

## **DTI to Provide Video Surveillance Systems for Philadelphia buses.**

**17 August 2015** – DTI Group Ltd (ASX: DTI) ("DTI") is pleased to advise the receipt of an order for DTI's advanced bus surveillance systems for new buses destined for Philadelphia, USA.

The contract includes the provision of systems on 97 buses.

The supply utilises DTI's comprehensive back-end CCTV management solution which centralises and coordinates the bus CCTV data and allows video evidence to be recovered from the buses through an on-line automated CCTV 'booking' system providing ongoing benefits through the easy management of equipment, video retrieval and video storage. Each bus will be equipped with DTI's latest Mobile Digital Recorder (MDR-5L) with accelerometer plus wireless infrastructure and GPS-based vehicle location system.

### **About DTI Group**

DTI provides sophisticated surveillance systems, solutions and services to the mobile security industry worldwide. DTI's clients are transit agencies, transit operators, freight operators, law enforcement authorities and taxi organisations which are offered a range of professional products and services that encompass on-board recording equipment, fleet management systems, back-end mass storage and retrieval facilities and end-to-end managed services. Sales and project delivery is undertaken both by DTI directly and through its global partners' network.

DTI is a recognised supplier to the mass transit surveillance market. Core technology development and system design activities are undertaken from the Company's Perth office.
