

# THUNDELARRA

**ASX/Media Announcement**

**10 February 2016**

## Corporate Update Presentation

Thundelarra's CEO is presenting the attached Corporate Update to investors and brokers in Melbourne and Sydney.

The Corporate Update presents broad geological developments from recent drilling at Red Bore. The completed drilling programme has added to our understanding of the geology and the potential at both Gossan and Impaler. Core is currently being cut for assay from a number of the holes drilled and full assay details and interpretation will be announced when available.
