### **ECOLOGIA CONTRACT WITH OIL BASINS LIMITED AT DERBY BLOCK PROJECT**

Ecologia Environmental Consultants Pty Ltd (Ecologia), a Perth based subsidiary of ASX listed Resource Development Group Ltd (RDG), are pleased to announce they have been awarded a contract to provide environmental consultancy services to Oil Basins Ltd (OBL) at their Derby Block project located in the Fitzroy Trough of the Canning Basin, East Kimberley, Western Australia.

OBL have appointed Ecologia to assist with biological surveys of 500 km of seismic lines and environmental approvals for a 2D seismic survey of the Derby Block project. Approvals will be undertaken in accordance with the Petroleum and Geothermal Energy (Environment) Regulations 2012.

"Ecologia is able to draw on a large team of experienced and accomplished scientists for this project who have worked closely with OBL on other recent projects and are familiar with the environmental values of the region, as well as the expectations of the Department of Mines and Petroleum," said Lazaro Roque-Albelo, General Manager of Ecologia.

The core tasks Ecologia are expected to carry out include environmental approvals management, documentation and stakeholder consultation, level one flora and fauna assessment of proposed seismic lines and heritage assessment management.

RDG's Managing Director Jeff Brill commented "It is pleasing to see Ecologia continue to secure work from a loyal and referring client base including both mining and oil & gas clients. Ecologia will continue to support both of these sectors, providing good diversification as part of RDG's overall strategy"

Yours faithfully,

Jeff Brill  
Managing Director
