- Increase in job orders across all operating States
- Strong tailwinds in key operating sectors
- Post March Quarter announcement of Skill Hire Pty Ltd acquisition

27th April 2021: The GO2 People Ltd (ASX:GO2) ("The GO2 People" or "the Company") is pleased to release its March Quarter FY21 Activities Report and Appendix 4C. During Q3 FY21, and on the back of the completion of the Hunter Executive acquisition in March 2021, the Company has delivered a solid March Quarter highlighted by good cashflow and a number of positive operational achievements.

March FY21 Quarterly Update

The Company has continued to deliver EBITDA positivity recording \$55k for the March Quarter, which brings the YTD EBITDA to \$240k. The Group recorded a gross margin of 12% for the Quarter, vs 11.3% in the December Quarter, which increases the Group's Full Year margin to 11.25%. Cash at bank at the end of March 2021 sat at \$1.3M, an improvement on the \$671k at the end of the December Quarter.

Cashflow from operations was a positive \$750k for the quarter, an increase on previous quarters following additional collections from debtors during the period to March 31st, 2021. As revenues and results for both the March and December Quarters were similar, the reason for the additional receipts is largely timing related. A significant number of debtor receipts due at the end of December were paid in January. This was due to the Christmas shut down, which as noted in the December Quarter's report, negatively impacted the

December quarterly results. The YTD positive operational cashflows of \$575k has no timing impacts.

Operational costs and outflows for the quarter were consistent with the prior period. As the Company's operating outflows are 90% payroll or payroll related, oncosts including statutory payments, significant payments are made on a weekly basis or, have a fixed due date weekly or during the month. Given the nature of these outflows they cannot not be delayed to match the debtor payment delays, and as such the outflows have no timing related adjustments quarter on quarter. Government incentives through Job Keeper were received during the Quarter and have been included in operational cashflows.

The cashflows of Hunter Executive Search Consultants have been included in the quarterly results. Given the acquisition occurred in March the impact on the cashflow from operations was not significant. However, the transaction to acquire Hunter included the cash balance on acquisition of \$165k, which has been included in the cashflows from investing activities at Item 2.5 in the Appendix 4C.

As GO2's Labour Hire revenues grow organically, there is the potential for short term negative operational cashflow. GO2 is able to offset this net outflow position through the use of its \$15m working capital facility, held with Scottish Pacific, which can be drawn weekly, allowing sufficient headroom for Company growth. Repayments on the facility are linked to the collections from customers and movements in the facility are disclosed as a financing activity despite, in essence, the facility being an operational working capital funding source.

Payments to related parties as disclosed at Item 6 relate to payments to Directors for agreed services/fee and salary arrangements split as follows:

Non-Executive Director	\$ 20,531
Executive Directors	\$139,793

GO2 Recruitment

Positive results for the March Quarter have positioned the Recruitment Division to finish FY21 well and, with strong tailwinds heading into the new financial year, GO2 are well placed to take advantage of an uplift in job orders and projects throughout the country. A new Victorian Labour Hire licence was granted and received, indicating the high-quality operational standards held by the Company, and allowing it to operate its labour hire business in Victoria for the next 3 years at which time the Company will seek renewal.

The Company has been engaged by new clients seeking recruitment services throughout Australia during Q3 FY21 and it is currently in discussions with a number of potential new clients regarding upcoming projects. GO2's existing clients continue to increase their job order numbers in WA and QLD whilst new projects across both States continue to present new opportunities which are being tendered for by the Recruitment team.

Recently introduced on-boarding technology, Flare HR, is creating additional capacity and capability within the Recruitment team and has assisted with large volume orders and compliance. The Company continues to assess advancements in its industry leading operating systems, with a view to creating further operational efficiencies and improvements. Since the end of the March Quarter, in early April, an important operational achievement saw a new National Construction Enterprise Agreement approved by Fair Work, allowing the Company to operate under the conditions of this agreement in the construction sector for the next 4 years.

Hunter Executive

New subsidiary, Hunter Executive has had a strong March Quarter, culminating in a record for the most current job orders it has had since its inception. Importantly, and speaking to the quality of the service delivery, 90% of the job orders have been repeat business from existing clients on the back of the success in filling previous roles in our areas of expertise. Like GO2 Recruitment, Hunter is also seeing strong tailwinds in their key sectors with open jobs across Engineering, Environment & Water, Mining, and Government. Successfully completed Executive Search assignments this quarter include clients such as Perth Airport, the Autism Association of WA and IBN Group (the business' first Executive Search with an aboriginal corporation). Additional Executive Search roles have also been presented and they will commence shortly.

During Q3 FY21, Hunter have maintained a consistent contractor book throughout the quarter within the mining exploration space and have multiple open job orders. Critically, it has diversified its contractor book to ensure it is not heavily reliant on one or two key clients. Cross-sell opportunities into GO2 Recruitment's clients will further assist with this diversification. New clients have come on board in the March FY21 Quarter and white-collar permanent roles within the Engineering and Environmental industries have been successfully filled. A significant improvement from the previous Quarter has seen Hunter's white collar permanent fees have double, further evidence of the growing number of job orders and the high quality of the service delivery afforded to their clients.

GO2 Skills & Training

GO2's Training Division has continued to deliver steady revenues throughout Q3 FY21. A focus for the business has been to develop its internal digital marketing capability and become less reliant on third party providers in order to attract more consumers to its online training courses. In addition to this, the Company is beginning to see the benefits of developing relationships with new business clients that can deliver recurring revenues through its online offering. Additionally, GO2 has delivered face to face onsite training for a number of its existing clients. On the back of successful outcomes for these clients, the Training Division has secured a solid pipeline of works which will carry through into FY22. The Company is now deploying Trainers on a contract basis to various work sites to assist with the workflow.

Skill Hire Acquisition

Post March Quarter FY21, the Company announced the acquisition of one of Australia's leading Employment Services providers, Skill Hire Pty Ltd. The strategic acquisition of a highly synergistic business such as Skill Hire will provide a number of key benefits to the GO2 group that will drive shareholder value whilst providing a platform for future growth. The core business model of both businesses, being training and employment, is heavily geared towards the re-training and re-deployment of a national workforce impacted by the Covid-19 pandemic and addressing significant skills shortages in the resources and building & construction sectors.

The transaction is significantly earnings and cash flow accretive, with Skill Hire reporting unaudited revenue of \$23 million and EBITDA of \$1.6 million for the half year to 31 December 2020. Given the operational synergies between GO2 and Skill Hire the merged entity will see immediate cost rationalisation opportunities, which are expected to be in excess of \$500k on an annualised basis. Skill Hire's founders Robert Stockdale and Tony Fitzpatrick will join the Board of GO2, and the company also intends to recruit an additional Non-Executive Director prior to the 2021 Annual General Meeting.

Managing Director, Billy Ferreira: "We're pleased with the progress of the Company as whole in the March Quarter. Operationally, we continue to make inroads despite challenges on the back of Covid-19 and the completion of the Hunter deal has added another string to our bow. Our improved financial performance remains stable and the recent acquisition of Skill Hire, which we expect to be transformational in nature, provides us with an excellent platform to drive renewed growth and shareholder value. We're very excited and optimistic about what lies ahead."
