Spectrum Rare Earths Limited holds approximately 9,000km² of prospective land package across 16 (9 under application) tenements making it a significant ground holder in the Northern Territory of Australia. The business holds multiple consolidated project areas across several key geological and metallogenic terrains, affording it some opportunity to diversify exploration into many commodities. Spectrum's main focus is its Skyfall Heavy and Magnetic End Use Rare Earth District where it retains approximately 1,500km² of tenements. The Rare Earth District is located approximately 5 hours' drive south of Darwin.

The information in this interview/report that relates to exploration targets and exploration results is based on information compiled by Ian Bamborough, a Competent Person who is a Member of The Australian Institute of Geoscientists. Ian Bamborough is a fulltime employee and Director of Spectrum Rare Earths Limited, in addition to being a shareholder in the Company. Ian Bamborough has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Ian Bamborough consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
