

---

## HIGHLIGHTS

### GOLD PRODUCTION

- Total gold production for the quarter of 65,747 ounces at a pre-royalty cash cost of \$1,010 per ounce.
- Production and costs were significantly compromised by restricted operations resulting from impacts and remediation of flooded Garden Well and Rosemont pits.
- Total gold production for the year of 270,759 ounces.

### MOOLART WELL OPERATIONS

- Gold production of 26,469 ounces for the quarter (Mar 14 qtr: 26,434 oz).
- Cash cost of production A\$564 per ounce prior to royalties (Mar 14 qtr: A\$568/oz).
- Gold production for the year of 104,880 ounces at a cash cost of \$576 per ounce prior to royalties.

### GARDEN WELL OPERATIONS

- Gold production of 28,497 ounces for the quarter (Mar 14 qtr: 25,703 oz).
- Cash cost of production A\$1,299 per ounce prior to royalties.
- Operations impacted by restricted operations post flooding of the open pit in February 2014.
- Gold production for 2014 of 136,184 ounces at a cash cost of \$999/ounce (pre royalties).
- Flood pumping and remediation mining works reach practical completion by end of quarter.
- Construction of plant expansion (Rosemont Stage 2) completed on time and under budget. Commissioning and optimisation of the expanded plant underway.

### ROSEMONT GOLD PROJECT

- Gold production of 10,781 ounces for the quarter (Mar 14 qtr: 10,736 oz).
- Cash cost of production A\$1,342 per ounce prior to royalties.
- Operations severely impacted by restricted operations post flooding of the open pit in February 2014.
- Improvement in mill throughput and grade noted since the end of the quarter.

### CORPORATE

- Gold sales of 59,648 ounces at a delivered price of A\$1,411 per ounce (Mar 14: 66,249 oz at A\$1,447/oz).
- Cash flow from operations for the quarter was \$21.1 million (Mar 14: \$36.7m).
- Cash and gold bullion holding at 30 June 2014 was \$14.2 million (Mar 14: \$30.5m).
- Unaudited profit of \$79 million for year ended 30 June 2014 before tax and expected impairment charge of between \$230 – 280 million
- Extension of financing facility with Macquarie Bank Limited to \$70 million (\$40 million drawn) in a long term structure with repayments scheduled June 2015 to 2018.
- Regis joins the Gold Royalties Response Group in light of the possibility of an increase in gold royalties by the WA state government.

## MOOLART WELL OPERATIONS

### Production

Moolart Well Gold Mine operating results for the June 2014 quarter were as follows:

	Jun 2014	Mar 2014	Dec 2013
Ore mined (tonnes)	676,203	674,107	704,511
Ore milled (tonnes)	710,701	662,839	687,537
Head grade (g/t)	1.25	1.33	1.28
Recovery (%)	93	93	94
Gold production (ounces)	26,469	26,434	26,506
Cash cost per ounce (A\$/oz) – pre royalties	A\$564	A\$568	A\$566
Cash cost per ounce (A\$/oz) – incl royalties	A\$625	A\$633	A\$634

Regis completed another strong year of operations at the Moolart Well Gold Mine producing 104,880 ounces of gold at a pre-royalty cash cost of production of A\$576 per ounce. Gold production for the June 2014 quarter was 26,469 ounces at a pre-royalty cash cost of A\$564 per ounce.

During the quarter 322,000 bcm of ore and 1,182,000 bcm of waste were mined from the Moolart Well open pits for a total mining of 1.50 million bcm. Of the total material mined, 287,000 bcm was mined from laterite pits and 1,217,000 bcm was mined from the Stirling oxide deposit.

A total of 38 RC holes were drilled at the Wellington oxide deposit within the Moolart Well Gold Mine to infill drill the Inferred Oxide Resource. This drilling is part of Regis's ongoing mining inventory replacement strategy and will be incorporated in mining studies for Wellington in due course.

## GARDEN WELL OPERATIONS

### Production

Operating results at the Garden Well Gold Mine for June 2014 quarter were as follows:

	Jun 2014	Mar 2014	Dec 2013
Ore mined (tonnes)	1,401,407	1,220,822	1,742,912
Ore milled (tonnes)	1,045,747	1,134,329	1,227,736
Head grade (g/t)	0.96	0.86	1.12
Recovery (%)	89	87	84
Gold production (ounces)	28,497	25,703	37,206
Cash cost per ounce (A\$/oz) – pre royalties	1,299	NA*	A\$870
Cash cost per ounce (A\$/oz) – incl royalties	1,352	NA*	A\$939

\* Cash costs not reported in March 2014 quarter due to weather events affecting operations at Garden Well

Operations at Garden Well for the June 2014 quarter produced 28,497 ounces of gold. Post flood mining operations during the quarter were restricted to the southern stage 4 part of the open pit and milling operations continued with a blend of ore mined from this area and from the low grade stockpiles. Cash costs of operation for the quarter, at \$1,299 per ounce (pre royalties) were materially impacted by the disruptions of flood remediation, restricted mining areas available, processing plant restrictions due to compromised ore blend and downtime resulting from the integration of Rosemont stage 2 plant expansion.

Mill throughput during the quarter was an annualised rate of approximately 4.2mtpa, well below the Company's expectation of 5.0mtpa for the 2015 financial year. Throughput was adversely affected by:

- A 4 day shut-down to tie in the additional leaching tanks for the Rosemont Stage 2 expansion;
- Impact of wet ore on the crushing circuit early in the quarter;
- High proportion of harder chert ore from the restricted mining areas available in the stage 4 pit; and
- Plant shutdowns of 5 days for gyratory crusher reline and mill reline.

As reported in the operating update to ASX on 23 May 2014, the pump out of the flooded northern part of the Garden Well open pit was completed in May 2014. Since that time the focus in that area has been to mine off the sludge and sediment on the pit floor. This operation has progressed largely in accordance with plan and saw normal mining operations recommence in the area from early July 2014. Pictures below show remediation progress in the stage 1-3 pit at 30 June 2014.

Stage 1-3 looking north (30/6/14)

Stage 1-3 looking east (30/6/14) with grade control underway

Stage 1-3 looking south (30/6/14)

Mining in stage 1-3 (30/6/14)

## Garden Well Plant Expansion (Rosemont Stage 2)

The construction of additional leaching and associated infrastructure at the Garden Well processing plant (Rosemont Stage 2) reached practical completion late in the quarter, on time and under the \$20 million capital budget. The aim of the expansion of the plant is to maximise gold recoveries for the combined Garden Well and Rosemont ore flow through the wet plant of +7mtpa. Commissioning and optimisation of the operating configuration of the expanded plant was underway in July 2014 and will continue for most of the September 2014 quarter. The plant expansion is expected, once fully optimised, to facilitate gold recoveries for the combined projects in the order of 91-93%.

## ROSEMONT DEVELOPMENT AND OPERATIONS

Operating results at the Rosemont Gold Mine for the June 2014 quarter were as follows:

	Jun 2014	Mar 2014	Dec 2013
Ore mined (tonnes)	337,531	244,916	299,439
Ore milled (tonnes)	419,009	363,999	305,714
Head grade (g/t)	0.90	1.06	0.99
Recovery (%)	89	86	85
Gold production (ounces)	10,781	10,736	8,259
Cash cost per ounce (A\$/oz) – pre royalties	1,342	NA	NA
Cash cost per ounce (A\$/oz) – incl royalties	1,395	NA	NA

\* Cash costs not reported in March 2014 quarter due to weather events (March 14) and commissioning (Dec 13).

As previously reported to ASX, the pump out of the flood water in the Rosemont North pit was completed in late March 2014 and mining activities were able to be reactivated in a staged manner through April, although mining was stopped for over a week due to a pit wall failure (previously reported). This slip will require ongoing cutback to establish long term access. Mining in the Rosemont Main pit continued through April but has been confined to waste removal only.

Mining of ore during the quarter was largely confined to the flat lying oxide area of the Rosemont North pit. As previously reported, grade reconciliation in this area of the North pit has been poor to date and this has contributed to lower than expected production from Rosemont for the period. Mining of this flat lying oxide zone in the North pit is almost completed. It is expected that the more vertically orientated fresh rock component of the orebody will perform more predictably.

Only limited ore has been mined out of the Rosemont Main pit to date so no history of reconciliation is available. However, it is noted that the next 30 – 40 vertical metres (approx. 6 months of mining) of the ore supply in the Main pit is scheduled from the flat lying oxides so these may also be impacted to some degree by the difficulty in interpretation of this zone. This has been reflected in the guidance given for 2015 production.

Rosemont gold production was also significantly affected by the requirement to mill low grade and historical stockpiles (with grades between 0.35 – 0.55g/t) for extended periods when ore supplies were not available from the post flood mining schedule during the quarter. Production was further affected by several days of plant shutdowns due to interrupted ore supply from the Rosemont North pit as a result of the slip and stoppages required for electrical works associated with the upgrade of the pipeline to Garden Well.

The severely compromised nature of operations during the quarter as described above led to gold production for the quarter of 10,781 ounces. This is obviously materially lower than the long term expected run rate (refer 2015 guidance given 23 May 2014) and as a consequence the cash operating cost was significantly impacted, at \$1,342 per ounce (pre royalties).

Encouragingly since the end of the quarter both mill throughput and head grade have improved significantly.

---

## EXPLORATION

---

### **Duketon Gold Project**

Limited field work was conducted on exploration projects during the June 2014 quarter. An aircore drilling programme was conducted on regional targets across the Duketon Gold Project tenement package. The programme concentrated on targets surrounding the Moolart Well deposit. A total of 14 aircore holes were drilled for 832 metres with all results from this aircore drilling programme still pending.

### **McPhillamys Gold Project**

No further drilling was conducted at the McPhillamys project during the quarter. A programme of soil sampling was completed around the McPhillamys deposit to define exploration potential and sterilize potential infrastructure sites. All results are pending. The geological interpretation and wireframing of the McPhillamys mineralised ore zone continued as part of the programme to update the Resource. Along with this work, infrastructure studies and related commercial discussions continued.

Since the end of the quarter (and as announced to ASX earlier today) the board has reviewed its strategy for the project given a fall in the A\$ gold price of in excess of 20% since acquisition. This review incorporated accumulated knowledge of geological, operating and infrastructure parameters, including an assessment of the current progress towards securing a long term source of process water.

Whilst this review suggests that the project remains viable at the current gold price (if infrastructure requirement issues can be solved) the board has decided that the potential return on investment does not meet its hurdle rate at the current time. Accordingly the Company does not anticipate progressing to a feasibility study process in the near term.

The Company will however continue to undertake cost effective work on the project, with a view to being in the best possible position to expedite development if and when circumstances permit. The board believes that the significant gold resource at McPhillamys will deliver real value for shareholders at some time in the future and remains an important project in the Company's portfolio.

---

## CORPORATE

### Gold Sales & Hedging

The Company had a hedging position at the end of the quarter of 260,475 ounces, being 192,751 ounces of flat forward contracts with a delivery price of A\$1,436 per ounce and 67,724 ounces of spot deferred contracts with a price of A\$1,414 per ounce.

During the June 2014 quarter, Regis sold 59,648 ounces of gold at an average price of A\$1,411 per ounce (Mar 14 qtr: 66,249 ounces at A\$1,447 per ounce).

### Cash Position

As at 30 June 2014 Regis had \$14.2 million in cash and bullion holdings (Mar 2014: \$30.5m). Operating cash flow from the Duketon Gold Project was \$21.1 million for the June 2014 quarter (Mar 2014: \$36.7 million). A copy of the Company's Mining Exploration Entity Quarterly (Appendix 5B) report in accordance with Listing Rule 5.3 is attached.

### Unaudited Profit for Year Ended 30 June 2014

The Company has recorded an unaudited profit before tax of \$79 million for year ended 30 June 2014 (2013 audited: \$201 million). This unaudited profit is before the expected impairment charge of between \$230 – 280 million referred to in announcement to ASX on 30 July 2014.

### Corporate Debt Facility

In response to the flooding event at the Duketon Project in February 2014 the Company extended its corporate loan facility with Macquarie Bank Limited from a limit of \$20 million to \$70 million. During the June 2014 quarter the Company drew down \$25 million on the facility, taking the total drawn amount at 30 June 2014 to \$40 million.

---

### **GOLD ROYALTIES RESPONSE GROUP**

The West Australian Government opened a consultation period for a review of the State's mineral royalty system in 2013. The outcome of the review is expected to be announced ahead of the 2015 State Budget. Based on the exemptions for petroleum and magnetite iron ore included in the review's terms of reference and the State Agreements that apply to many major resources project's, Regis believes there is a reasonable basis to expect the gold industry will be targeted as part of the review.

This has the potential to impact the value of the Company's Duketon project. The Board believes it is in the best interests of shareholders for us to be part of a group offering a coordinated response to this issue and has joined the Gold Royalties Response Group (GRRG).

The GRRG represents the interests of Western Australian gold producers in response to the State Government's mineral royalty review. Working in collaboration with the Association of Mining and Exploration Companies and the Chambers of Minerals and Energy of Western Australia, the GRRG offers its members a platform to address the gold royalties issue with a united voice. Independent research has confirmed any increase in gold royalty rates may result to mine closures, cutbacks in exploration, widespread job losses and have a negative flow-on effect for the State's economy.

Regis believes it is important to stand up for the gold sector by supporting a state-wide public awareness campaign to communicate the considerable social and economic value gold mining operations bring to regional Western Australia. Together, state gold producers employ more than 25,000 Western Australians. We create opportunity, employment and prosperity to support the communities in which we work.

We will keep shareholders updated on this issue and the work of the GRRG. For more information visit [www.grrg.com.au](http://www.grrg.com.au).

Quarter ended ("current quarter")

**30 June 2014**

#### Consolidated statement of cash flows

Cash flows related to operating activities	Current quarter \$A'000	Year to date (12 months) \$A'000
1.1 Receipts from product sales and related debtors	84,155	385,542
1.2 Payments for:		
(a) exploration & evaluation	(2,321)	(14,114)
(b) development*	(4,868)	(77,899)
(c) production	(63,067)	(225,931)
(d) administration	(1,546)	(6,117)
1.3 Dividends received	-	-
1.4 Interest and other items of a similar nature received	95	862
1.5 Interest and other costs of finance paid	(1,084)	(1,604)
1.6 Income taxes paid	(32,009)	(32,009)
1.7 Other (provide details if material)		
(a) Option premium income	-	2,949
(b) Other	3	565
<b>Net Operating Cash Flows</b>	<b>(20,642)</b>	<b>32,244</b>
<b>Cash flows related to investing activities</b>		
1.8 Payment for purchases of:		
(a) prospects	-	-
(b) equity investments	-	-
(c) other fixed assets	(5,418)	(21,709)
1.9 Proceeds from sale of:		
(a) prospects	-	-
(b) equity investments	-	-
(c) other fixed assets	-	-
1.10 Loans to other entities	-	-
1.11 Loans repaid by other entities	-	-
1.12 Other (provide details if material):		
(a) Payments for mine property development	(10,364)	(33,411)
(b) Other	(2)	5
<b>Net investing cash flows</b>	<b>(15,784)</b>	<b>(55,115)</b>
1.13 Total operating and investing cash flows (carried forward)	<b>(36,426)</b>	<b>(22,871)</b>

\* Includes capitalised pre-production expenditure for the period.

**Appendix 5B**

**Mining exploration entity and oil and gas exploration entity quarterly report**

		Current quarter \$A'000	Year to date (12 months) \$A'000
1.13	Total operating and investing cash flows (brought forward)	(36,426)	(22,871)
<b>Cash flows related to financing activities</b>			
1.14	Proceeds from issues of shares, options, etc.	-	3,020
1.15	Proceeds from sale of forfeited shares	-	-
1.16	Proceeds from borrowings	25,000	39,990
1.17	Repayment of borrowings	-	-
1.18	Dividends paid	-	(74,671)
1.19	Other (provide details if material) (a) Share issue costs	-	(73)
<b>Net financing cash flows</b>		25,000	(31,734)
<b>Net increase (decrease) in cash held</b>		(11,426)	(54,605)
1.20	Cash at beginning of quarter/year to date	18,041	61,220
1.21	Exchange rate adjustments to item 1.20	-	-
1.22	<b>Cash at end of quarter*</b>	6,615	6,615

\* Not included in cash at end of quarter is gold on hand of 5,209oz at \$1,460/oz for \$7.6 million.

**Payments to directors of the entity, associates of the directors, related entities of the entity and associates of the related entities**

		Current quarter \$A'000
1.23	Aggregate amount of payments to the parties included in item 1.2	249
1.24	Aggregate amount of loans to the parties included in item 1.10	-
1.25	Explanation necessary for an understanding of the transactions	

+ See chapter 19 for defined terms.

### Non-cash financing and investing activities

- 2.1 Details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

Nil.

- 2.2 Details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

Nil.

### Financing facilities available

Add notes as necessary for an understanding of the position.

	Amount available \$A'000	Amount used \$A'000
3.1 Loan facilities	70,000	40,000
3.2 Credit standby arrangements	-	-

### Estimated cash outflows for next quarter

	\$A'000
4.1 Exploration and evaluation	1,600
4.2 Development	3,000
4.3 Production	106,000
4.4 Administration	2,200
<b>Total</b>	<b>112,800</b>

\* Does not include any receipts from operations.

### Reconciliation of cash

Reconciliation of cash at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts is as follows.

	Current quarter \$A'000	Previous quarter \$A'000
5.1 Cash on hand and at bank	6,615	18,041
5.2 Deposits at call	-	-
5.3 Bank overdraft	-	-
5.4 Other (provide details)	-	-
<b>Total: cash at end of quarter (item 1.22)</b>	<b>6,615</b>	<b>18,041</b>

\*\* Not included in cash at end of quarter is gold on hand of 5,209oz at \$1,460/oz for \$7.6 million (Previous quarter: 8,542oz at \$1,460/oz for \$12.5 million)

### Changes in interests in mining tenements and petroleum tenements

	Tenement reference and location	Nature of interest (note (2))	Interest at beginning of quarter	Interest at end of quarter
6.1 Interests in mining tenements and petroleum tenements relinquished, reduced or lapsed	E38/1914	Surrendered	100%	0%
	L38/116	Surrendered	100%	0%
	L38/134	Surrendered	100%	0%
	L38/138	Surrendered	100%	0%
	L38/139	Surrendered	100%	0%
	L38/142	Surrendered	100%	0%
	L38/181	Surrendered	100%	0%
	L38/189	Surrendered	100%	0%
	L38/190	Surrendered	100%	0%
	L38/212	Surrendered	100%	0%
	L38/219	Surrendered	100%	0%
L38/228	Surrendered	100%	0%	
6.2 Interests in mining tenements and petroleum tenements acquired or increased	E38/2955	Application	0%	51%
	E38/2830	Granted	100%	100%
	M38/1265	Granted	100%	100%

Supplementary information required under Listing Rule 5.3.3 is provided at the end of this report.

### Issued and quoted securities at end of current quarter

Description includes rate of interest and any redemption or conversion rights together with prices and dates.

	Total number	Number quoted	Issue price per security (see note 3)	Amount paid up per security (see note 3)
7.1 <b>Preference securities</b>	-	-	-	-
7.2 Changes during quarter				
(a) Increases through issues	-	-	-	-
(b) Decreases through returns of capital, buy-backs, redemptions	-	-	-	-
7.3 <b>+Ordinary securities</b>	499,744,095	499,744,095	-	-

## Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
