29 July 2015

FOR IMMEDIATE RELEASE:

iWEBGATE UPDATES TELSTRA ARRANGEMENT

Further to iWebGate Limited's announcement dated 4 May 2015 regarding its arrangements with Telstra Corporation Limited (ASX: TLS "**Telstra**"), the Company is pleased to announce it has signed additional agreements with Telstra.

Telstra Professional Services Agreement

iWebGate has executed a Telstra Professional Services Agreement (TSPA). This agreement allows iWebGate to charge certain services directly to the Telstra customer accounts.

Variation to Telstra Online Services Agreement – Cloud Service Module

The Telstra Online Services Agreement (**TOSA**) between the Company and Telstra has been varied to include a Cloud Service Module. This allows iWebGate to promote specific Cloud Services, delivered through Telstra.

- **Ends –**

About iWebGate

iWebGate Limited is a technology company pioneering the Virtualization of Network Services. This new abstraction layer provides operational simplicity and new capabilities across all networks. iWebGate's segregation technology takes best practice DMZ Security and Cyber Kill Chain Processes and incorporates a "client delivery" model that enables secure provisioning to every segment of the market. Their software suite abstracts the network layer from all existing networks, allowing for internal stratification and endpoint security for all services and devices. iWebGate features a patented network linking technology, providing next generation VPN connectivity. All network services can be accessed via a secure, encrypted mobile container built for virtually every operating system and for any device: phone, tablet or laptop.
