Hammer Metals Ltd (ASX:HMX) ("Hammer" or the "Company") is pleased to announce that it has successfully received binding commitments for a Single Tranche Placement to raise \$5M (before costs) at \$0.095 per new share ("**New Share**") through its placement capacity under ASX Listing Rule 7.1 ("**Placement**"). The Placement will introduce several new, high quality institutional and sophisticated investors, whilst also being well supported by existing significant shareholders of the Company.

Hammer will also launch a Share Purchase Plan to existing shareholders to participate at the same issue price as the Placement, to raise up to an additional \$1M (before costs) ("**SPP**"). Director Ziggy Lubieniecki has committed to taking up to \$500,000 of shortfall in the SPP (if any), subject to shareholder approval.

The Placement together with the SPP will raise up to \$6M ("**Capital Raising**") and in conjunction with existing cash reserves will enable Hammer to fund an:

- Aggressive exploration program in Mount Isa, including RC and diamond drill testing of high priority 'Trafalgar look alike' targets at Hammer's 100% owned copper-gold targets, including but not limited to Lakeview, Neptune, Serendipity, Kings, Alice and Charlotte;
- Potential extension and infill drilling at Sunset, Black Rock and Overlander to either define or extend JORC compliant resources;
- Near field exploration at Kalman including potential extensions to the existing JORC resources;

¹ Comprises \$5M proceeds from Placement (before costs) and cash balance as at 31 December 2021

- Target generation and drilling at the Bronzewing South and North Orelia projects at the Company's 100% owned Yandal Gold Project in Western Australia; and
- General working capital purposes.

Strong near-term news flow expected with an RC drill program scheduled to commence in Mount Isa by the end of April.

Hammer's Managing Director, Daniel Thomas said:

"We are delighted with the outcome of the Placement that was well supported by existing shareholders and a number of new institutional investors. With the recent success drilling Copper-Gold targets in Mount Isa, we are excited to continue the momentum by accelerating exploration efforts throughout the remainder of 2021."
