

ASX:VYS

8 February 2022

Launch of Consulting Division

Vysarn Limited (ASX:VYS) (**Vysarn or Company**) is pleased to advise the incorporation and subsequent launch of a new wholly owned subsidiary Pentium Water Pty Ltd (**Pentium Water**) to provide water management consulting services in hydrogeology, hydrology and environmental planning.

The establishment of Pentium Water is the continuation of the Company's clearly defined strategy to build a vertically integrated whole of life, end to end water service business. Pentium Water will service the resource, urban development, utility, government and agricultural sectors.

Pentium Water has made two key appointments with Mr Shane McSweeney appointed as General Manager and Technical Director Urban Water Management effective from 15 February 2022, and Mr Ron Colman appointed as Technical Director Mine Water Management effective from 1 February 2022.

Mr McSweeney is an environmental scientist and engineer with over 16 years of experience as a water management practitioner providing consultancy services to industry on all aspects of water management including hydrology, hydrogeology, drainage design, water supply, alternate water supply, wastewater disposal and reuse, contaminated land and groundwater, urban water management and environmental impact assessments.

Mr Colman is a hydrogeologist with over 35 years of experience with a specific focus on providing water management solutions across projects involving small to large scale water supply developments from groundwater resources, mine dewatering and excess water disposal, regional hydrogeological investigations and overall mine groundwater management, licensing, and compliance reporting.

Several additional high calibre principal and senior appointments have also been made across hydrogeology and hydrology to form the foundation consulting team at Pentium Water.

Pentium Water has begun implementing an extensive business development program and anticipates the award of consulting work from current and prospective clients of the Company. In early business development, Pentium Water has entered into a 6 month fixed term sub consultancy agreement with RPS AAP Consulting Pty Ltd for the provision of water consultancy services from 1 February 2022.

In light of the ongoing growth of the Company and its wholly owned subsidiaries providing services across hydrogeological drilling, test pumping and water management consultancy, the Company is pleased to advise that it has established new corporate headquarters at 640 Murray Street, West Perth. The new offices will house the Vysarn and Pentium Water operations as well as providing space for future growth initiatives.

This announcement has been authorised for release by the board of Vysarn
