days after the date of the provision of the information to consider the Competing Proposal and to propose amendments to the Takeover Bid to DGO, or announce or provide to DGO a new proposal (**GOR Counterproposal**); and

(D) Gold Road has not announced or otherwise formally provided to DGO a Gold Road Counterproposal by the expiry of the 5 Business Day period or if Gold Road has announced or proposed to DGO a GOR Counterproposal by the expiry of the 5 Business Day period, DGO has complied with the requirements in response to that GOR Counterproposal.

If Gold Road proposes to DGO, or announces, a GOR Counterproposal by the expiry of the 5 Business Day period, DGO must procure that the DGO Board considers the GOR Counterproposal and if the DGO Board, acting reasonably and in good faith, determines that the GOR Counterproposal would provide an equivalent or superior outcome for DGO Shareholders as a whole (other than those Associated with Gold Road) compared with the Competing Proposal, taking into account all of the terms and conditions of the GOR Counterproposal, then the Takeover Bid (and Agreed Terms) will be deemed to have been amended to reflect the terms of the GOR Counterproposal, Gold Road must immediately announce the GOR Counterproposal and DGO must use its best endeavours to procure that each of the Directors of DGO continues to recommend the Takeover Bid (as modified by the GOR Counterproposal) to DGO Shareholders.

The provisions set out in this **section 9.1(d)(iv)** have repeat application so that if any further proposal is made after Gold Road has made a Gold Road Counterproposal, Gold Road will again have the right to match the further proposal.

(e) Reimbursement Fee

Clause 7 of the Bid Implementation Agreement sets out the circumstances in which DGO may be required to pay a Reimbursement Fee of \$2,900,000 to Gold Road. The Reimbursement Fee will be payable if any one of the following events occurs:

- (i) During the Exclusivity Period, any DGO Director fails to recommend that DGO Shareholders accept the Offer, withdraws, adversely revises or adversely qualifies their recommendation that DGO Shareholders accept the Offer, or recommends that DGO Shareholders accept or vote in favour of or otherwise supports or endorses a Competing Proposal of any kind that is announced during the Exclusivity Period, unless DGO is entitled to terminate pursuant to clauses 8.1(b)(i), (ii), (iv) or (v)(B) of the Bid Implementation Agreement; or during the Exclusivity Period where a Competing Proposal (other than a proposal under paragraph (b) of the definition of a Competing Proposal) has been received by DGO prior to the right to terminate arising and that Competing Proposal completes within 12 months of the date Gold Road is notified of the Competing Proposal or is recommended by the Board of DGO within 6 months after the date of the Bid Implementation Agreement or a Competing Proposal (other than a proposal under paragraph (b) of the definition of Competing Proposal) is announced by DGO or a Third Party during the period following termination described in clause 8.1(b)(iv) of the Bid Implementation Agreement and ending 6 months after the date of the Bid Implementation Agreement and that Competing Proposal completes within 12 months of the date of such announcement; or

- (ii) During the Exclusivity Period, a Competing Proposal (other than a proposal under paragraph (b) of the definition of Competing Proposal) is announced by DGO or a Third Party, or a person acquires a relevant interest or an economic interest under a cash settled equity swap or similar derivative or right to acquire either a legal, beneficial or economic interest, in more than 10% of DGO Shares on issue and during the period ending 6 months after the date of the Bid Implementation Agreement a Competing Proposal (other than a proposal under paragraph (b) of the definition of Competing Proposal) is announced by the person acquiring the relevant interest of 10% or more (or any of its Associates) and, within 12 months of the date of such announcement the Competing Proposal completes, unless prior to that time DGO terminates the Bid Implementation Agreement pursuant to clauses 8.1(b)(i) or 8.1(b)(ii) the Bid Implementation Agreement; or
- (iii) Gold Road has validly terminated the Bid Implementation Agreement pursuant to a material breach by DGO of the Bid Implementation Agreement or a representation or warranty given by DGO becoming untrue.

(f) Refund

The Reimbursement Fee will not be payable to Gold Road if Gold Road becomes the holder of more than 50% of the DGO Shares as a result of the Takeover Bid, notwithstanding the occurrence of any event in clause 7.2 of the Bid Implementation Agreement (which is summarised in **section 9.1(e)**), and if the Reimbursement Fee has already been paid by DGO, it must be returned to DGO.

(g) Representations and warranties

Gold Road and DGO, in clause 9 to the Bid Implementation Agreement, have each given representations and warranties to the other, customary for a transaction of this nature.

(h) Third party consents

To the extent that any Third Party Consents have not already been obtained on terms acceptable to Gold Road (acting reasonably), then DGO must during the Exclusivity Period and at Gold Road's reasonable request:

- (i) apply in conjunction with Gold Road, to the counterparties from which these Third Party Consents are required;
- (ii) use, and must procure that each relevant Related Person of DGO uses, in conjunction with Gold Road, reasonable endeavours to obtain the Third Party Consents as expeditiously as possible; and
- (iii) work, and must procure that each relevant Related Person of DGO works, co-operatively with Gold Road in seeking to obtain those Third Party Consents.

(i) Interim funding arrangements

The arrangement in relation to interim financing by DGO is set out in clause 4.16 of Bid Implementation Agreement. If at any time during the Exclusivity Period the DGO Board forms the view that it requires additional financing, an amount becomes repayable within the next 30 days or further security or support is required under the Bell Potter Finance Facility, or there is change to any existing terms in relation to the Bell Potter Finance Facility, DGO must provide Gold Road with a written notice (**Financing Notice**) that includes details of the financing requirements and any alternative financing proposal (**Alternative Financing Proposal**) available to DGO. Gold Road then has 6 Business Days to provide a binding offer of finance to DGO (**GOR Financing Proposal**).

If the GOR Financing Proposal is considered by the DGO Board, acting reasonably and in good faith, to be on terms no less favourable to DGO than the Alternative Financing Proposals, then DGO may only meet the funding requirement by accepting that proposal. In the absence of any Alternative Financing Proposal or GOR Financing Proposal, DGO may sell any shares or other securities which DGO holds, other than De Grey Shares.

After the date which is 3 months following the commencement of the Offer Period, DGO may satisfy a funding requirement by sale of shares or other securities (other than De Grey Shares) provided that the price at which those securities are disposed is a price at no more than a 5% discount to the 5 day VWAP of those securities prior to the day immediately prior to the date of disposal.

(j) Termination

Clause 8 of the Bid Implementation Agreement sets out the termination rights of each party. These are summarised below.

- (i) Gold Road may terminate the Bid Implementation Agreement by written notice to DGO if at any time before the end of the Offer Period:
 - (A) any DGO Director fails to recommend that DGO Shareholders accept the Offer, or having recommended the Offer, withdraws, revises, revokes or qualifies their recommendation in relation to the Takeover Bid;
 - (B) DGO is in material breach of this agreement (including a material breach of a representation or warranty) and, to the extent that the breach is capable of remedy, that breach is not remedied by DGO within 5 Business Days of it receiving notice from Gold Road of the details of the breach and Gold Road's intention to terminate;
 - (C) a court or Government Agency has issued an order, decree or ruling, or taken other action, that permanently restrains or prohibits the Takeover Bid, and the action is final and cannot be appealed or reviewed or Gold Road, acting reasonably, believes that there is no realistic prospect of a successful appeal or review; or
 - (D) Gold Road withdraws the Takeover Bid or the Takeover Bid lapses for any reason, including non-satisfaction of a condition to the Takeover Bid.
- (ii) DGO may terminate the Bid Implementation Agreement by written notice to Gold Road if at any time before the end of the Offer Period:
 - (A) Gold Road is in material breach of the Bid Implementation Agreement (including a material breach of a representation or warranty given by DGO under clause 9 of the Bid Implementation Agreement) and, to the extent that the breach is capable of remedy, that breach is not remedied by Gold Road within 5 Business Days of it receiving notice from DGO of the details of the breach and DGO's intention to terminate;
 - (B) a court or Government Agency has issued an order, decree or ruling, or taken other action, that permanently restrains or prohibits the Takeover Bid, and the action is final and cannot be appealed or reviewed or DGO, acting reasonably, believes that there is no realistic prospect of a successful appeal or review;
 - (C) the completion of a Competing Proposal contemplated by clause 7.2(b)(ii) and payment of any Reimbursement Fee required to be paid under clause 7 of the Bid Implementation Agreement;
 - (D) prior to the date that is 3 months after the Announcement Date, DGO Shareholders (other than holders who are members of the DGO Board or holders who are owned or controlled by members of the DGO Board) who in aggregate hold more than 50% of the DGO Shares on issue deliver written unqualified truth in takeovers statements in accordance with *ASIC Regulatory Guide 25* to DGO and Gold Road that they will not accept the Offer in its current form, acknowledge that the statements are binding on them and authorise Gold Road to disclose those statements to ASX; or
 - (E) Gold Road withdraws the Offer or the Offer lapses for any reason, including non-satisfaction of a condition to the Takeover Bid.

(k) Customary provisions

The Bid Implementation Agreement contains such other provisions as is customary for an agreement of this nature including requirements in relation to directors' recommendations, DGO's obligation to facilitate the capital offer, restrictions on conduct of DGO business and board appointment arrangements.

(l) Directors' recommendation

Subject to Gold Road complying with the procedure to make the Offer, DGO agrees to procure that during the Exclusivity Period the DGO Directors publicly state the recommendation that DGO Shareholders accept the Offer to be made to them under the Takeover Bid in all material public announcements in relation to the Offer and do not withdraw, revise, revoke or qualify the recommendation that DGO Shareholders accept the Offer or make any public statement inconsistent with such recommendation, each in the absence of a Superior Proposal.

(m) Facilitating the Offer

During the Exclusivity Period, in the absence of a Superior Proposal, DGO and Gold Road must each use all reasonable endeavours and commit necessary resources (including management and corporate relations and external advisers) and procure that its Representatives work in good faith and in a timely and co-operative fashion with the other party (including by attending meetings and by providing the necessary records and information reasonably required), to implement the Offer in accordance with the timetable and the terms in the Bid Implementation Agreement. However, DGO will not be in breach of this section, if DGO or any of its Related Persons takes any action, or fails to take any action, to the extent permitted under the Bid Implementation Agreement

9.2 Status of defeating conditions

The Offer is subject to a number of conditions set out in **section 10.12**. Gold Road will provide updates on any material developments relating to the status of these conditions through announcements to the ASX.

Gold Road is not aware of any events or circumstances which would result in the non-fulfilment of any of the defeating conditions.

If you are an Ineligible Foreign Shareholder and you accept the Offer, the Gold Road Shares which would otherwise have been issued to the Ineligible Foreign Shareholder will instead be issued to a Sale Nominee approved by ASIC, who will then sell these securities. The net proceeds of the sale of such securities will then be remitted to the relevant Ineligible Foreign Shareholder.

See **section 10.11** of the Offer.

9.10 DGO Convertible Securities

Gold Road is not making a separate takeover offer to holders of DGO Convertible Securities. However, DGO Convertible Securityholders whose DGO Convertible Securities are exercised and converted into DGO Shares during the Offer Period will be able to accept the Offer in respect of the DGO Shares which they are issued.

Pursuant to the Bid Implementation Agreement, and conditional only on Gold Road's Offer being declared unconditional, DGO will make the DGO Convertible Offer to each remaining holder of DGO Convertible Securities in a form approved by Gold Road to cancel each of their DGO Convertible Securities for:

- (a) in the case of the DGO, the DGO Option Consideration; and
- (b) in the case of all other DGO Performance Rights holders, nil consideration.

Under the Bid Implementation Agreement, DGO and Gold Road must act co-operatively in connection with the DGO Convertible Offer which includes doing all things required to enable the cancellation of the DGO Convertible Securities in respect of completion of an offer that is accepted.

DGO Convertible Securityholders whose DGO Convertible Securities are exercised or converted into DGO Shares during the Offer Period will be able to accept the Offer in respect of the DGO Shares which they are issued.

The DGO Convertible Offer is conditional on the Offer being declared unconditional and must be completed within 5 Business Days of the Offer becoming unconditional.

Further details of the DGO Convertible Securities on issue are listed in **section 4.2**

9.11 ASX relief

- other than as is contained elsewhere in this Bidder's Statement.

10.3 Offer Period

Unless extended or withdrawn, this Offer will remain open for acceptance during the period commencing on the date of this Offer and ending at 7.00pm (Sydney time) on 9 May 2022.

Gold Road reserves the right, exercisable in its sole discretion, to extend the Offer Period in accordance with the Corporations Act provided that Gold Road must not extend the Offer Period beyond a date that is 6 months from the date of the Offer (**Initial Maximum Offer Period**) unless prior to the end of the Initial Maximum Offer Period Gold Road and its Associates together have relevant interests in more than 50.1% of DGO Shares (on a fully diluted basis), in which case Gold Road may extend the Offer Period to a date that is no more than 9 months from the date of the Offer.

in which case the Offer Period will be automatically extended so that it ends 14 days after the relevant event described in **sections 10.3(a)** or **10.3(b)** above.

- (c) If, at any time during the Offer Period and before this Offer is accepted, any person holds one or more distinct parcels of DGO Shares (for example, as trustee, nominee or otherwise on account of another person) within the meaning of section 653B of the Corporations Act then:
- (i) this Offer is deemed to consist of a separate corresponding Offer to that person in relation to each distinct parcel of DGO Shares; and
 - (ii) acceptance by that person of the Offer for any distinct parcel of DGO Shares is ineffective unless the person gives written notice to Gold Road in accordance with section 653B(3) of the Corporations Act stating that the Gold Road Shares consist of distinct portions and the acceptance specifies the number of the DGO Shares in each separate parcel to which the acceptance relates.
- (d) If your DGO Shares are registered in the name of a broker, investment dealer, bank, trust company or other nominee, you should contact that nominee for assistance in accepting the Offer.
- (e) This Offer is not registered in any jurisdiction outside Australia and this Bidder's Statement does not constitute an offer of Gold Road Shares in any jurisdiction in which it would be unlawful. In particular, this Bidder's Statement may not be distributed to any person, and the Gold Road Shares may not be offered or sold, in any country outside Australia except to the extent permitted in **section 9.9**. 10.5 Fractional entitlements

If the number of DGO Shares you hold is such that your entitlement to Gold Road Shares under this Offer is not a whole number, your entitlement to Gold Road Shares will be rounded up or down to the nearest whole number and your entitlement.

10.6 How to accept this Offer
