

Barton Welcomes Marc Twining as Exploration Manager

HIGHLIGHTS

- **Marc Twining to join Barton Gold as Exploration Manager from November 2021**
- **New South Australia-based exploration and project management office to be established**
- **Significant expansion of in-house South Australian exploration expertise and capabilities**

Barton Gold Holdings Limited (ASX: **BGD**) (**Barton** or the **Company**) is pleased to announce that Marc Twining will join the Company as Exploration Manager.

Marc is a highly experienced geologist with over 25 years' industry experience ranging from early stage exploration through to resource delineation and project development, with a particular emphasis on gold and base metals. He has extensive experience in South Australia and with the Gawler Craton and will lead the Company's large-scale exploration strategy from November 2021.

Marc will also establish and lead a new office based in Adelaide, South Australia which will include the development of a new local and exploration and project management team.

Marc is currently Exploration Manager for Argonaut Resources NL where he leads the company's Australian and African exploration programs. His experience includes more than a decade with Normandy Mining (acquired by and renamed as Newmont Mining in 2002) in Western Australia, the Northern Territory, Queensland and South Australia. Marc was also Exploration Manager for Rex Minerals Ltd, where he played a key role in the completion of feasibility studies and was part of the team that obtained regulatory approvals for the Hillside copper-gold project ~60km northwest of Adelaide, South Australia.

Marc's industry experience is also complemented by significant regulatory and policy expertise, having served as Senior Principal Geoscientist for the Geological Survey of South Australia from 2017 – 2020.

Commenting on the appointment of Marc Twining, Barton MD Alexander Scanlon said:

"We are very excited to welcome Marc to the team as we launch the next stage of our corporate evolution. A new dedicated team and presence is part of our long-term commitment to South Australia, and our vision to become the state's leading independent gold developer and producer."

"Marc brings a significant body of local knowledge, relationships and experience to the Company as we aggressively deploy our exploration funding into new regional geophysics and drilling. With a track record of exploration discovery success in South Australia, we are confident that he will make a significant contribution to the momentum we have already built thus far."

"Marc comes highly recommended and we are thrilled to have him joining the Barton team as we expand our already significant exploration and project management capabilities."

Authorised by the Board of Barton Gold Holdings Limited.

Competent Persons Statement & Previously Reported Information

The information in this announcement that relates to Exploration Results and Mineral Resources listed in the table below is based on, and fairly represents, information and supporting documentation prepared by the Competent Person whose name appears in the same row, who is an independent consultant to the Company and is a Member or Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM), Australian Institute of Geoscientists (AIG) or a Recognised Professional Organisation (RPO). Each person named in the table below has sufficient experience which is relevant to the style of mineralisation and types of deposits under consideration and to the activity which he has undertaken to qualify as a Competent Person as defined in the JORC Code 2012.

Activity	Competent Person	Membership	Status
Tarcoola Mineral Resource	Dr Andrew Fowler	AusIMM	Member
Tarcoola Exploration Results	Mr Colin Skidmore	AIG	Member
Tunkillia Mineral Resource	Dr Andrew Fowler	AusIMM	Member
Challenger Mineral Resource	Mr Dale Sims	AusIMM / AIG	Fellow / Member
Western Gawler Craton JV Mineral Resource	Mr Richard Maddocks	AusIMM	Fellow

The information relating to Exploration Results and Mineral Resources in this announcement is extracted from the Company's Prospectus dated 14 May 2021, available from the Company's website at www.bartongold.com.au or on the ASX website www.asx.com.au. The Company confirms that it is not aware of any new information or data that materially affects the Exploration Results and Mineral Resource information included in the Prospectus and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the Prospectus continue to apply and have not materially changed. The Company confirms that the form and context in which the applicable Competent Persons' findings are presented have not been materially modified from the Prospectus.

Cautionary Statement Regarding Forward-Looking Information

This document may contain forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "expect", "target" and "intend" and statements than an event or result "may", "will", "should", "would", "could", or "might" occur or be achieved and other similar expressions. Forward-looking information is subject to business, legal and economic risks and uncertainties and other factors that could cause actual results to differ materially from those contained in forward-looking statements. Such factors include, among other things, risks relating to property interests, the global economic climate, commodity prices, sovereign and legal risks, and environmental risks. Forward-looking statements are based upon estimates and opinions at the date the statements are made. Barton undertakes no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such dates or to update or keep current any of the information contained herein. Any estimates or projections as to events that may occur in the future (including projections of revenue, expense, net income and performance) are based upon the best judgment of Barton from information available as of the date of this document. There is no guarantee that any of these estimates or projections will be achieved. Actual results will vary from the projections and such variations may be material. Nothing contained herein is, or shall be relied upon as, a promise or representation as to the past or future. Any reliance placed by the reader on this document, or on any forward-looking statement contained in or referred to in this document will be solely at the readers own risk, and readers are cautioned not to place undue reliance on forward-looking statements due to the inherent uncertainty thereof.
