Notes to the Financial Statements

1. Corporate information

Norwood Systems Pty Ltd is an unlisted private company, incorporated and domiciled in Australia. Norwood Systems Pty Ltd is a for-profit entity for the purpose of preparing the financial statements. These financial statements are for the period 1 July 2014 to 31 December 2014 and was authorised for issue in accordance with a resolution of the Directors on 6 March 2015.

These financial statements are for Norwood Systems Pty Ltd Limited (the Company) referred to as 'Norwood' or the Company.

The nature of the operations and the principal activities of the Company are described in the Directors' Report.

2. Basis of preparation

The half year financial statements are a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001 and Accounting Standard AASB 134: Interim Financial Reporting.

The half year financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, it is recommended that these financial statements be read in conjunction with the annual financial report for the year ended 30 June 2014.

Reporting basis and conventions

The half year financial statements have been prepared on an accruals basis and are based on historical costs.

New and amended standards adopted by the Company

None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 July 2014 affected any of the amounts recognised in the current period or any prior period and is not likely to affect future periods.

Going concern

This report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The Company incurred a net loss after tax for the half year ended 31 December 2014 of \$675,710 and experienced net cash outflows from operating activities of \$521,404 and net cash inflows for financing activities of \$524,881. At 31 December 2014, the Company had a net current liability position of \$1,604,068 and cash and cash equivalents balance of \$27,793. Notwithstanding this, the Directors believe that there are reasonable grounds to believe that the Company will be able to continue as a going concern, after consideration of the following:

- The Company is in the process of being acquired by Monteray Mining Group ("Monteray"), an ASX listed entity) having signed a binding term sheet on the 9 December 2014. The transaction is subject to a number of conditions as follows:

Notes to the Financial Statements

2. Basis of preparation (cont'd)

Going concern (cont'd)

- Mutual due diligence (completed on 21 January 2015);
- All outstanding convertible notes being either converted into ordinary shares or cancelled;
- 100% of the offers by Monteray to the Company shareholders and convertible noteholders;
- Execution of a formal sale and purchase agreement;
- The Company creditors at the completion of the Transaction not exceeding \$280,000;
- Monteray raising a minimum of \$3.75 million in conjunction with re-complying with Chapters 1 and 2 of the ASX Listing Rules; and
- Monteray shareholder approval.

At the date of this report, these conditions and the transaction have not been completed. In February 2015, Monteray have confirmed their intention to waive the condition precedent that Norwood creditors not exceed \$280,000.

- At 31 December 2014 the Company owed Ocean Broadband Pty Ltd, a Company related through the common control of Paul Ostergaard, \$105,259. At 31 December 2014 the Company owed related party Ostergaard Family Trust \$33,506. Both loans are repayable on demand however neither have been called on at the date of this report.
- In July 2014 the Company entered into a \$280,000 loan agreement with Innovative Technology Funding Pty Ltd under which \$259,000 was drawn by the Company as at the date of this report. Interest is payable on the loan monthly at an annual rate of 16%. The loan is secured against any future income tax refunds received by the Company and is repayable on the earlier of the date that the Company receives a tax refund in relation to the year ending 30 June 2014 or 20 months from the date of draw down. The balance of the loan will be drawn down to pay remaining trade payables that do not have a deferral arrangement and for working capital until funds are raised via an equity raising as detailed in the above Monteray transaction.
- Approximately \$355,000 of the Company's convertible notes matured on 31 January 2015 with an additional \$338,719 maturing on the 7 March 2015. The Company expects the notes to be converted to shares in the Company as part of the Monteray transaction noted above and as at the date of signing these financial statements the Company is in the process of implementing formal agreements with the note holders to this effect. Between 31 December 2014 and the date of signing these financial statements, the Company has issued a further 314,085, \$1 par value convertible notes on the same terms and conditions as described at note 10, raising \$314,085 to fund the working capital requirements of the Company.

In considering the above, the directors have reviewed the Company's financial position and are of the opinion that the use of the going concern basis of accounting is appropriate as they believe the Monteray transaction will complete and the Company will be successful in securing additional funds through an equity issue, which will be used to repay the debts of the Company.

Should the Company not achieve the matters set out above, there is significant uncertainty whether the Company will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The financial report does not contain any adjustments relating to the recoverability and classification of recorded assets or to the amounts or classification of recorded assets or liabilities that might be necessary should the Company not be able to continue as a going concern.

Report on the half-year financial report

We have reviewed the accompanying half-year financial report of Norwood Systems Pty Ltd, which comprises the statement of financial position as at 31 December 2014, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the company's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Norwood Systems Pty Ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Norwood Systems Pty Ltd is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the company's financial position as at 31 December 2014 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Emphasis of matter

Without qualifying our opinion, we draw attention to Note 2 in the financial report which describes the principal conditions that raise doubt about the company's ability to continue as a going concern. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the company's ability to continue as a going concern and therefore, the company may be unable to realise its assets and discharge its liabilities in the normal course of business.
