

KEY ENVIRONMENTAL APPROVAL GRANTED FOR WEST WILUNA

Fe Limited (ASX: **FEL**) (the **Company**) is pleased to provide an update on progress at its Wiluna West JWD Iron Ore Project (**JWD Project**).

The Company has received formal notification from the Department of Water and Environmental Regulation (**DWER**) that it has granted the Works Approval for the JWD Project.

As previously flagged the Works Approval represents the final primary environmental approval for the project and its grant facilitates the construction of the crushing and screening plant and associated infrastructure on site.

Chairman's Comment

FEL Executive Chairman Tony Sage commented "We are pleased that the Works Approval has been granted which largely completes the permitting process for the JWD project. As I mentioned in the last Company update, we are now starting to see the results flow through from all the team's work and we expect to continue to announce a steady stream of milestones being achieved in coming weeks as we finalise our preparation for commencement of mining."

Announcement released with authority of the FEL board of directors.

Yours faithfully
FE LIMITED

Tony Sage
Executive Chairman
