13 April 2015

## **Cleansing Statement**

### **Notice under Section 708A(5)(e) Corporations Act**

WHL Energy Limited entered into a short term funding arrangement dated 7 April 2015 that required the payment of a premium by way of both shares and cash. On 8 April 2015, 1,153,846 ordinary shares were issued pursuant to this agreement at \$0.026 per share for \$30,000.

Accordingly the Company gives notice under section 708A(5)(e) of the *Corporations Act 2001* (Cth) (the "Corporations Act") that:

1. the abovementioned ordinary shares were issued without disclosure to investors under Part 6D.2 of the *Corporations Act*;
2. as at the date of this notice the Company has complied with:
  - (a) the provisions of Chapter 2M *Corporations Act* as they apply to the Company; and
  - (b) section 674 *Corporations Act*; and
3. as at the date of this notice there is no "excluded information" (as defined in subsection 708A(7) of the *Corporations Act*) which is required to be disclosed by the Company.

Yours faithfully

**WHL Energy Limited**

## **About WHL Energy Limited**

ASX-listed WHL Energy Ltd (ASX: WHN) is an oil and gas exploration Company focussed on East Africa and Australia.

WHL Energy holds a 12,856 km<sup>2</sup> exploration area offshore Seychelles, at 25% equity. A world class exploration portfolio and new exploration concepts are being matured in the acreage. WHL Energy has mapped a prospect and lead inventory containing at least 18 features. The company farmed in proven East Africa explorer, Ophir Energy plc as Operator of the Block.

The high graded Junon leads will be matured for drilling with a 1,500 km<sup>2</sup> 3D seismic survey completed in July 2014. Additional new play concepts are being developed. Most structures identified to date are in < 50 m water with drilling targets at < 2000m depth, allowing for low cost drilling with a jack up rig.

WHL Energy also holds 100% equity in Exploration Permit VIC/P67 in the offshore Otway Basin, approximately 200 km WSW of Melbourne off the Victorian coastline. VIC/P67 contains the undeveloped La Bella gas field in proximity to the Victorian gas market, and several nearby exploration prospects. The La Bella 3D seismic survey was acquired in late 2013 to appraise the La Bella field and also firm up the exploration prospects. Initial results of the 3D seismic survey are encouraging and have identified structurally conformable amplitude anomalies associated with several of the key prospects.

The Company is also actively investigating growth opportunities in the wider African region.
