

ASX ANNOUNCEMENT

30 May 2022

GNM appoints experienced Exploration Manager

Great Northern Minerals Limited (“Great Northern Minerals” or the “Company”) (ASX: GNM) is pleased to announce the appointment of Mike Barr as Exploration Manager.

Mike has over 40 years experience within the mining and exploration industry as an explorationist, project manager and consultant. Mike has been involved in mine site development (Balcooma, Red Dome, Mungana, Gold Ridge, Mt Moss), brown and greenfield exploration within Australia (QLD & NSW), the Pacific Rim (PNG, Solomon Islands, Kalimantan) and Europe (Greece & Turkey).

Mike has extensive knowledge of the Great Northern Minerals’ assets from his tenure with Curtain Brothers where he held the roles of Chief Geologist and Mine Manager from 2006 to 2015. Curtain Brothers held and evaluated the Camel Creek, Golden Cup and Big Rush mines during this time.

Mike was also an Exploration Geologist at Kagara Zinc from 2003 to 2006 where he managed the exploration program and resource definition at Balcooma and Dry River South prior to commencement of the Balcooma open pit operations in mid 2006.

Mike holds a MSc. Economic Geology from James Cook University and is a member of the Australian Institute of Geologists.

Great Northern Minerals’ CEO & Managing Director, Cameron McLean said: *“The addition of Mike to the team is a significant boost to our technical capacity. Mikes understanding of the GNM projects is such an advantage and we are thrilled to have him on the team.”*

In addition to his consultancy fee, Mike will also be granted 3,000,000 GNMOF Listed Options and 3,000,000 GNMOB Listed Options.

This announcement has been authorised for release to the market by the Board of Great Northern Minerals Limited.

About Great Northern Minerals Limited

Great Northern Minerals Limited is an ASX-listed gold focused explorer and developer. The Company’s Golden Ant Project is located in Far North Queensland and includes the Amanda Bell and Big Rush Goldfields.

Total gold production from the Amanda Bell Goldfield was approximately 95,000 oz Au (57,000 oz from Camel Creek and 14,000 oz from Camel Creek satellite deposits plus 18,000 oz from Golden Cup and 6,000 oz from Golden Cup satellite deposits). Total gold production from the Big Rush Goldfield was 60,000 oz Au.

Three heap leach gold mines were operated (Camel Creek, Golden Cup and Big Rush). Mining activities commenced in 1989 and ceased in 1998 with the depletion of oxide gold mineralisation.

Great Northern Minerals aims to develop a new gold camp in North Queensland based on the Golden Ant Project.
