This is part of the capital raising engagement agreement for the recapitalisation process that the Company announced on 4th July 2014. Exploration

The Company has a 100% interest in the Erongo (Area 51) Graphite Project in Namibia, located approximately 275km northwest of the capital Windhoek.

The Company conducted drilling, sample analysis and geophysical survey activities at the project during the previous reporting period. The Company's current reporting period workings were based on conducting a comprehensive review of all available data on the Erongo Graphite Project to determine its strategy with the project. The company has not made any final decision on progressing the project further pending further analysis and funding opportunities.

The Company has assessed several other business opportunities during the Reporting Period, including due diligence of an African resources project, however these were considered not acceptable. The Company is proactively working to identify and review other new projects or asset acquisition opportunities, to enhance its project portfolio and increase the overall value proposition of AGY. The Company is working to ensure it is best placed to deliver value and upside potential for all its shareholders.

Independent Review Report to the Members of Argosy Minerals Limited

The financial report and directors' responsibility

The interim consolidated financial report comprises the statement of financial position, statement of comprehensive income, statement of changes in equity, cashflow statement, accompanying notes to the financial statements, and the directors' declaration for Argosy Minerals Limited for the half-year ended 30 June 2015.

The Company's directors are responsible for the preparation and fair presentation of the consolidated financial report in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Review approach

We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the interim consolidated financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated financial position as at 30 June 2015 and the performance for the half year ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of Argosy Minerals Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Independence

In conducting our review we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim consolidated financial report of Argosy Minerals Limited is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the consolidated financial position as at 30 June 2015 and of the performance for the half-year ended on that date; and
- complying with Australian Accounting Standard AASB134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 30 JUNE 2015

1. Basis of Preparation

The financial report consists of consolidated financial statements for Argosy Minerals Limited and its subsidiaries ("Group").

a) *Basis of Preparation*

The half-year financial report is a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001, applicable Accounting Standards including AASB 134 'Interim Financial Reporting' and other mandatory professional reporting requirements including International Financial Reporting Standards. Accordingly, this financial report should be read in conjunction with the most recent annual financial report for the year ended 31 December 2014 and any public announcements made by the Group during the half year in accordance with the disclosure requirements of the *Corporations Act 2001*.

New accounting standards and interpretations

In the half-year ended 30 June 2015, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 January 2015.

The Board of Directors review internal management reports on a monthly basis that is consistent with the information provided in the statement of comprehensive income, statement of financial position and statement of cash flows. As a result no reconciliation is required because the information as presented in the face of the financial statements is what is used by the Board to make strategic decisions.
