## **Breaker appoints Chief Financial Officer and Company Secretary**

Breaker Resources NL (ASX: BRB; **Breaker** or the **Company**) is pleased to advise that it has appointed Ms Lisa Wynne in the newly created role of Chief Financial Officer and Company Secretary effective immediately.

Ms Wynne is a Chartered Accountant and Chartered Secretary with more than 16 years' experience in finance, accounting, corporate governance, strategy, risk management, mergers and acquisitions, with previous and current roles as Chief Financial Officer, Company Secretary and Non-Executive Director for Not-for-Profit, ASX & TSX listed companies.

Lisa holds a Bachelor of Business and a Graduate Diploma of Applied Corporate Governance and Risk Management. She is a Fellow of the Governance Institute of Australia and a member of the Institute of Chartered Accountants and the Australian Institute of Company Directors.

Ms Wynne takes over the role of Company Secretary from Ms Sarah Sutcliffe, Breaker's Corporate Affairs Manager, allowing Ms Sutcliffe to accelerate the execution of the Company's corporate strategy and the continued delivery of corporate excellence to the organisation.

Ms Wynne is a valuable addition to the Breaker executive team, which significantly strengthens the Company's corporate management function, and follows the recent appointment of COO, Mr Sam Smith, to further progress Breaker's goal of becoming a significant WA gold producer at its flagship 1.7Moz Lake Roe Gold Project in WA's Eastern Goldfields region.

**Authorised by the Board of Directors,**

**Tom Sanders**  
Managing Director

## About Breaker Resources NL

Breaker Resources NL (ASX: BRB) is unlocking the potential of a new 1.7Moz greenfields gold district in the Kalgoorlie region of Western Australia, the world's top-ranked mining jurisdiction.

The operational strategy is to develop a large open pit and underground gold mine while concurrently drilling to keep expanding the rapidly growing Resource. Major shareholders include the Electrum Gold Fund (10%), Paulson and Co (10%) and Franklin Templeton (6%).

The key attributes of the Lake Roe Project are its scale and high-grade mining optionality. Gold at the main deposit starts 5m from surface and occurs over a 150m-wide zone in a 3km-long single pit configuration, part of a 9km-long gold system. High-grade lodes discovered in the last year have confirmed that open pit mining will transition to underground mining. Open pit PFS studies to date indicate no barriers to development.

Free-carried lithium interests situated within the Lake Roe project have the potential to fund a large part of the capital expenditure expected for a standalone development.

The Ularring Project, situated in the emerging SW Yilgarn mineral province, hosts a known gold-copper system and untested nickel and PGE potential in a large, previously undrilled mafic-ultramafic belt. BRB's initial drilling is expected to start in Q3 2022.
