

Advisors appointed to lead strategic review of Misima Gold Project

Strategic review underway to assess options to maximise shareholder value

- The Kingston Board has commenced a strategic review of the Company's interest in the Misima Gold Project
- ICA Partners appointed to support strategic review process

Kingston Resources Limited (ASX: **KSN**) (**Kingston** or **the Company**) is pleased to announce that following the recent conclusion of the Misima Gold Project Definitive Feasibility Study the Kingston Board has commenced a strategic review of the Company's interest in the Project.

The review will assess all options to maximise shareholder value of Kingston's 100% interest in the Misima Gold Project. It will be conducted in parallel with ongoing Mining License and Environmental and Social Impact Assessment work programs which are expected to be concluded in the September quarter.

Kingston has appointed ICA Partners to support the strategic review process. ICA is specialist mining advisor with wide-ranging transactional experience gained over many years in many commodities and jurisdictions. It maintains widespread relationships across global corporate and capital markets.

Kingston Resources Managing Director, Andrew Corbett, said:

"The Board, in consultation with ICA Partners, look forward to investigating opportunities to advance the Company's interest in Misima by identifying, evaluating and entering into potential strategic transactions relating to the long-term value opportunity at Misima. We look forward to working on this exciting review, and we are confident that there are strategic opportunities to advance the Misima Gold Project, but more importantly to achieve significant value creation for our shareholders."

About Kingston Resources

Kingston Resources is a gold producer, focused on building a mid-tier gold and base metals company, with current production from the Mineral Hill gold and copper mine in NSW, and advancing its flagship development asset, the 3.8Moz Misima Gold Project in PNG.

Mineral Hill is a gold and copper mine located in the Cobar Basin of NSW. Alongside current production, exploration is focusing on near mine production opportunities from both open pit and underground targets located on the existing MLs. The aim will be to expand and update the existing Resource base to underpin mine feasibility work and approvals to ensure an immediate transition to open pit and/or underground feed at the completion of the tailings reprocessing.

Misima hosts a JORC Resource of 3.8Moz Au and an Ore Reserve of 1.73Moz. Misima was operated as a profitable open pit mine by Placer Pacific between 1989 and 2001, producing over 3.7Moz before it was closed when the gold price was below US\$300/oz. The Misima Project also offers outstanding potential for additional resource growth through exploration success targeting extensions and additions to the current Resource base. Kingston's interest in Misima is held through its PNG subsidiary Gallipoli Exploration (PNG) Limited.

The Misima Mineral Resource and Ore Reserve estimate outlined below was released in ASX announcements on 24 November 2020 and 15 September 2021 and 6 June 2022. Further information is included within the original announcements.

Misima JORC 2012 Mineral Resource & Ore Reserve summary table

Resource Category	Cut-off (g/t Au)	Tonnes (Mt)	Gold Grade (g/t Au)	Silver Grade (g/t Ag)	Au (Moz)	Ag (Moz)

Competent Persons Statement and Disclaimer

The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by Mr. Stuart Hayward BAppSc (Geology) MAIG, a Competent Person who is a member of the Australian Institute of Geoscientists. Mr. Hayward is an employee of the Company. Mr. Hayward has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Hayward confirms that the information in the market announcement provided is an accurate representation of the available data and studies for the material mining project and consents to the inclusion in this report of the matters based upon the information in the form and context in which it appears.

The Competent Person signing off on the overall Misima Ore Reserves Estimate is Mr John Wyche BE (Min Hon), of Australian Mine Design and Development Pty Ltd, who is a Fellow of the Australasian Institute of Mining and Metallurgy and who has sufficient relevant experience in operations and consulting for open pit metalliferous mines. Mr Wyche consents to the inclusion in this report of the matters based upon the information in the form and context in which it appears.

Kingston confirms that it is not aware of any new information or data that materially affects the information included in all ASX announcements referenced in this release, and that all material assumptions and technical parameters underpinning the estimates in these announcements continue to apply and have not materially changed.
